# Our Vision

Improve global education by implementing a state-of-the-art cloud solution available at a reasonably low cost for any school, university or college all around the world. We commit to having the most sophisticated, user-friendly and functional complete SaaS platform, easily accessible by any type of academic institution worldwide.

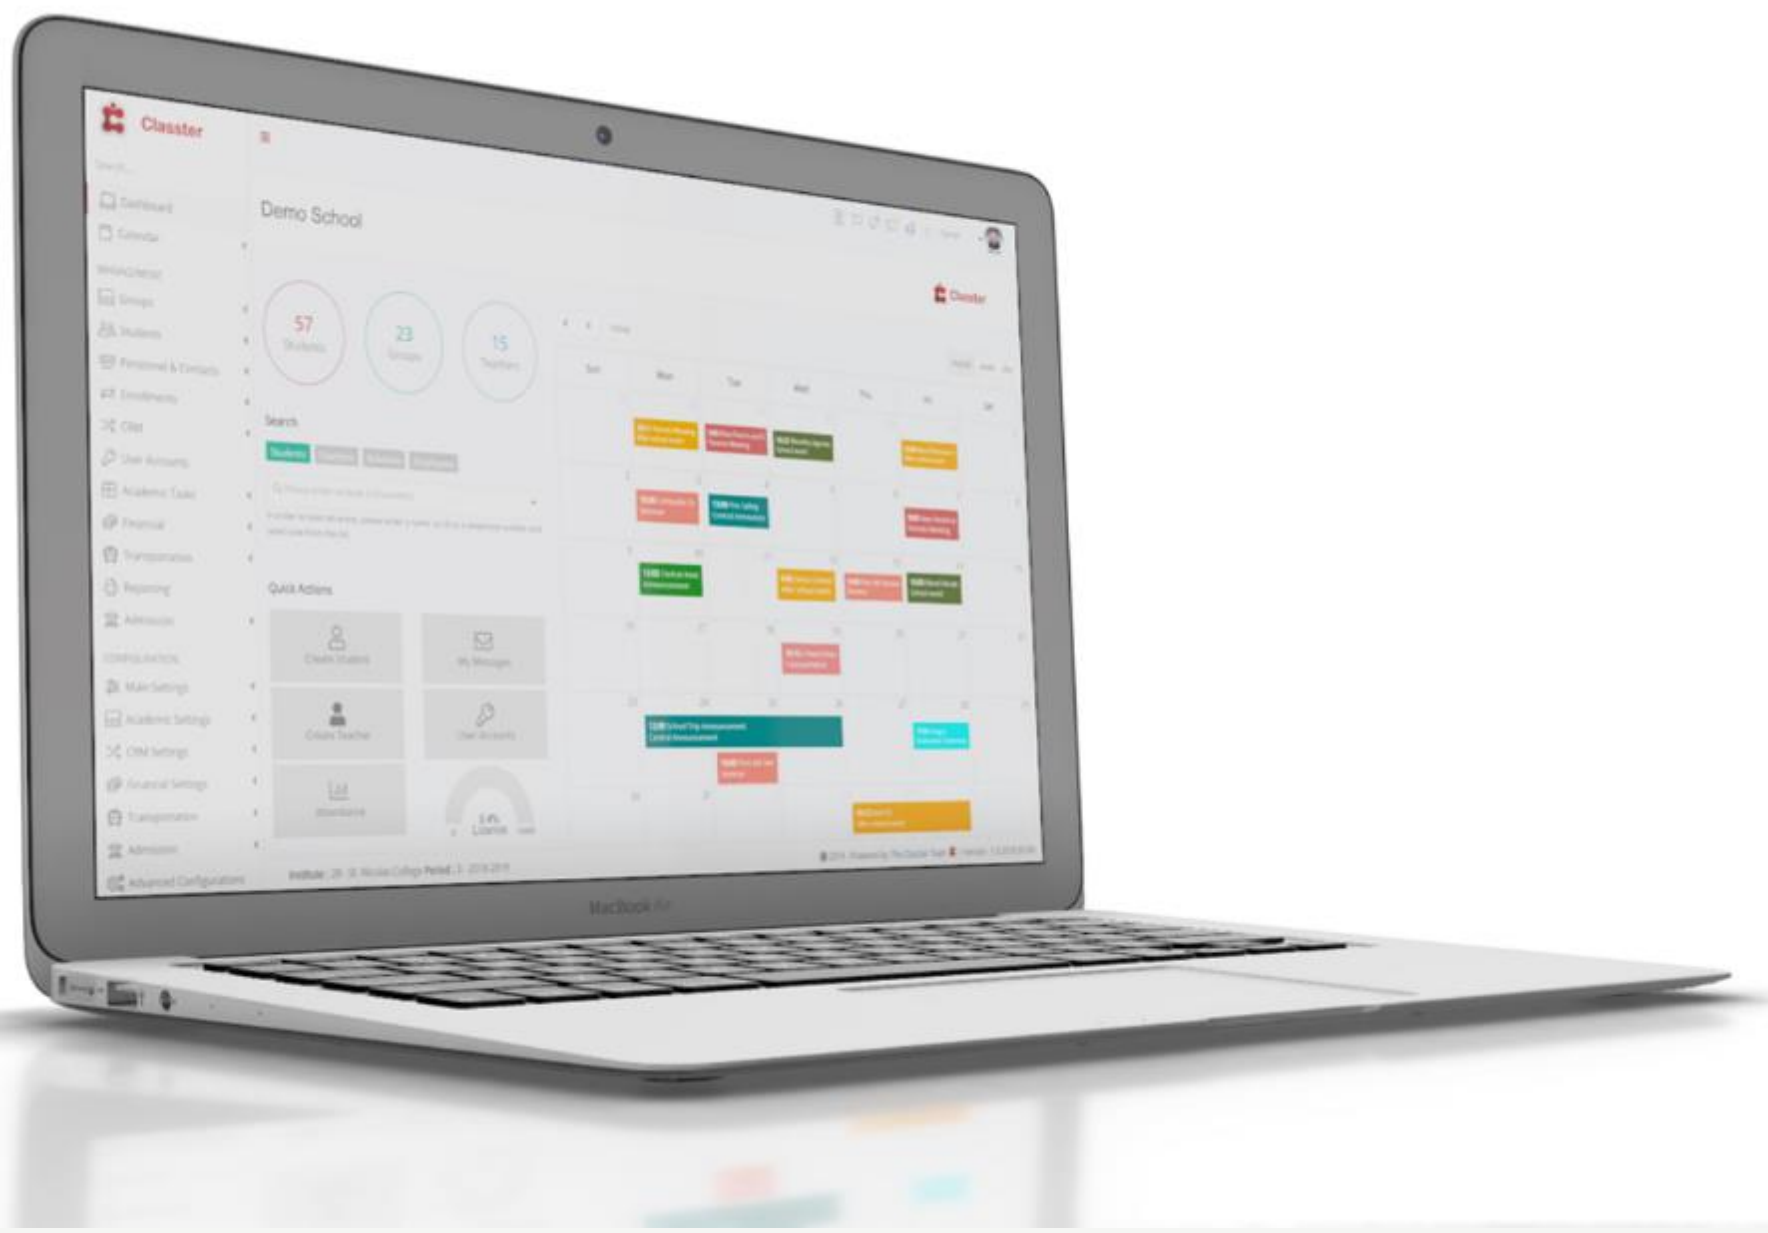

# Classter in a nutshell

Classter is an all-in-one, cloud-based, modular Student and Learning Management System with SaaS architecture, that addresses the needs of all educational institutions in every level of education: K12, Higher Ed, Academies.

Developed and hosted in Microsoft Azure's infrastructure.

Classter is an end-to-end solution with the combined functionality of an: SIS, LMS, ERP & CRM System.

# Personalized Portals

Classter provides each user with a personalized portal with valuable information that is relevant to him/her.

