Document Genome’s mission is to free knowledge trapped in documents for businesses everywhere, securely, at scale, with full traceability and lower costs than manual methods.

Our Document Intelligence Platform

“Document Genome’s document intelligence platform can read masses of legacy documents and find patterns in the information. This allows businesses to be more efficient when understanding the impact of changes . Their solution allows you to create dashboards and lets you map and manage the data so it is very easy to size the impact of forthcoming changes.” w is not fit” - **COO for Asia Pacific, Large European Bank**
