Cloud Direct ®

Provide™: Introducing complete cloud management

Manage your IT in one place

All Cloud Direct customers get access to the Provide™ portal as their single-pane-of-glass for self-management. And you can access it from any device in any location.

• Raise and track technical support tickets

• Review your Azure usage and forecast spend

• Add or remove Microsoft 365 and Office 365 licences

• Monitor your Microsoft Secure Score

• Manage all your quotes and invoices

• Get access to more than 300 Knowledgebase articles

"Cloud Direct offered the online real-time portal, which is fantastic because it empowers us to see what the consumption is, how it relates to budget and what the ongoing costs are.

Avril Chester - IT Director, Scope