For Admins

For Employees

For Students

For Teachers

For Parents

Mobile Apps

Admission Portal

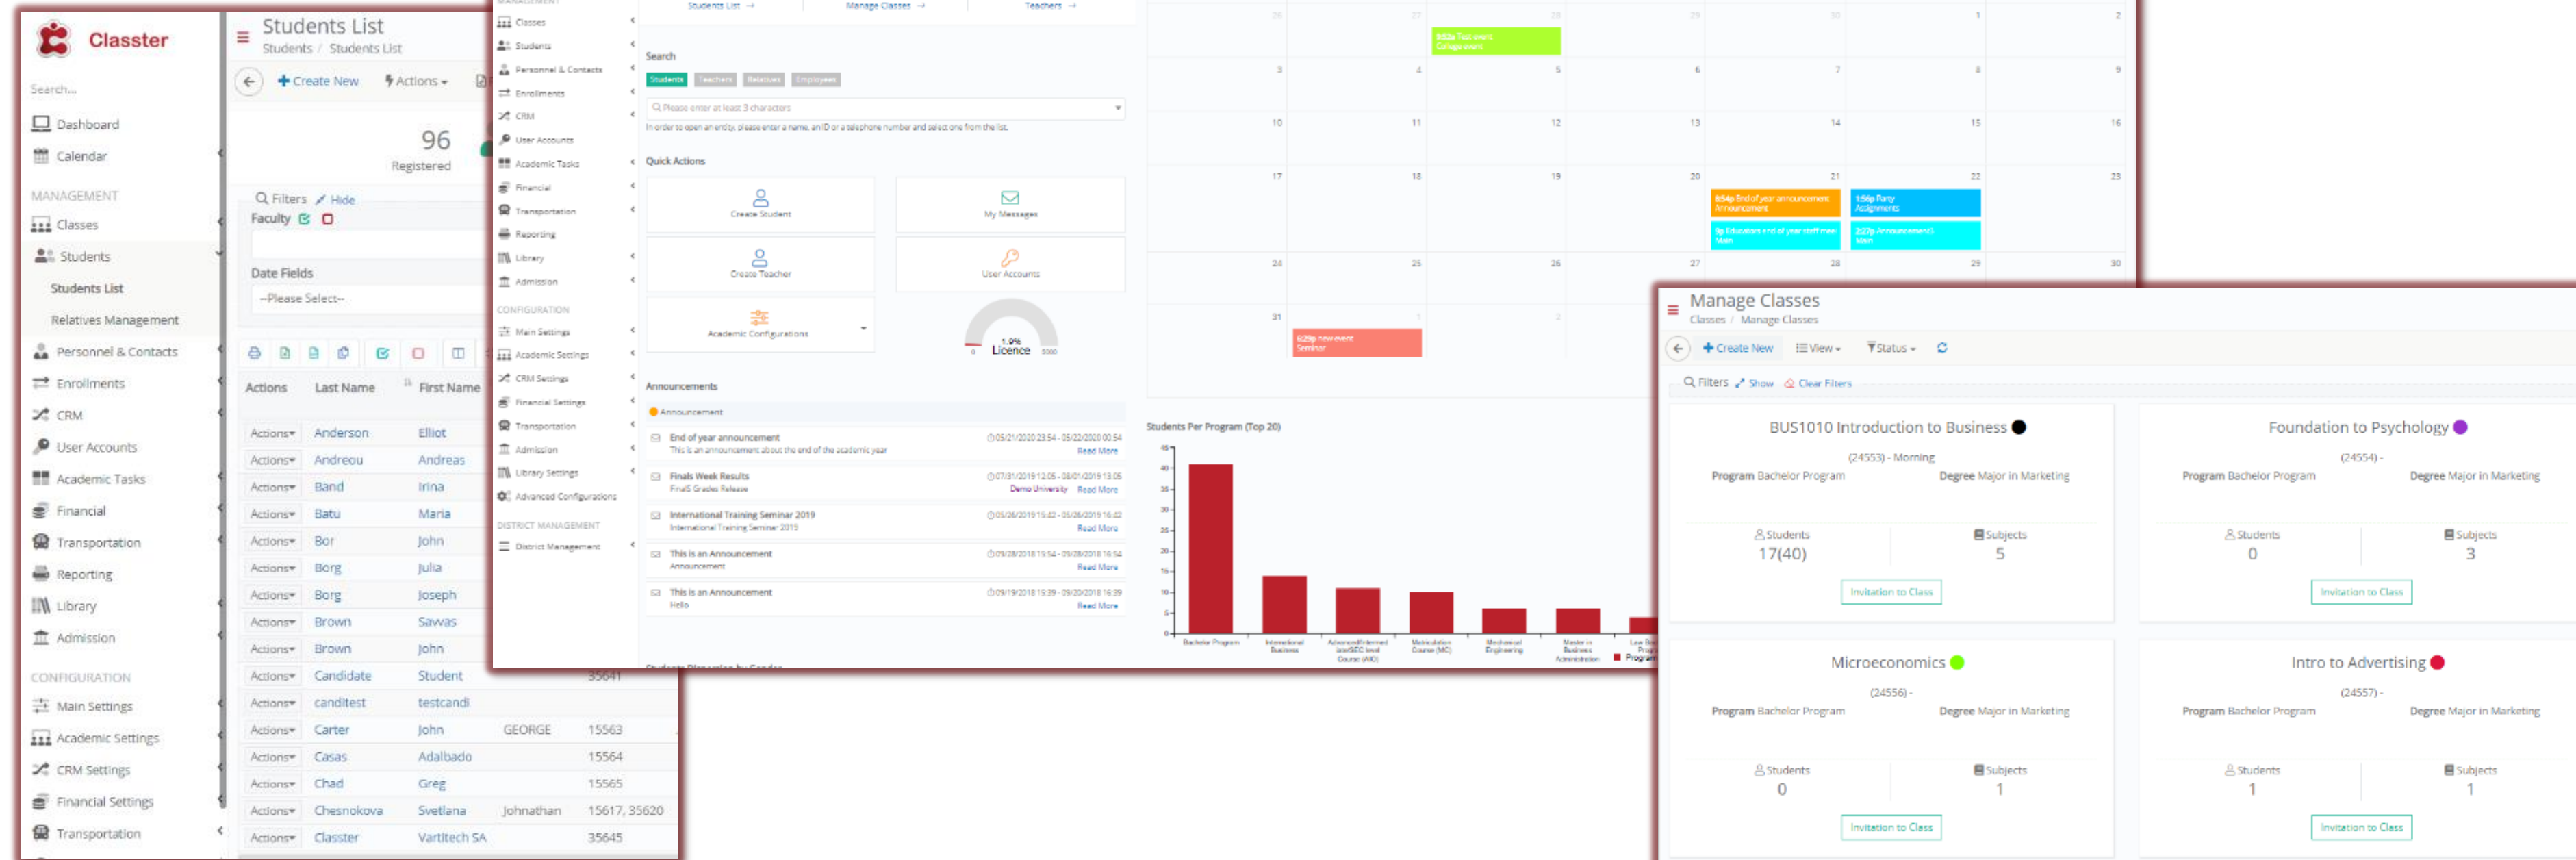

District Management - MofE

# Classter Solution

03

