

WHO WE ARE

Consistent Revenue Growth

GCOM Software, LLC., founded in 2005, is a fast-growing technology services company that provides a broad range of professional services designed to deliver **cutting edge business and technology solutions** for our public sector clients. Our diverse team of experts specialize in innovative solutions that assist our clients with their operations, engage their constituents and improve operational excellence. We maximize agency **technology investments** by delivering tactical and strategic solutions that not only emphasize getting to go-live, but also look ahead to the **long term** post production support processes, procedures and organizational assets required to operate technology investments well into the future.

WHAT WE DO

Managed Services

We take a flexible, strategic approach to our client engagements. We work collaboratively with our clients to create an arrangement tailored to the specific needs of the client's organization. Focus areas include:

- Public Safety (Criminal History, Incident-Based Reporting)
- Healthcare (Health Exchange, Vital Records, WIC, Medicaid)
- Licensing (Inspection, Professional, etc.)
- Case Management
- Asset Management

Product Development

From time to time, we recognize opportunities to productize solutions so they become reusable and well documented assets that can be delivered at an exceptional value. We currently offer products for Vital Record Management, Computerized Criminal History, Parking Ticket Payment/Dispute App, WIC, and Case Management.

IT Staffing Services

Since 2005 GCOM has been providing IT Staffing Resources to government agencies. Our mission is to provide you with the Right People at the Right Time at the Right Price. It comes down to people - those with the right mix of expertise and attitude, available when you need them, and at a price and delivery model that meets your needs.

