

Education is the most powerful weapon which you can use to change the world

The pioneering platform for detection and management of learning and development difficulties and prevention of school failure.

Microsoft

www.educaryaprender.es

Mission dídé

That **all children** leverage **successfully** their education

None of them is **excluded or left behind** due to learning and development difficulties that haven't been **detected on time**

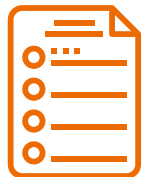

What is **díde**?

Psycho-pedagogic
online tool

detects difficulties inside the
learning and behavior of
children from **2 to 18 years**

Suitable **for any difficulty**
without looking for a specific
deficit

35
indicators

Evaluates **35 indicators** related
to learning, development and
child behavior

**Tests are NOT
taken by the
minors, just
by adults**

Let's reflect on reality

REALITY

children with
bad grades

they approve
with great effort

high capacities
with failure

CAUSES AND CONSEQUENCES

low self-
esteem

Unmotivated
children

bullying

School
dropout

Worried
families

grade
repetition

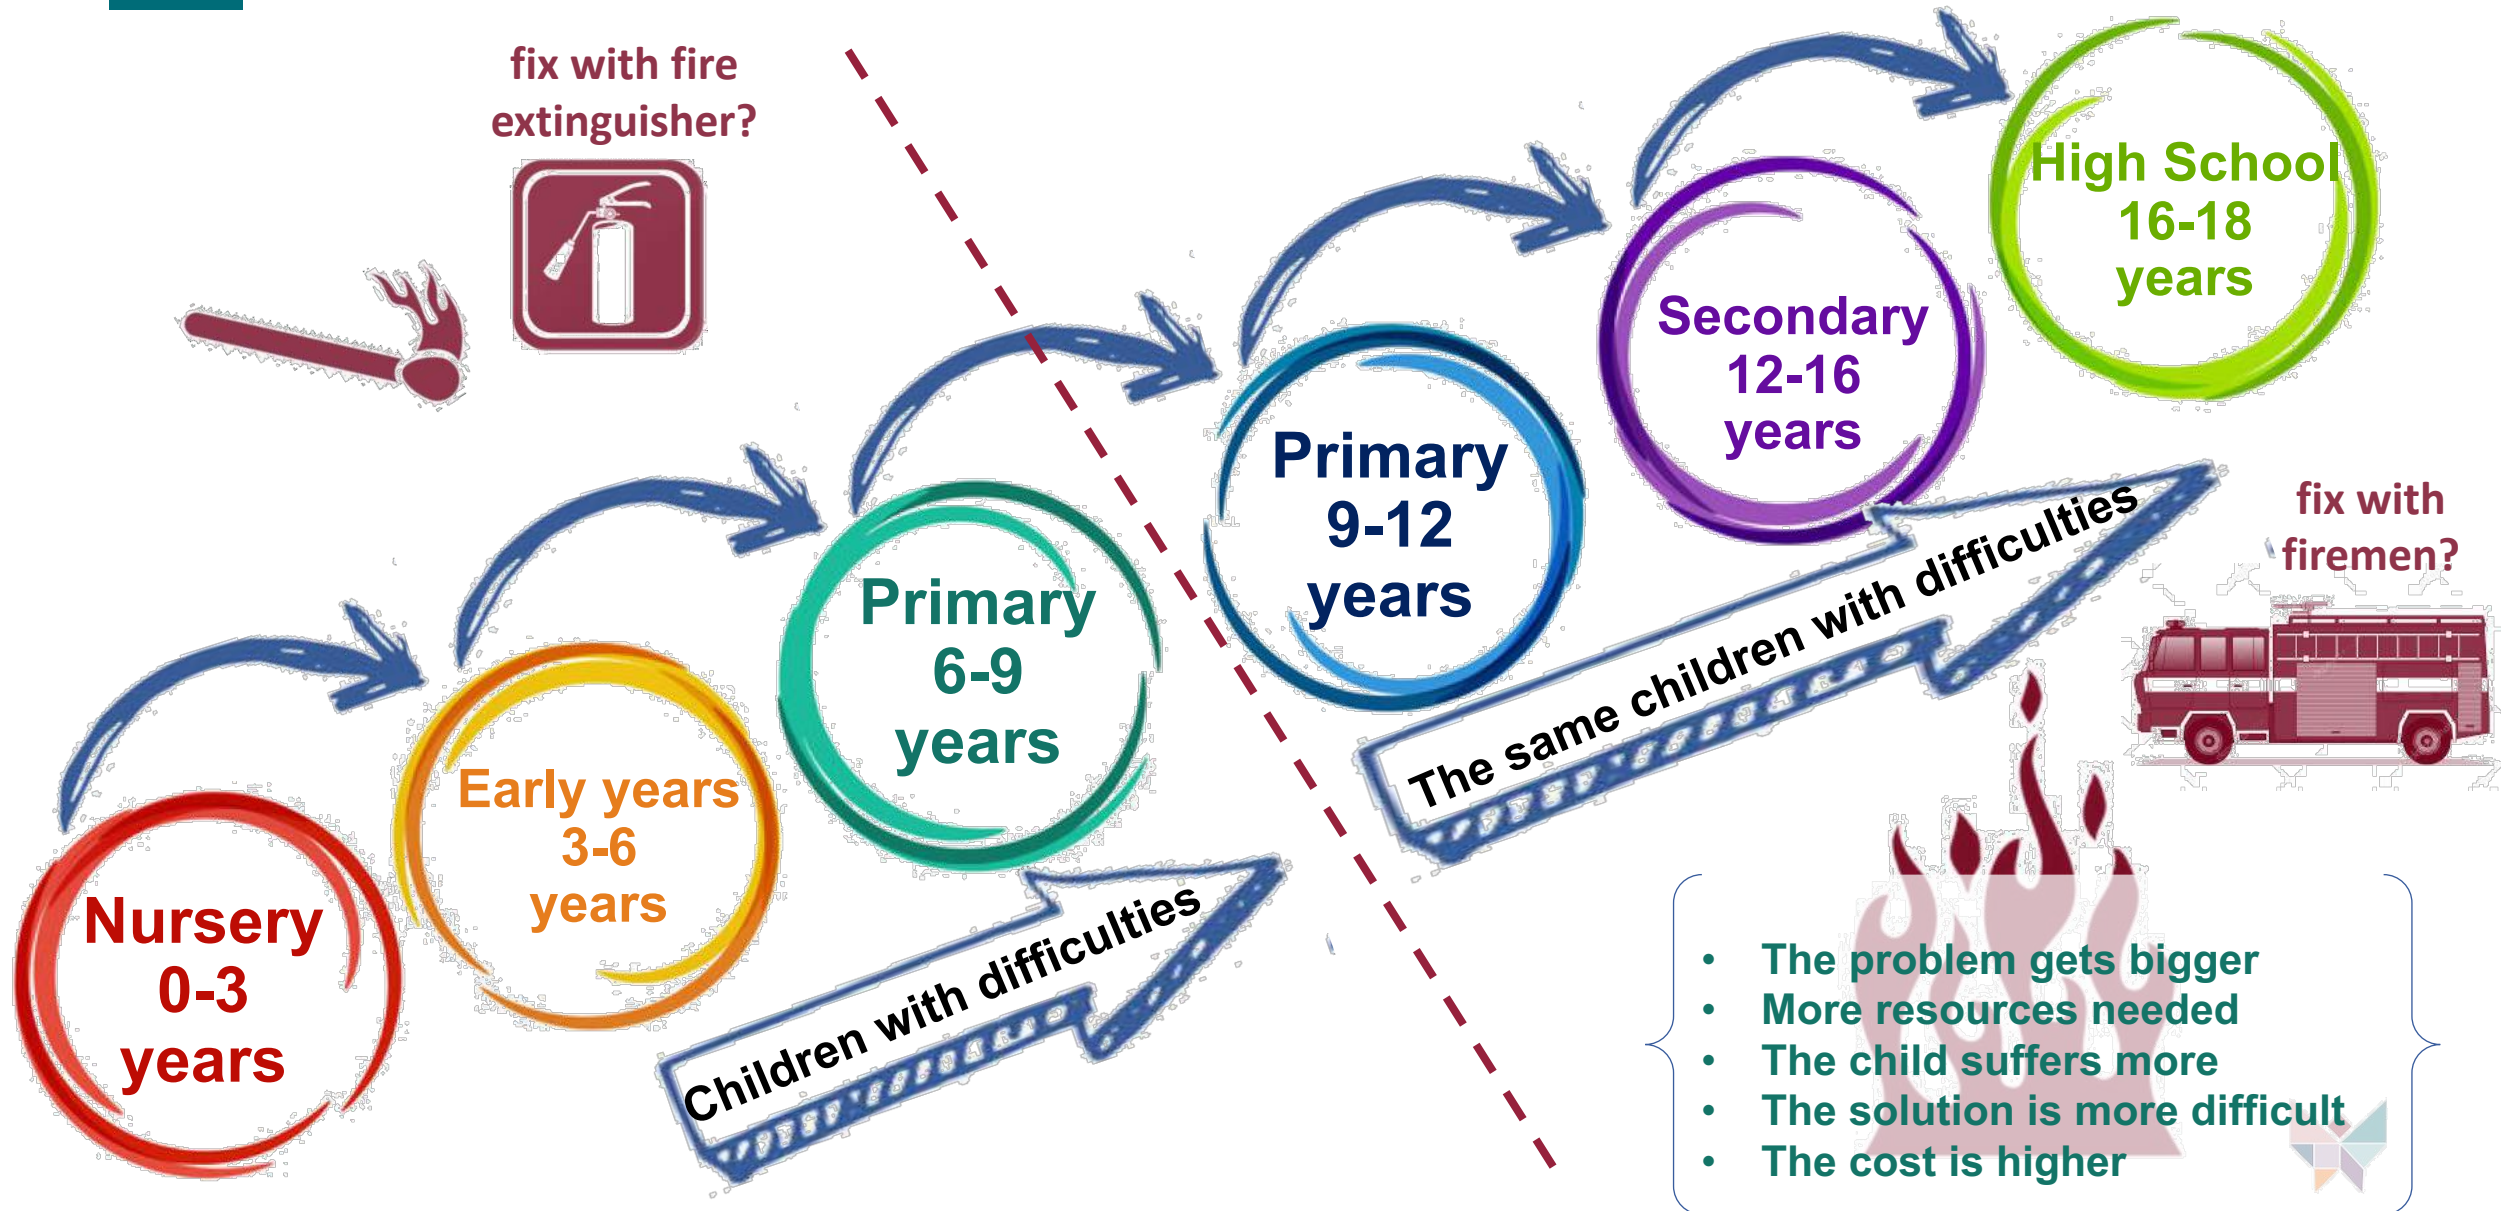

Overflowed
educational
counselors

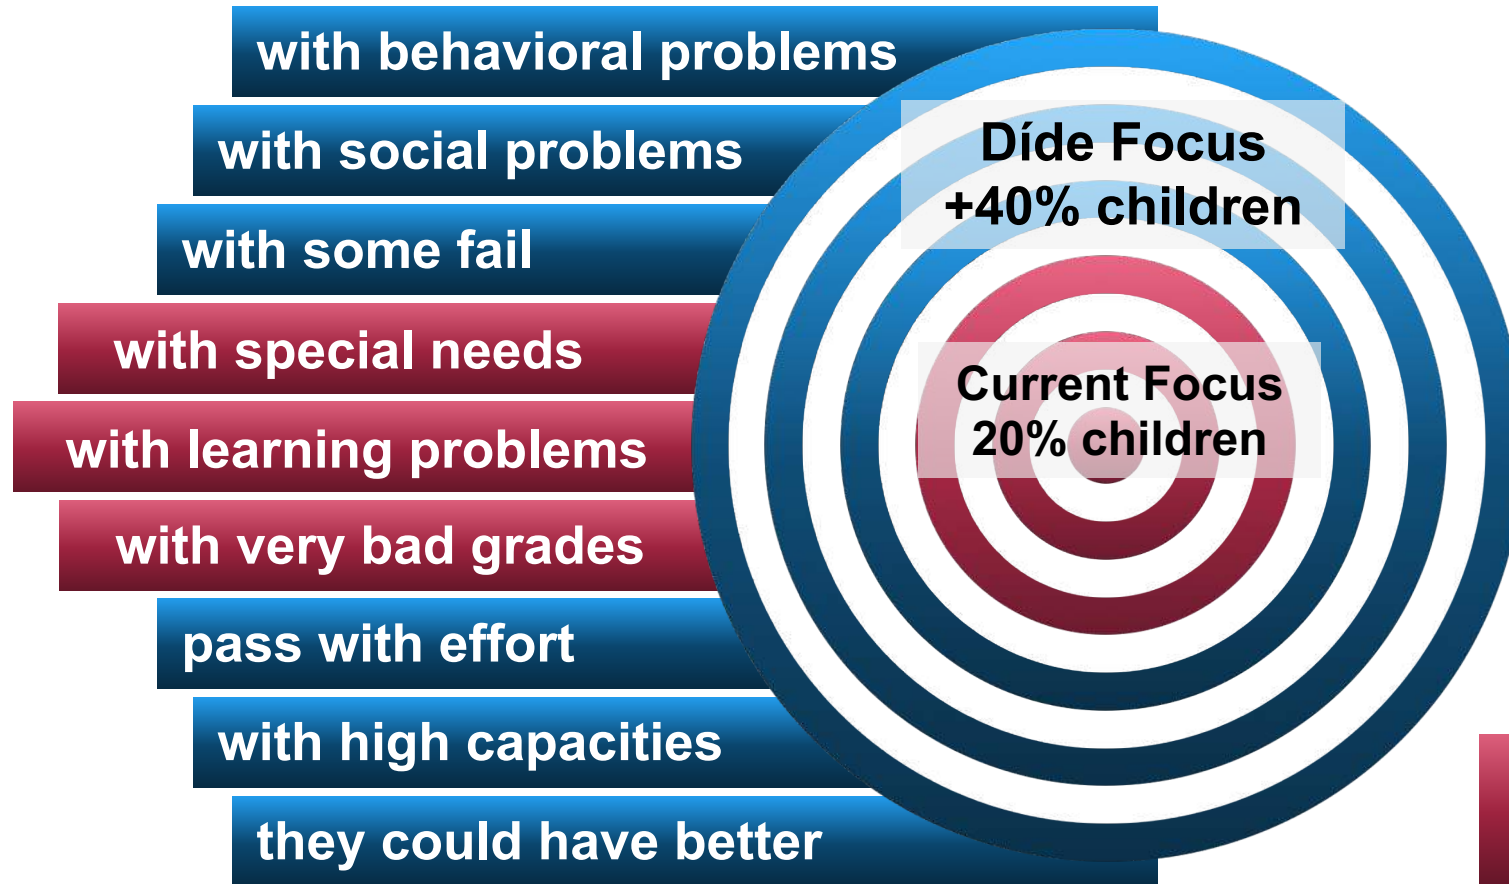

teachers without
individualized
vision

We spend money and efforts to solve something that we have not solved before

What is the OBJECTIVE?

Do you want help +60% of children?

Currently detection in schools
are 3 types of children profiles

+ 6 new types of children profiles
detected with díde

School failure, bullying and depression

Current Realities

High failure and **drop out rates**

Overloaded educational counselors

Teachers **without adequate training**

Currently very **few indicators and children** are detected

Many repetitions of course (**emotional, economic and social impact**)

Current **detection slow, high cost** and taking the child out of the classroom

Díde's Response

Reduction in school failure and **repetitions**

80%

Savings in time and costs

Attention to real **diversity** and **equity**

Detection of **ALL children** with any of the 35 difficulties (Full profile)

