

# The unique Streamwise D.I.™ solution

At Streamwise D.I.™ we understand the pressures today's plant operators face in managing efficient, profitable, and environmentally compliant systems and processes. Our goal is to deliver value through innovation via our Integrated Digital-Industrial Solution and deep domain knowledge to ensure our customers goals and future objectives are met.

Customer digitalisation is implemented via easy to integrate, low adoption cost solution to monitor, understand and report on system operating conditions and variability (**Discovery**) which progresses to a fully functional data collection and management system driving continuous improvement through data driven corrective actions (**Insight**) and finally leading to a premium service package which couples Artificial Intelligence with Machine Learning to deliver predictive advice and proactive automated response to keep the process operationally stable and reliable (**Advanced**) with minimal operator oversight

## Streamwise D.I.™ service progression

### Streamwise D.I.™ Discovery

- easy integration
- low adoption cost
- monitor system operation
- track KPI variability
- On-line data visibility via a cloud-based portal

### Streamwise D.I.™ Insight

- step up to full data collection
- manage system compliance
- Receive reports and alarms
- corrective actions driving improvement
- Remote service support package

### Streamwise D.I.™ Advanced

- A.I. based predictive analytics
- Custom algorithms and control
- Driving best practice and optimisation
- Minimal operator oversight

Accessing your real-time plant data is easy through the Streamwise D.I.™ customer portal and Smartphone app  
Using our industrial grade edge device and onsite sensors and data streams, the portal & app deliver operational scorecards, performance metrics and controls with data security.

Streamwise D.I.™ Features	Discovery	Insight	Advanced
Complete end-to-end data protection	✓	✓	✓
<b>Streamwise Powered Portal</b>			
Access secure Streamwise Powered Portal	✓	✓	✓
Customisable data capture and visualisation	✓	✓	✓
On-line analysis of compliance, performance and operational data	✓	✓	✓
Autogenerated customised reports to summarise operational performance	✗	✓	✓
Customised report downloads	✗	✗	✓
Visual dashboards for KPI and OPEX tracking	✗	✗	✓
Chemical inventory management & reporting	+	+	+
<b>Alarm Capabilities</b>			
Compliance based alarms via SMS or Email	✗	✓	✓
<b>Control Capabilities</b>			
Automated chemical dosing management tools	✗	✗	✓
Access real-time camera feed and stored historic images	+	+	+
Remotely calibrate and clean sensors*	✓	✓	✓
Manual controls for solenoids	✗	✓	✓

✓ standard ✗ not available + option available

\* requires additional cleaning package and air supply

## Streamwise D.I.™ Benefits

**SAVE ON**  
Trade Waste Penalties  
And Surcharges

**SAVE ON**  
Overall Operating  
Costs

**SAVE ON**  
Operator Oversight  
And Reduce Risk

**SAVE ON**  
Chemical And  
Energy Costs

License Information

Hardware Information

**Streamwise D.I.<sup>™</sup> Discovery**

- Subscription from \$4200/yr.
- 12 months upfront subscription
- 5 users
- \$180/yr. per additional user
- 4 hours of phone/online support per month included

*Pricing excludes GST*

Edge Device (only one required per license):

- GPO Powered, hard wired sensors \*
- GPO Powered, wireless sensors \*
- Solar Powered, wireless sensors \*

Optional addons available \* Enquire for pricing

**Streamwise D.I.<sup>™</sup> Insight**

- Subscription from \$6000/yr.
- Minimum 12 months upfront
- 5 users
- \$180/yr. per additional user
- 6 hours of phone/online support per month included

*Pricing excludes GST*

Streamwise D.I.<sup>™</sup> Insight Edge Device (only one required per license):

- GPO Powered, hard wired sensors \*
- GPO Powered, wireless sensors \*
- Solar Powered, wireless sensors \*

Optional addons available \* Enquire for pricing

**Streamwise D.I.<sup>™</sup> Advanced**

- Enterprise (Enquire now)
- Minimum 12 months upfront
- 5 users
- Additional Users (To enquire)
- Unlimited phone/online support per month included

*Pricing excludes GST*

Streamwise D.I.<sup>™</sup> Advanced Edge Device (only one required per license):

- GPO Powered, hard wired sensors \*
- GPO Powered, wireless sensors \*
- Solar Powered, wireless sensors \*

Optional addons available \* Enquire for pricing

What our customers are saying...

"Streamwise D.I.<sup>™</sup> permits very accurate control of chemical dosing in line with set points while optimizing chemical usage levels through feedback loops."

*Customer Since 2017  
World's largest food & beverage company*

"The Streamwise D.I.<sup>™</sup> system installed on our DAF has provided a simple yet very effective way to increase our control over compliance and cost."

*Customer Since 2017  
Australia's Largest Meat Processing Company*

The Official Streamwise D.I.<sup>™</sup> app

The Streamwise D.I.<sup>™</sup> evidence-based decision intelligence and enhanced automation is now available on smart devices.

Markets We Serve

- Dairy
- Food & Beverage
- Heavy Industrial
- Meat Processing
- Mining & Mineral Processing
- Municipal
- Oil & Gas
- Pulp & Paper