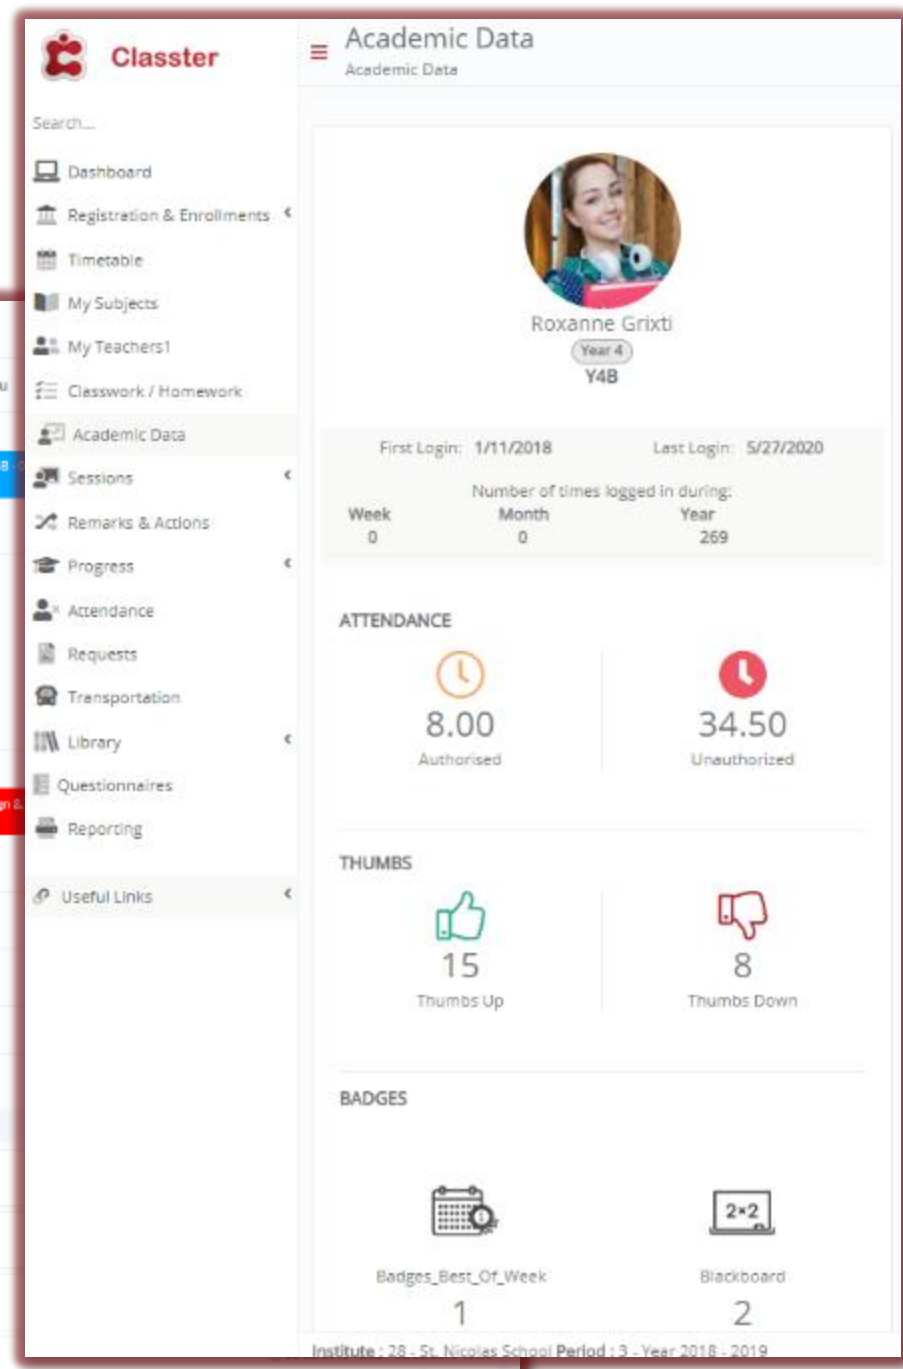

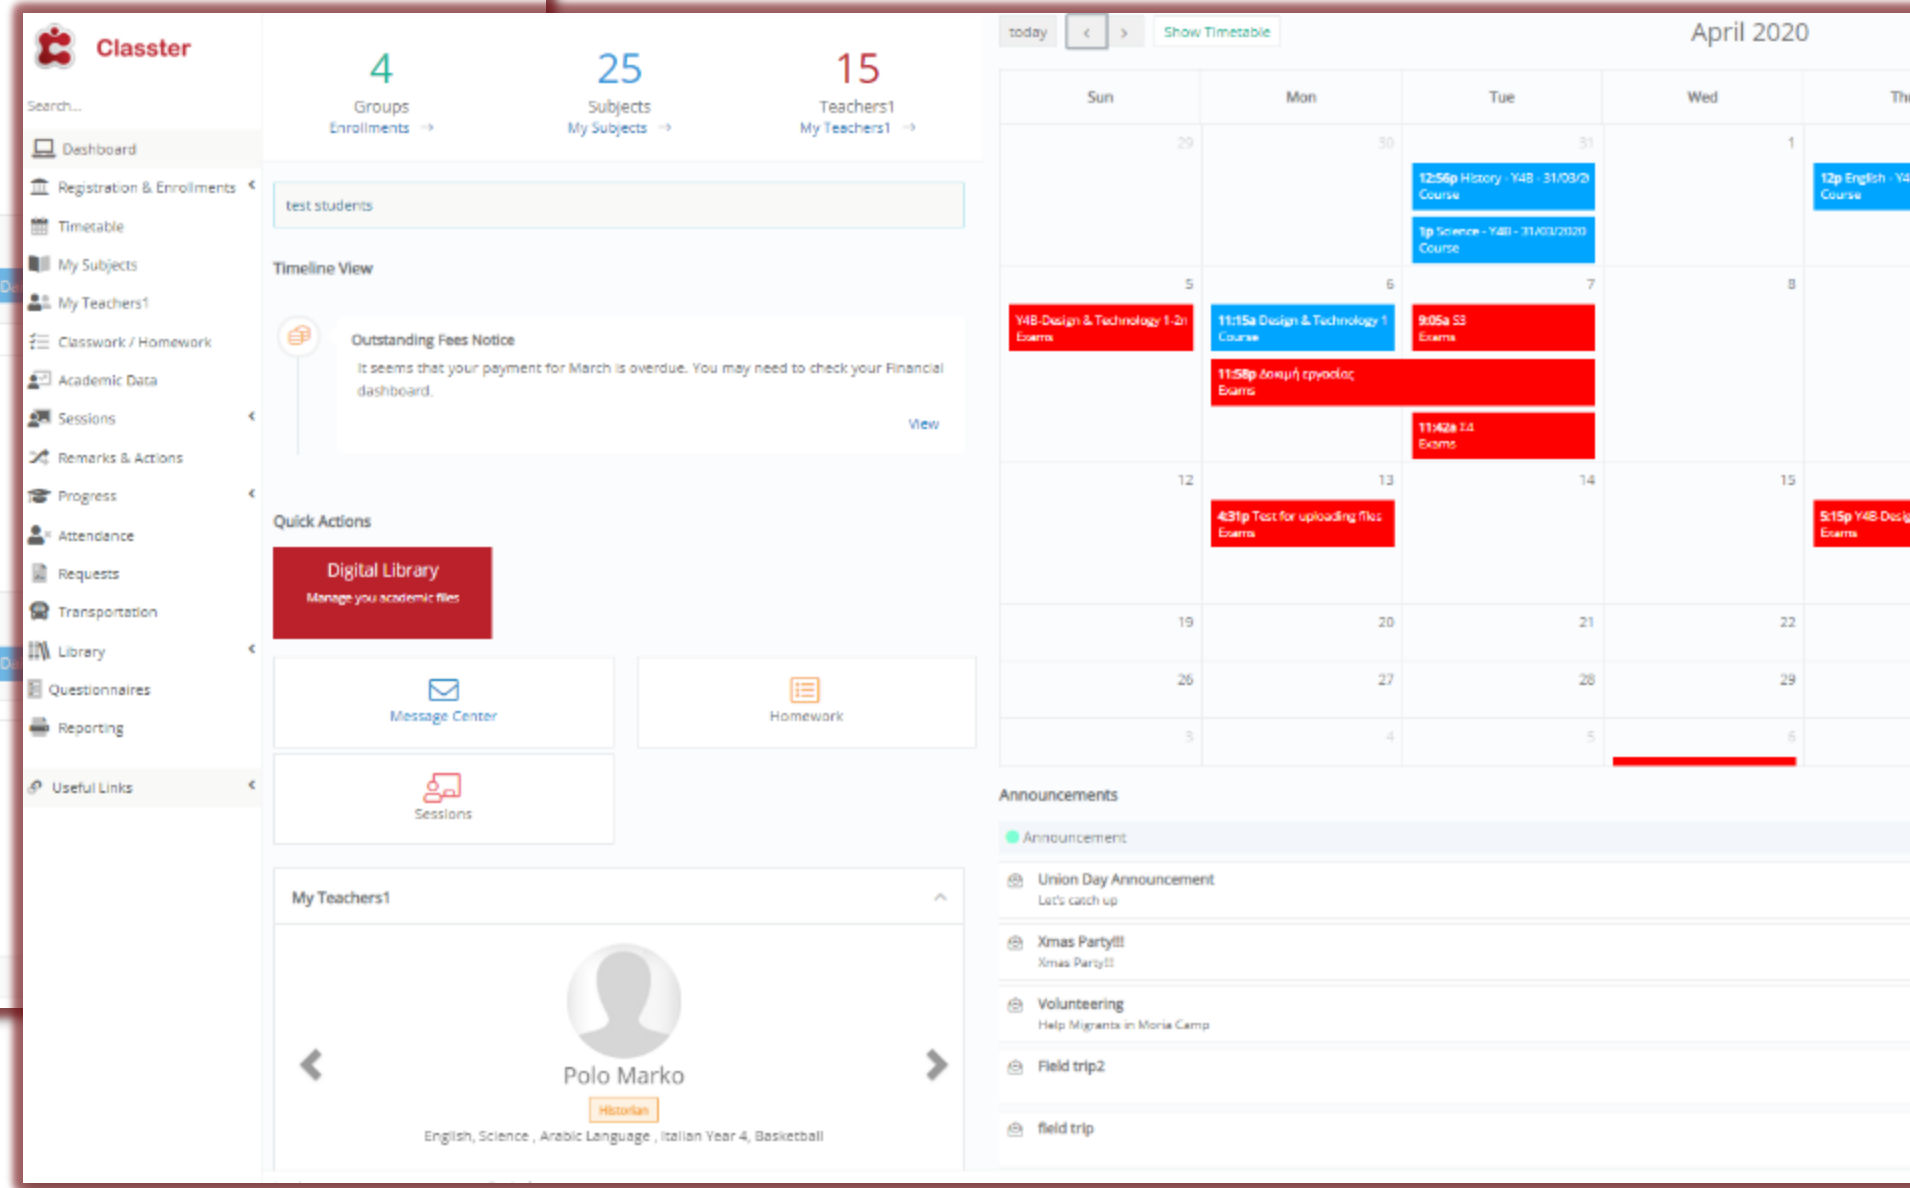

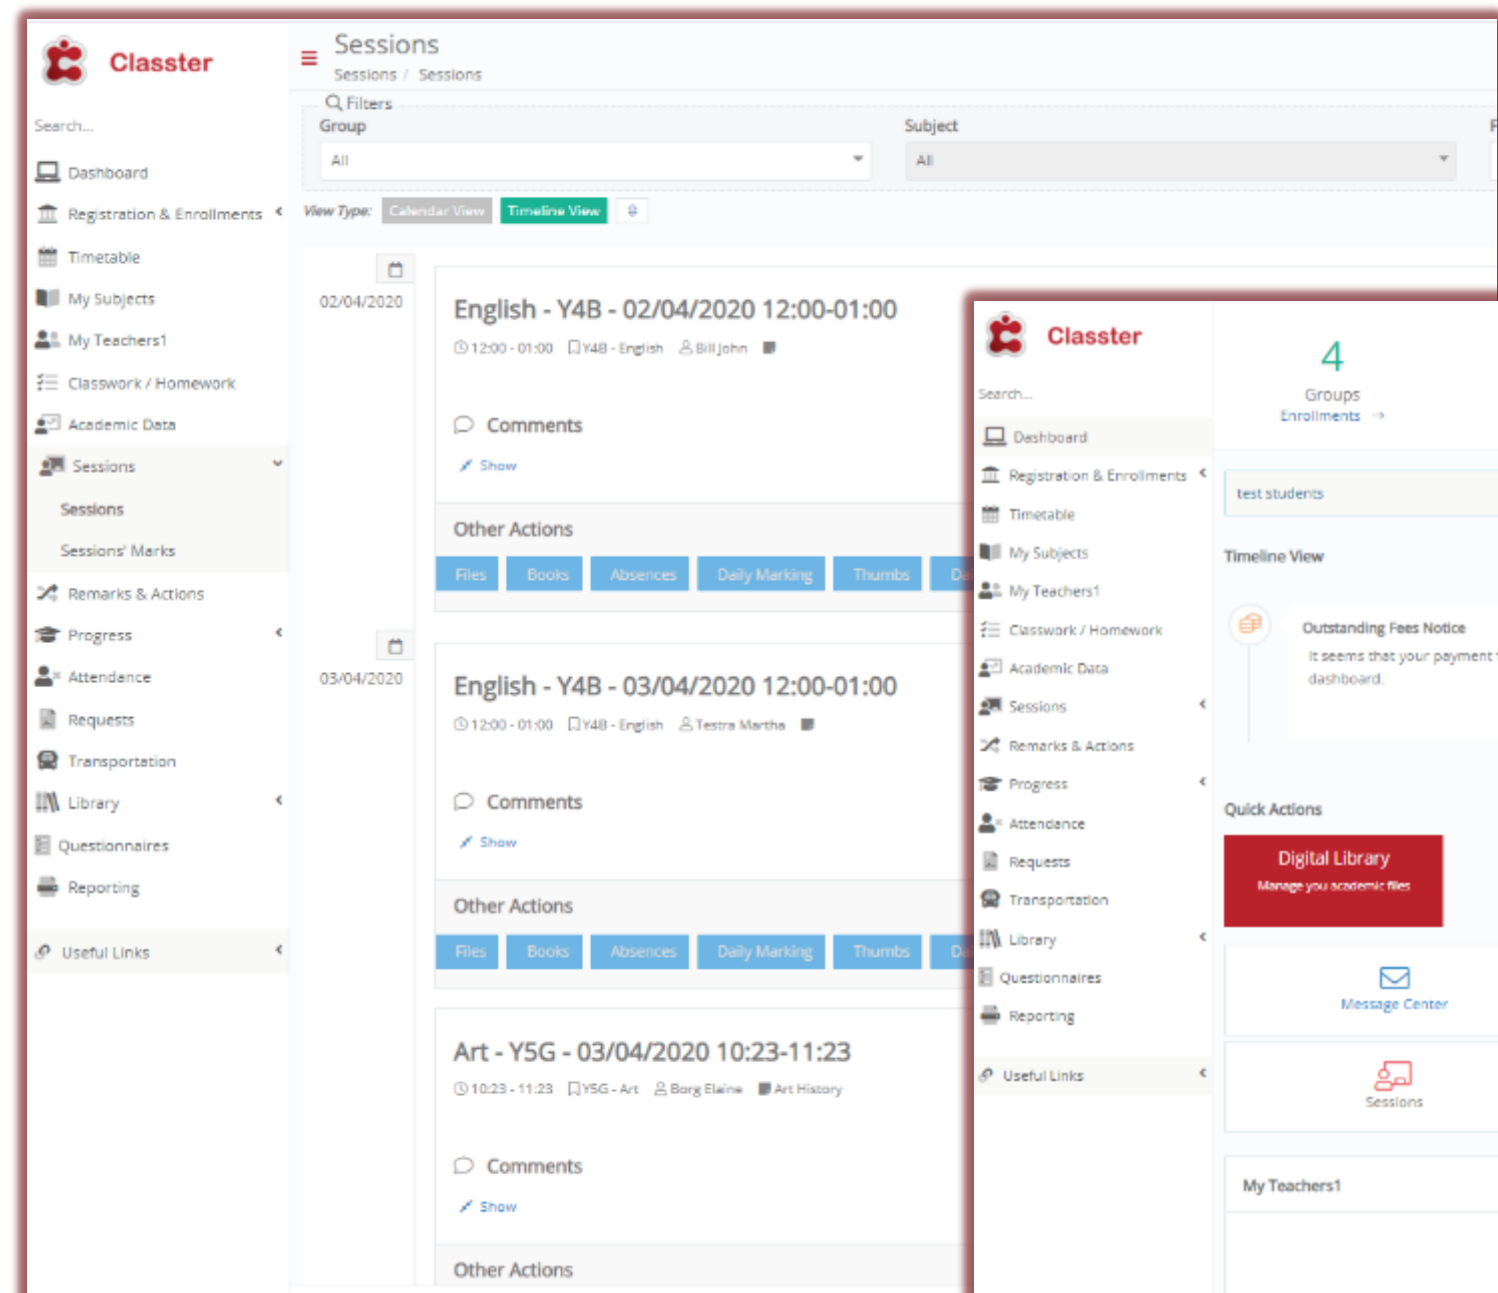

# ADMIN PORTAL

Classter gives administrators a portal with all the necessary tools, to set up the Classter Student and Learning Management System and have complete control over student's and teacher's data (session, attendance etc.)