Vital Records Management System

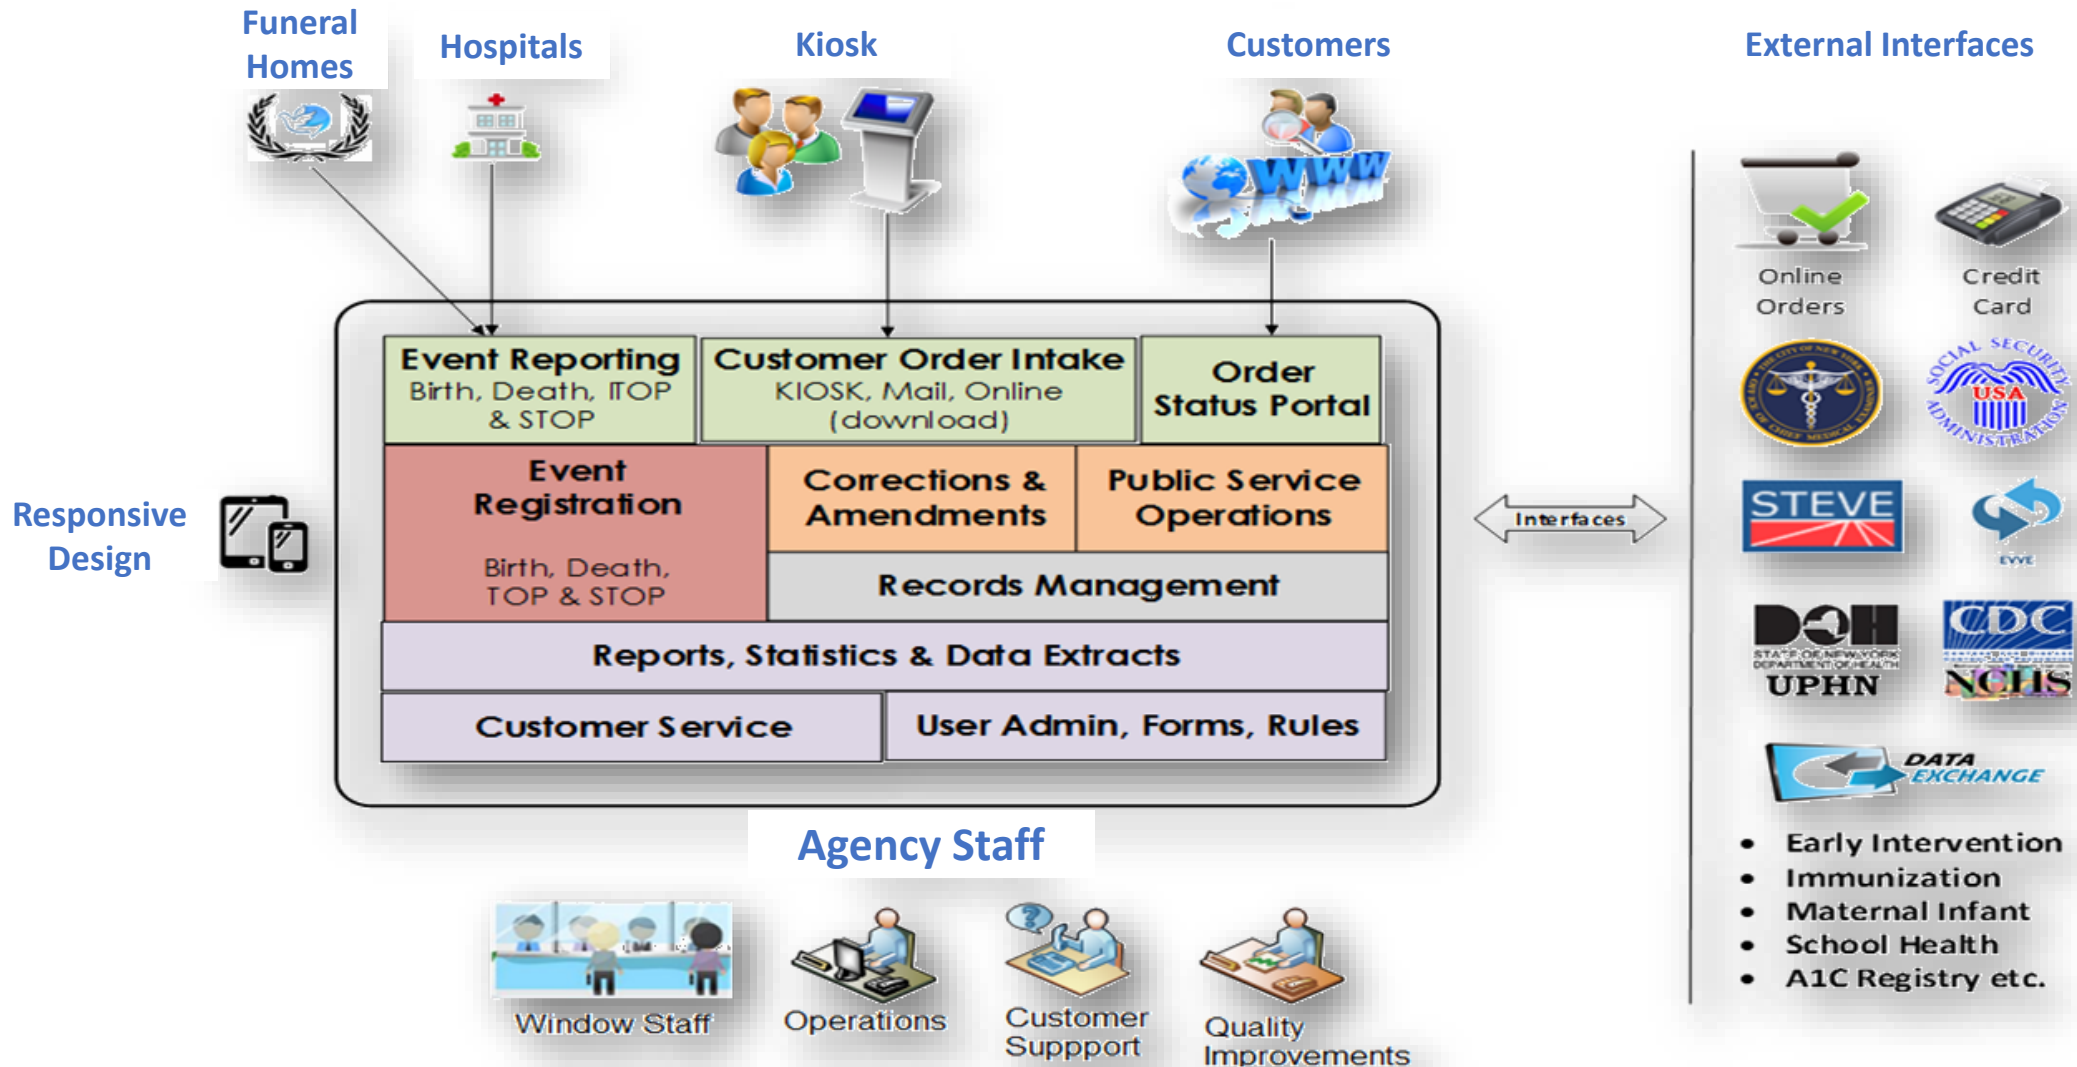

www.gcomsoft.com/VRMS
VRMS@gcomsoft.com

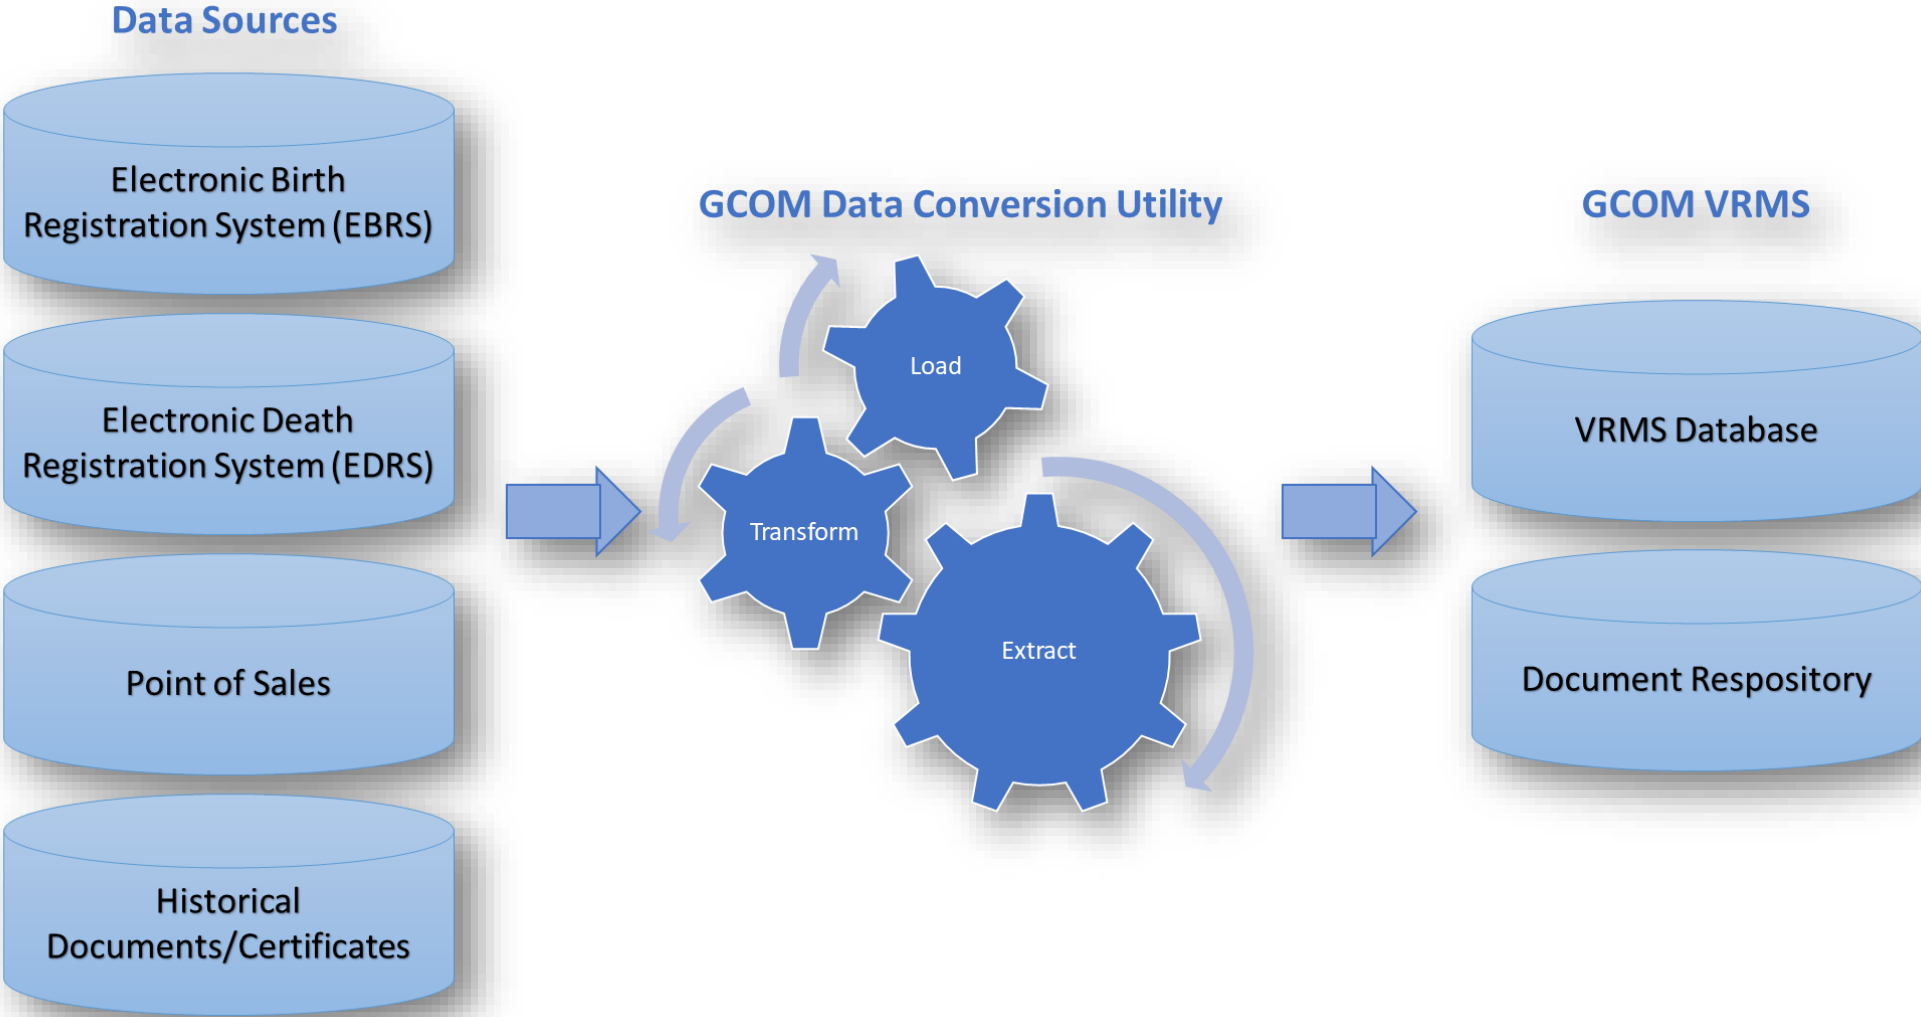

VRMS is a next-generation cloud-based electronic vital event records management system. VRMS is a fully integrated solution for registering all vital events, including data analysis, and dissemination. Security features include access control, encryption, secure data transmission and non-repudiation mechanisms using electronic authentication devices.

Highlights:

