

# The institutional leader in digital asset trading and execution for banks

WIRESWARM's institutional-grade infrastructure provides a robust mission-critical gateway for trading and execution of digital assets. It enables banks, brokers, OTC desks and market makers to connect to and interact seamlessly with the world's most liquid and regulated digital asset and cryptocurrency trading and execution venues.

## Solution

WIRESWARM is a digital asset and crypto currency trading and execution platform. It allows financial institutions to maintain a single "always-on" connection with all major digital asset liquidity providers such as exchanges, brokers, OTC desks and market makers. Using WIRESWARM, a financial institution can choose the optimal counterparties with which to place orders, thereby ensuring best execution for clients.

### Connect

A single normalized FIX connection links WIRESWARM to a financial institution's core, delivering seamless and secure access to a comprehensive array of exchanges, market makers and brokers. Only one connection is needed to gain access to the entire market.

### Allocate

WIRESWARM enables financial institutions to decide how and when to trade, either directly with an exchange or via an intermediary, using WIRESWARM's advanced Smart Order Routing and execution logic.

### Execute

WIRESWARM allows institutions to define and deploy unique customized execution algos to meet their specific needs. Together with WIRESWARM's lightning-fast execution, this gives institutions confidence that orders are always correctly executed via the most regulated and liquid venues.

## Benefits

Giving financial institutions the right tools to navigate the digital asset trading landscape with ease.

### Secure

API/Private keys are fully secure and order flow is completely private.

### Customizable

Open-source architecture can be customized for user-specific requirements.

### Automated

Any type of execution logic can be fully automated.

### Reliable

Built on the most robust architecture and state-of-the-art technology.

### Fast

Orders are executed with maximum speed in order to reduce transaction cost and risk.

### Fully supported

Comprehensive guidance for installation and customization. Onsite and remote training and consulting.

## Features

Solving financial institutions biggest problems and challenges in digital asset trading.

### Liquidity and connectivity provider

Wide range of supported crypto exchanges, crypto brokers, crypto market makers and crypto data providers.

### Order and execution management

Flexible order management so you can execute any order in any market globally.

### Smart-Order-Routing, execution algos and RFQ

Wide range of Best Execution capabilities to execute large orders with minimal price impact.