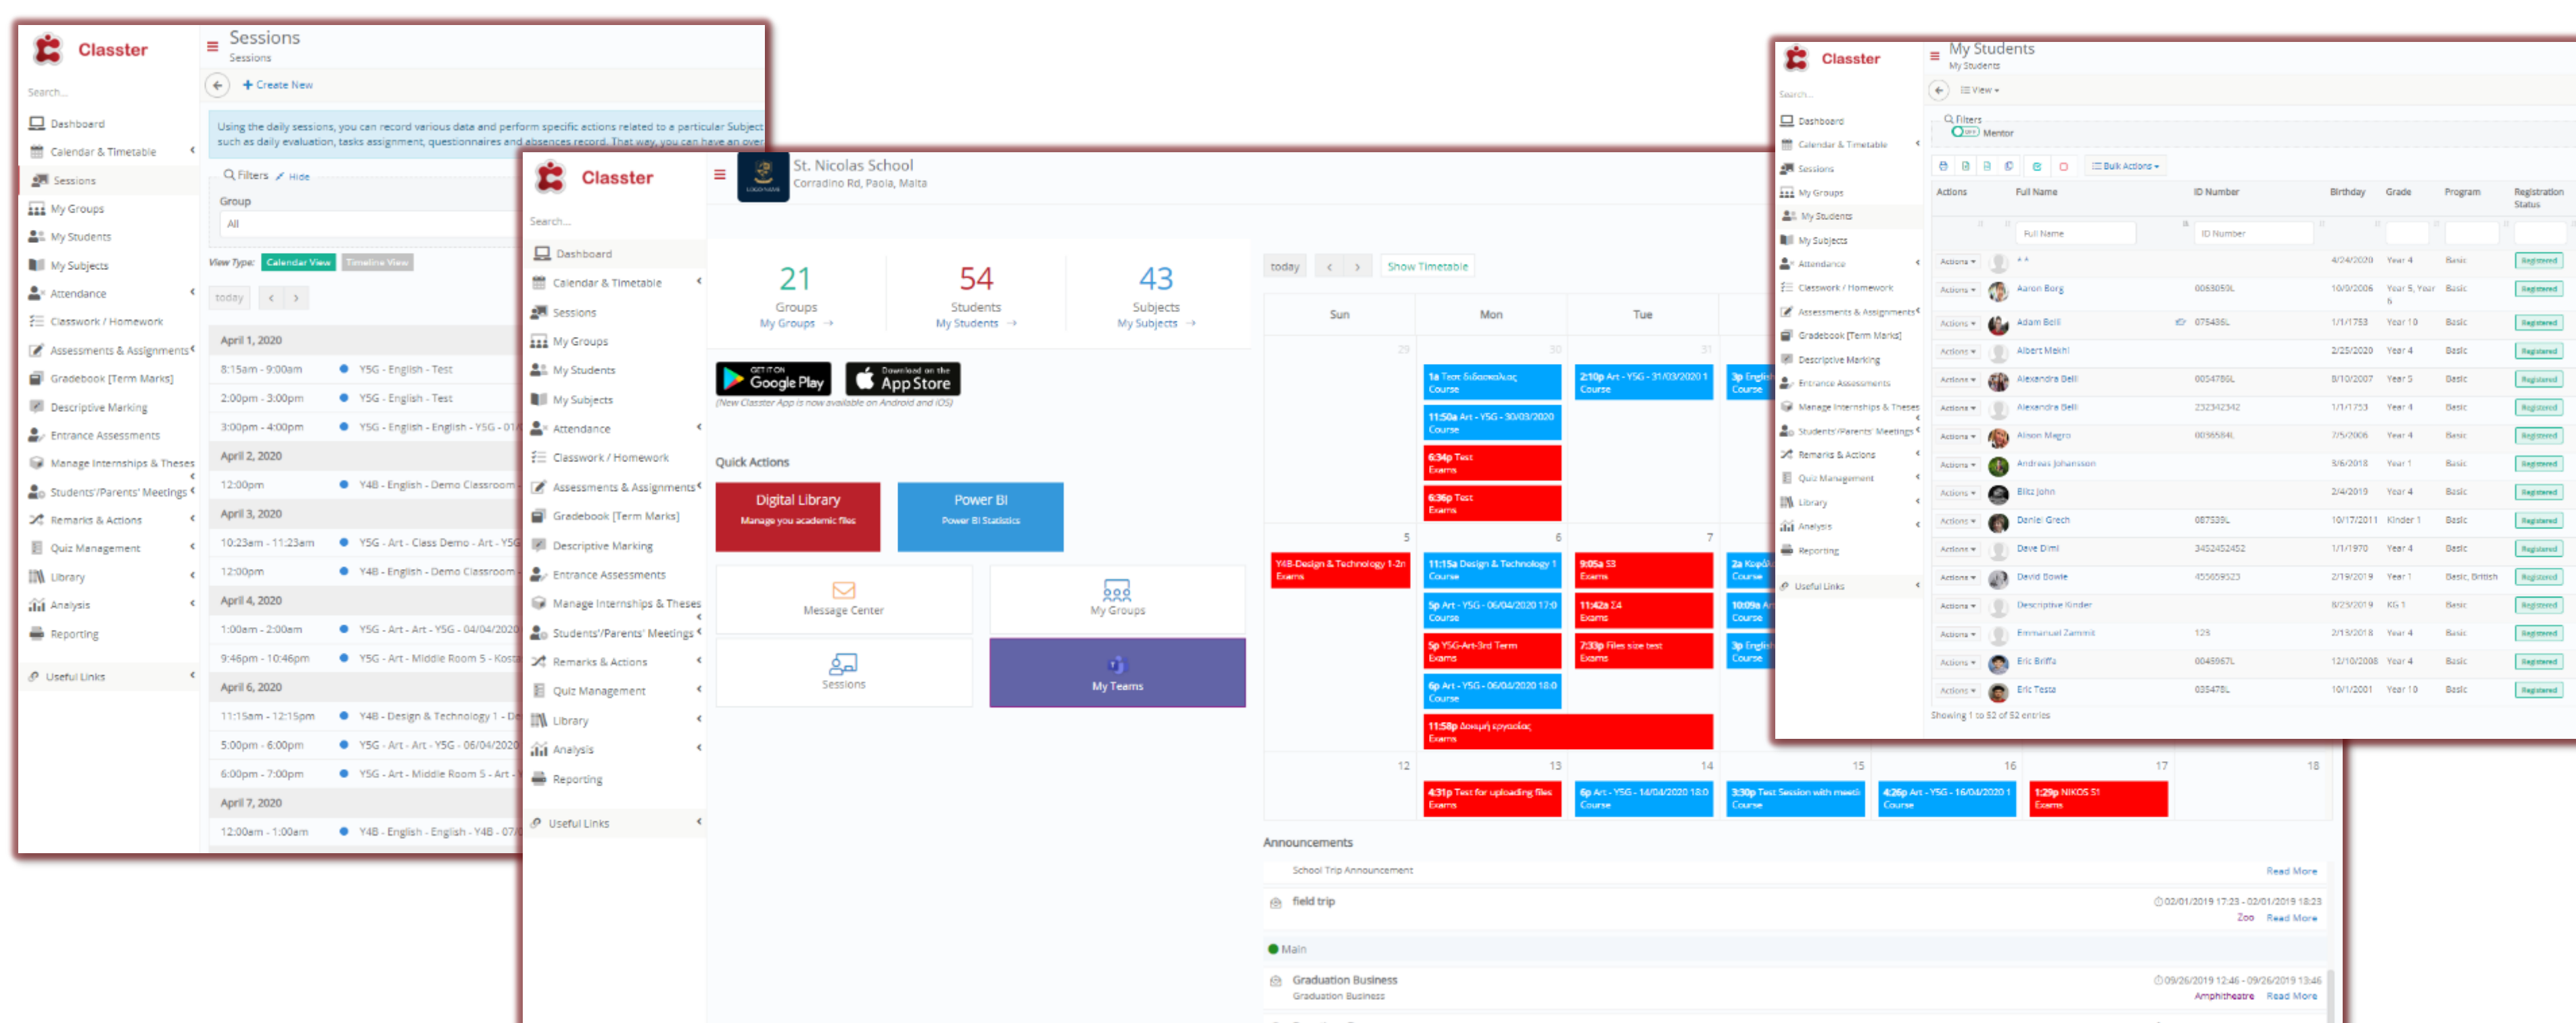

Admin users can create, manage and configure the terminology and structure of their Educational Institutions.

## STUDENT PORTAL

The Student Portal allows students to keep track of their academic and extracurricular activities with their personalized calendar of events and teaching sessions, among other things.

The announcement list and smart notifications keep students up to date with their duties and they also provide information about what is going on in their Institution.

# TEACHER PORTAL

Teachers have their own customized portal with the ability to monitor classes, subjects and student data. They have also a comprehensive dashboard page with a complete overview of their schedule, announcements, notifications etc.

In addition teachers can plan out their sessions for each subject and invite students to online sessions through Classters integration with synchronous distance learning tools such as MS Teams, Zoom or WebEx.