We can all avoid it with the three versions

Detection very easy, fast, with a very low cost and without disturbing the child

35 indicators

2

Filio-parental Aggression

We will reduce

3

Gender violence

We will reduce

4

Child abuse

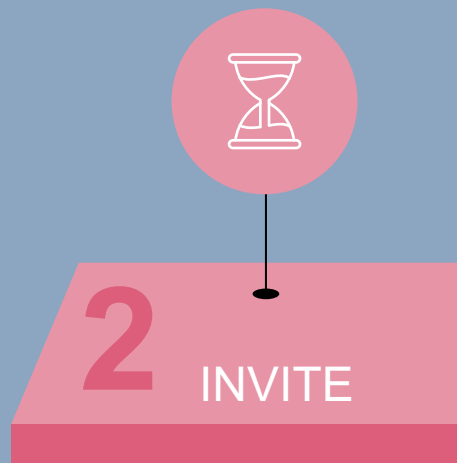

How díde works...in just 30 min

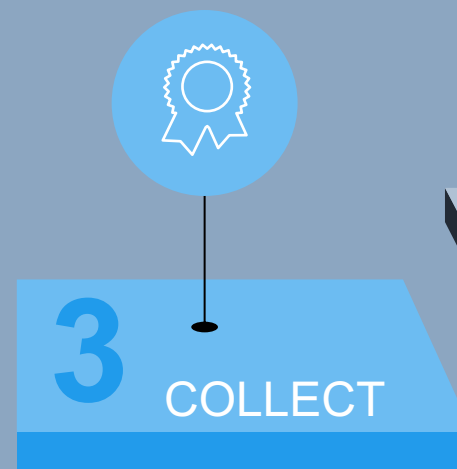

www.dide.app

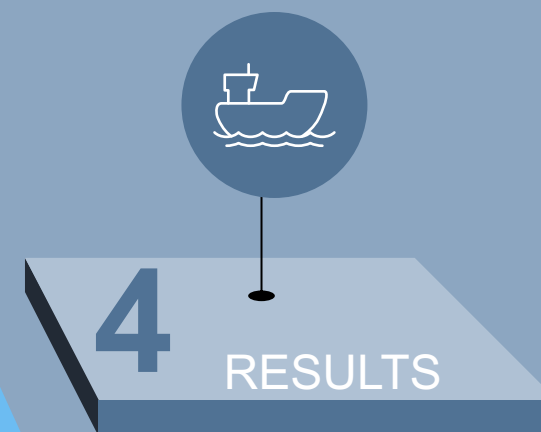

Enter the name and age of the child and select the questionnaire to be completed

Invite teachers and other family members to answer the questionnaires

Parents and teachers answer the questionnaire

Get results and automatic targeting guidelines based on the result

díde value proposition

1

Save time
and costs

Up to 80% time
saved

2

Full needs
profile

35 indicators from
different points of
view

3

Comorbidity

Detection of all the
associated
difficulties

4

Immediate
results

To take action from
minute one

5

Not invasive
for the child

Only those who
best know the
child

Benefits

Governments and public institutions

- Vision and real knowledge of the needs of their schools
- Optimizing Educational resources for better service
- Knowledge of the training needs of their teachers

Children

- Support
- Self
- Understanding
- Overcoming
- Motivation
- Inclusion
- Equality
- Performance
- Self esteem
- Welfare

Families

GOBIERNO DE ESPAÑA

AGENDA 2030

Díde has an impact on 8 targets of the 17

Argumentations reviewed by the high commissioner of the 2030 Agenda in the Government of Spain

Goal 1:
End poverty in all its forms everywhere

Díde: helps to lower school dropout and failure and offers children in the world equal opportunities to get a decent job. Millions of families will be able to see an opportunity for their children to get out of poverty or improve life quality

Goal 2: Ending hunger, achieving food security and improving nutrition and promoting sustainable agriculture

Díde: Among other 35 difficulties of learning and development, we give a lot of importance to adequate nutrition and eating problems, so they are two of the indicators that we can detect, we know that a child with poor nutrition does not pay the same at school

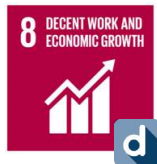

Goal 3: Ensure a healthy life and promote wellbeing for all in all ages

Díde: proposes to detect up to 35 learning and development difficulties, as well as social and behavioral from the age of 2 to the 18, that if undetected could prevent children's correct formation and wellbeing

Goal 4: Ensure inclusive, equitable and quality education and promote learning opportunities for all

Díde: has a very clear objective, it has been created to guarantee inclusive education, with equity and equal opportunities for all children. No child should be left out of the education system for the no detection of their needs on time

Goal 8: promote economic, inclusive and sustainable growth, full productive employment and decent work

Díde: emphasizes on the economic growth in any country, if we reduce failure and school drop-outs to the minimum, we will change the country's economy giving opportunities for kids who currently do not have them

Goal 9: Building resilient infrastructures, promoting inclusive and sustainable industrialization, and fostering innovation

Díde: is born out of the innovation among various sectors, from the technological to the educational and pedagogical. We do not know if we innovate to change the world, but we are sure that we change the world of many children and families in the world

Goal 10: Reduce inequality in and between countries and curb the increase in disparities

Díde: encourages the reduction of inequalities among countries, if we get the students in a country to go into higher education we will increase work and social possibilities by decreasing inequalities within the country as well as among countries

Goal 11: Making cities and human settlements inclusive, safe, resilient and sustainable

Díde: believes in sustainable, inclusive, resilient and businesses, prioritizing the wellbeing of the society against purely economical, creating profitable business which makes a social impact as well

Dear Alberto,

I am pleased to offer you our support to your proposal called "Díde", which will be submitted to Horizon 2020 Programme SME Instrument Phase 2.

As the Teacher Community director for Microsoft Spain a company that operates in worldwide.

We are highly interested in the Díde project outcome and we would like to be informed of its final results, **in special the integration of the big data analytics in the platform.** With this, we want to improve our treating methods by analysing patterns and tendencies in the disorders and problems of our clients.

I am therefore looking forward to being considered as a potential final partner for the implementation of this ambitious project.

Yours faithfully

Enrique Celma