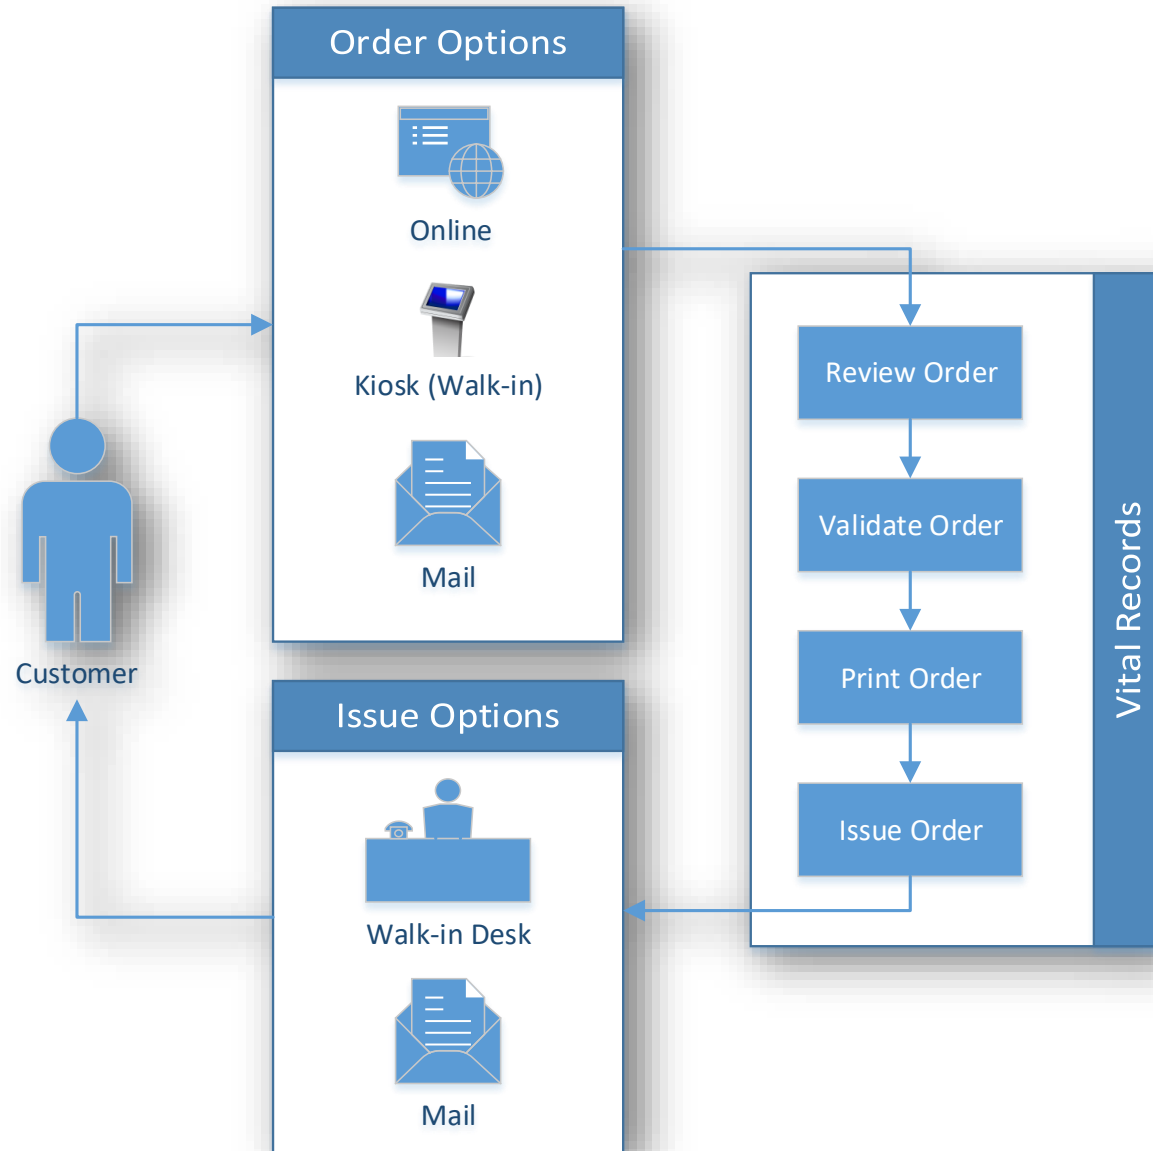

- On-Premise or Cloud Options
- Vital Event Record Management
- Standard, Online, or Kiosk Ordering Channels
- Certifier Facial Recognition
- Document Management
- Integrated with SSA's Online Verification of Social Security (OVS)
- Advanced Reporting Capabilities including Financial Reconciliation & Accounting
- User Configurable Rules Engine & Forms
- Role-based Access & User Administration
- User Notifications (email/text)
- Workflow/Queue Mgmt.
- Address Verification & Geo-Coding