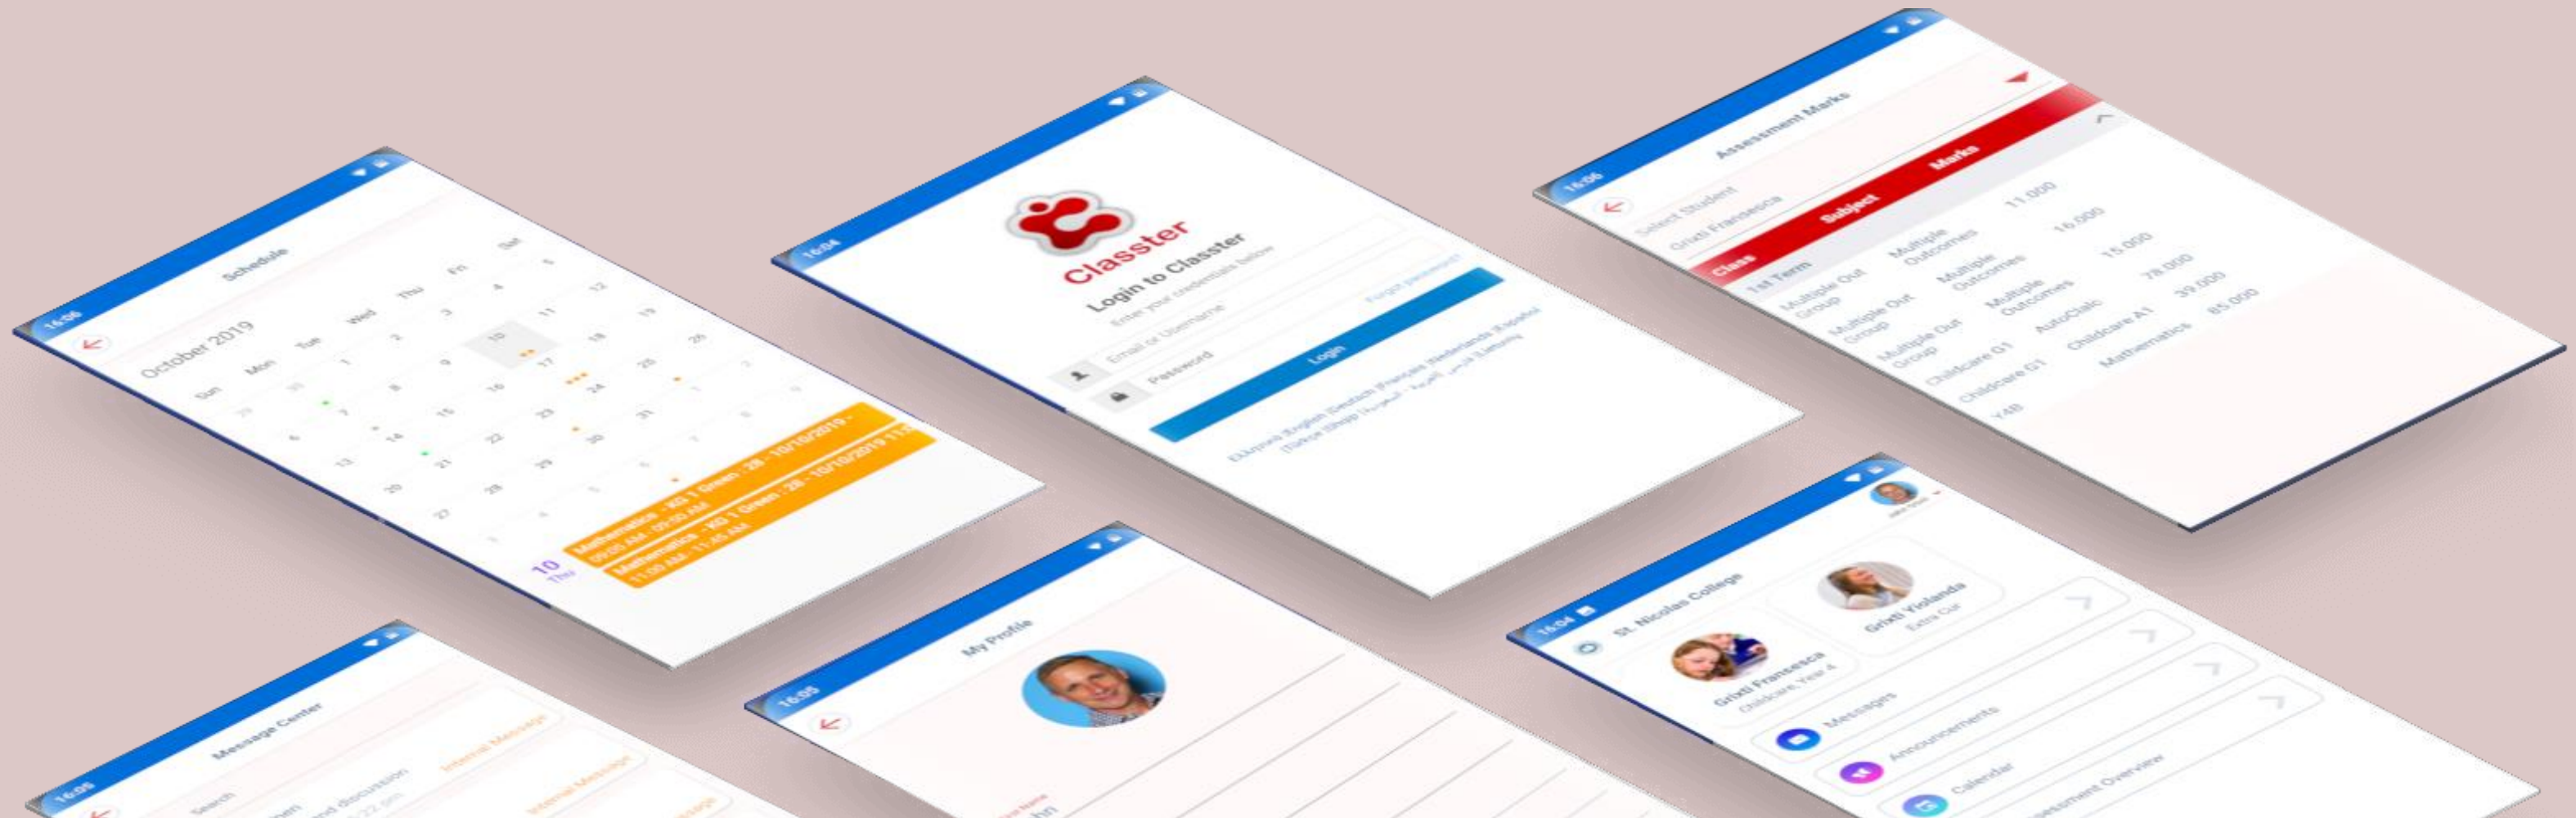

The screenshot displays the Classter Parent Portal interface for St. Nicolas School. The top navigation bar includes the school name, address, and the current year (2018-2019). The main dashboard is divided into several sections:

- User Profiles:** Profiles for Jacob Gixti (KG 1) and Roxanne Gixti (Year 4) are shown, each with an 'Enrollments' link.
- Calendar:** A monthly calendar for April 2020 displays various events, including '12:56p History - Y4B - 31/03/20', '12p English - Y4B - 02/04/2020 Course', and '12p English - Y4B - 03/04/2020 Course'.
- Financial Overview:** A summary shows an Agreed Amount of €7,500.01, Total Payment of €5,700.00, Total Balance of €1,800.01, and a Period Outstanding of €50.01. Below this is a bar chart titled 'Financial Transactions' showing monthly activity from 11/6/2019 to 10/4/2020.
- Quick Actions:** Includes 'Digital Library', 'Message Center', 'Announcements', and 'Financial'.
- Announcements:** A list of recent announcements, including 'Announcement3' and 'Union Day Announcement'.

Parents have their own customized portal, so they can follow their children's weekly or monthly schedule. They have access to children's academic progress as well as their own financial responsibilities.

They can keep track of what is going on with their children and they can stay in contact with teachers, and administrators by booking meetings with them or simply communicating via the Classter message center.

