

LAUNCH A MARKET-READY SOFTWARE IN WEEKS

Lightning-fast turnaround for digital transformation
powered by visual development & automation

**Full-code custom software
development made modern &
easy through automation**

up to **70%**

**Faster build &
time to market**

30%

**cheaper than
outsourcing**

Building your software with Xamun

Xamun is a visual development platform powered by automation that creates custom web and mobile software in as fast as 6 weeks. As a low-code alternative, Xamun offers better flexibility and customizability and does not have recurring subscription fees. More importantly, Xamun lets you take ownership of the software's source code and IP.

- ✓ **Caters to web and mobile apps as well as backend systems**
- ✓ **Well-documented, & human-readable source code output**
- ✓ **Pre-tested components with built-in unit tests**
- ✓ **Fixed & predictable costs – no recurring subscription fees**
- ✓ **Faster than using low-code platforms**
- ✓ **You own the intellectual property and code**

Digital Solutions Rolled Out by Xamun
