

Invoice Capture Service

Next Generation Invoice Capturing

Enterprises use the BLU DELTA Capture Service to dramatically improve the automation of incoming invoices for accounting processes.

What is BLU DELTA?

BLU DELTA Invoice Capture Service maximizes the automation of incoming invoices by extracting data from unstructured invoices. The innovative Machine Learning technology operates as a cloud solution and delivers highest extraction rates, minimized error rate, very low integration effort and accelerated turnaround times.

Why customers use BLU DELTA

- High automation rate reduces manual effort / lower costs
- Delivers results from day 1 even from unknown formats
- Faster throughput
- Less errors in accounting
- Future proof, improves over time
- Easy and low cost implementation by cloud solution

Very SMART

- 95% identification rate with Artificial Intelligence
- Automatically recognizes unknown invoice layouts
- BLUDELTA technology is future-proof and takes care of continuous quality improvement

94.5% recognition rate

Lowest cost

- Transactional based pricing tiers enable riskless trials and startup
- Fast and easy integration feasible
- No maintenance effort/costs

100% self learning

Modern and open architecture

- Microsoft Azure enables a reliable environment
- No customer data are transferred to the cloud
- Reliable and scalable

100% secure

"BLU DELTA Capture Service is a modern and secure solution. We regard this as a high plus for our goals of cost reduction in the coming years."

- Herbert Wenger, Head of Product Management Automotive Smart Finance,
Porsche Informatik