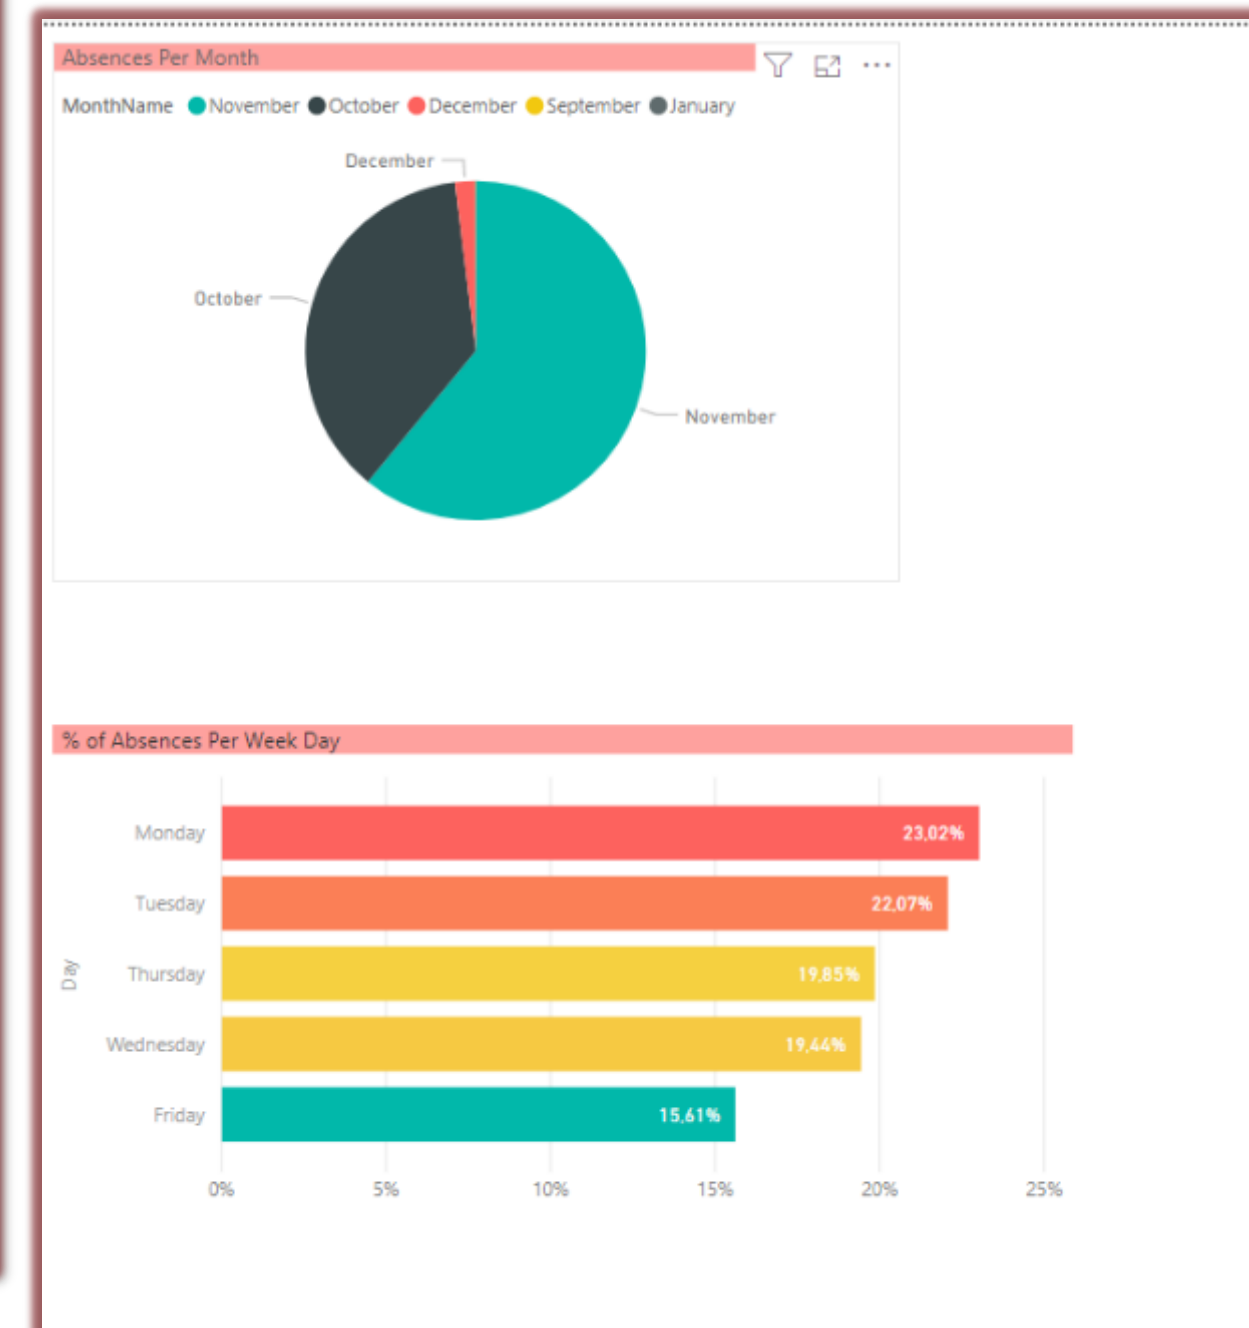

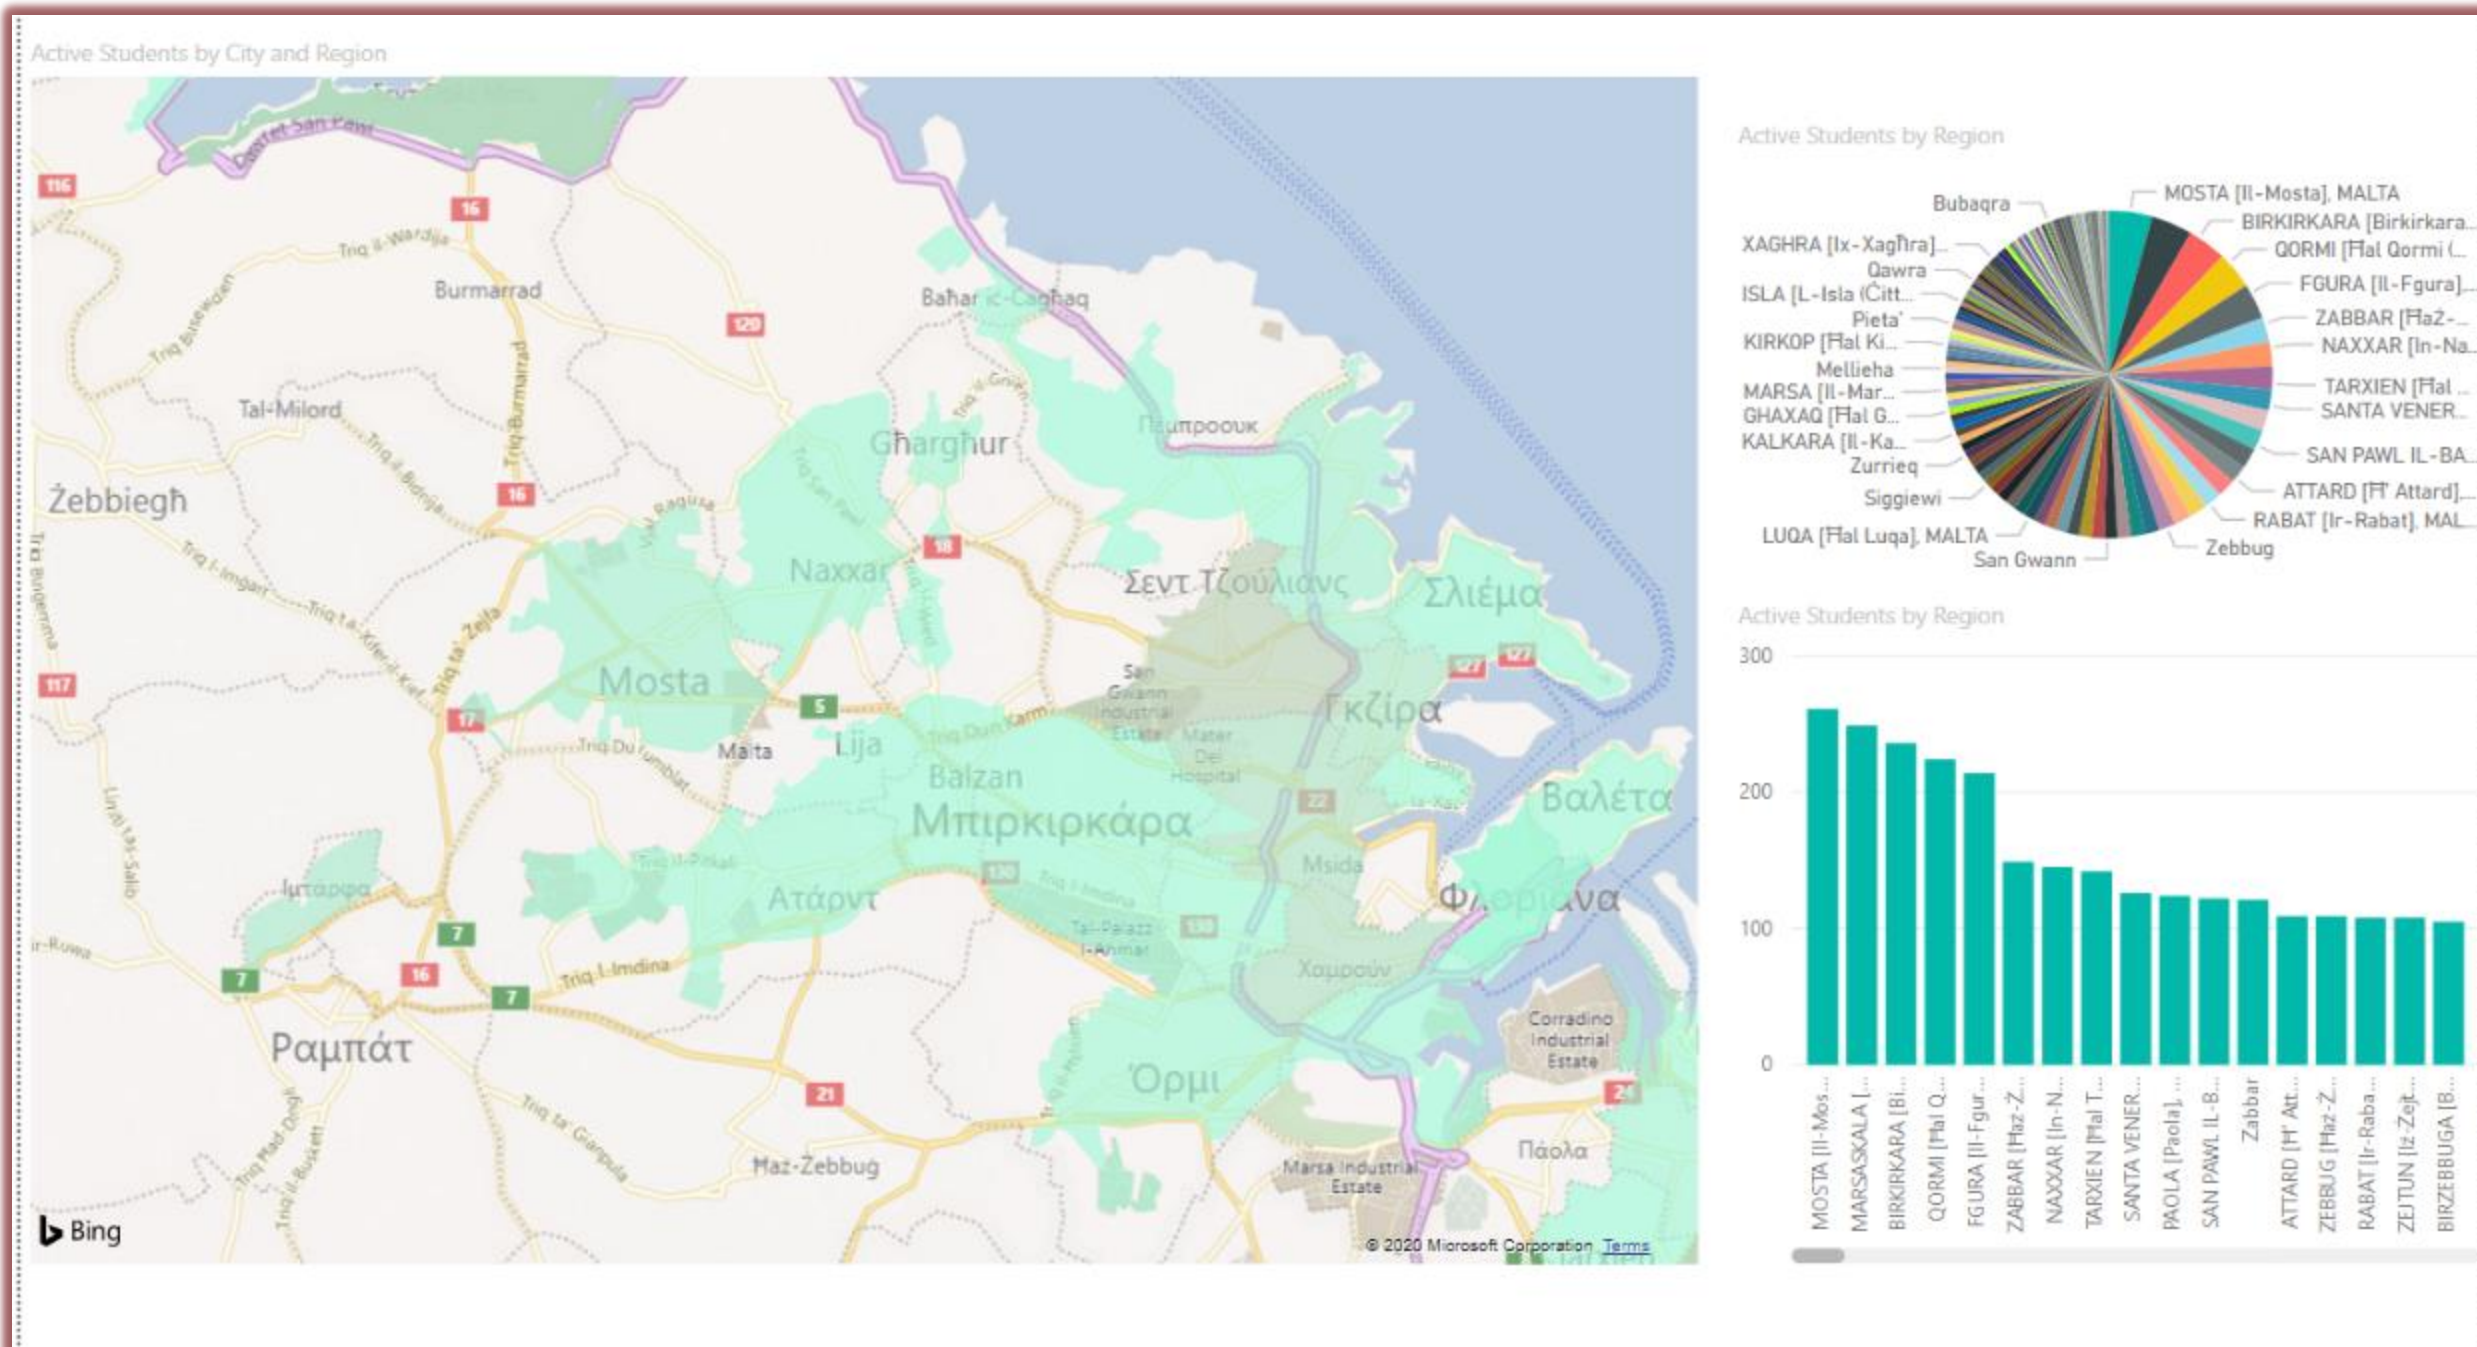

Classter mobile app streamlines all education-related operations and provides a communication gateway between the educational institution, teachers and parents. With an intuitive interface that allows real-time access to school-related information such as attendance, assessments and marking.

The advanced notification functionality of the mobile app informs end-users for any updates regarding new messages, assignments deadlines and upcoming events.

## 03 ADMISSION PORTAL

The admissions portal allows institutions to easily create an online admission process. The administration of the institution can customize the admissions portal to request personal data, certifications and qualification questions from prospective students.

All applicants will receive access to a customizable admission's portal while employees can manage the whole process easily from their own account.

## DISTRICT MANAGEMENT / MINISTRIES OF EDUCATION

District Management is Claster's way to help institutions manage multiple institutes that may fall under a main institution. Administrators can create as many new institutions as they require.

Claster advanced architecture enhances the complete data integration while at the same time it creates a secure environment with distinct user access permissions.

- ✓ Classter offers a complete **distance learning environment** by supporting both Synchronous and Asynchronous learning methods. Teachers and students can engage themselves with the educational process by attending live online virtual classrooms and through the exchange of educational material.
- ✓ Students may receive homework, quizzes, projects and assignments through Classter and learn at their own pace with the use of educational material sent by their teachers.
- ✓ Teachers can teach online sessions and help students and assist them on a 1:1 basis, thus enhancing the experience of distance learning.

# Synchronous Learning

05

With the Integration of MS Teams and Classter, institutions are able to create classes and sessions directly from Classter to MS Teams allowing for a frictionless transition to distance learning. Classter is Microsoft's Gold Partner.

Webex is one of the most popular videoconferencing platforms that allows educational institutions to create virtual classrooms. Classter has recently completed the integration with Webex for offering institutions the option of synching virtual meeting rooms with Classter sessions.

Zoom is one of the most prominent synchronous learning tools and its integration with the Classter platform is now available. Connect Classes and Subjects to Zooms virtual classrooms.

# Asynchronous Learning

05

Moodle is a global pleyer in the educational sector and offers free LMS capabilities. As Moodle is popular within many institutions, Classter offers a full integration with Moodle for a complete asynchronous learning experience by synching Classter Subjects with Moodle and vice versa.

Classter in an attempt to accommodate institutional needs for asynchronous learning, offers integration with the Brightspace LMS platform.

The newest integration offered by Classter is with Canvas LMS. The combination of Classter and Canvas creates a powerful all-around asynchronous learning system.

# About Us

08

## Our Story

Classter was launched in 2014 from a small team of engineers with a keen interest in digitally transforming a rather “traditional” industry.

In 2015 we received a seed financing from a major VC capital firm in Greece, Odyssey Jeremie Partners SCA SICAR with the aim of accelerating product development and accessing international markets.

Today, just a few years later, we have developed a broad network of clients and partners in more than 20 countries in 5 continents. Moreover, we are recognized as one of the major EdTech solutions in the Student Information System segment and we’re proud Microsoft’s Gold Partners.

Classter is based in Kavala, Northern Greece and currently employs a team of 30 people.

APPENDIX

# Modules

A detailed presentation of Classter Modules Functionality.

- Management of Students, Teachers, Classes, Courses, Classrooms
- Management of Extra-Curriculum Activities
- Management of Family Structure and Data
- Transfer from one School Year to Another
- Document Management on Students, Teachers, Classes, Courses, Contacts
- Students Access & Web Personalized Portal
- Parents Access & Web Personalized Portal
- Teachers Access & Web Personalized Portal
- Creation and Management of Course Curriculum
- Online Course Enrollment and Curriculum Planning for Students
- Internal Messaging , email and SMS
- Users & Roles Management

- In Class Performance Marking (remarks, instant comments)
- Timetable Creation and Implementation
- Term Grades (simple), Grades & Report Cards
- Exams & Assignment Planning and Marking
- Attendance / Absence Management
- Daily Duties & Homework
- Descriptive Assessment
- Management of Outcomes and Skills
- Management of Exams and Quizzes
- Advanced Attendance Management
- Automatic Absences Proposal (based on previous entries)
- Certifications
- Detentions & Rewards
- Course Books Management
- Course Syllabus , Structure and Progress Management
- Customization Forms, Views, Reports, Custom Fields
- Fully Customizable Grading/Marking System
- Integrated MS Reporting Tools
- Year end Results - Calculation of Annual Subjects Grades & Overall Grade
- Multi Year Grades Calculation & Transcripts
- Daily Sessions Management - Marking & Material (Advanced)
- Cross Institution Management
- Alumni Portal

- Advanced management of census data & Demographics
- SMS, emails , newsletter, notifications.
- Workflows for events and approvals
- Portal Announcements
- Google Maps integration
- Calendars for Students, Teachers, Employees and Sections
- Instant Documents Upload
- Actions, Meetings, Remarks, Incidents, Feedback Management
- Classter Online Appointments / Meetings (Parents-Teachers)
- Online Applications and Inquires
- Student Personal RFID Cards Modules
- Mass Messaging
- Events Scheduling & Management
- Class Events and Meetings
- Incidents Management
- Modern communication tools with internal messaging between students, teachers and parents with specific sending rights for each entity
- Customization Forms, Views, Reports, Custom Fields
- Alumni Portal

- Online Registration & Admission Module
- Applicants Web Portal
- Applications Management
- Applicants Position Management
- Handling of Entry Requirements & Eligibility criteria
- Multiple Applicants Status & Workflows
- Communication, Visits, Events & Offers
- Document Management
- Instant Documents Upload
- Self-Creation of Financial Arrangements & Contracts
- Admission Status Tracking
- Admission Exams Management
- Consents Management
- Configurable workflows, processes and application forms
- Management of Agreements & Registration fees

- Billing (Invoicing & Payment, payment plans, financial agreements)
- Advanced Billing (incl. automated payment plans and installments, Auto billing etc.)
- Expenses & Income Management
- Accruals & GL Connection Tools
- Payments via Portal
- Manage Discount Policies and Rules, Reductions, Checks and Credit Cards
- Auto-send of Vouchers and Documents by email
- Automated Calculation of Reductions in case of Late Entry
- Students' Turnover per Hour
- Classes Turnover per Hour
- Teachers Costs
- Teachers – Classes Profit
- Financial Data Reporting in Grid Views and in Multiple Formats (pdf, excel or even word files)
- Customization Forms, Views, Reports, Custom Fields
