

# IDOS | Inventory Management

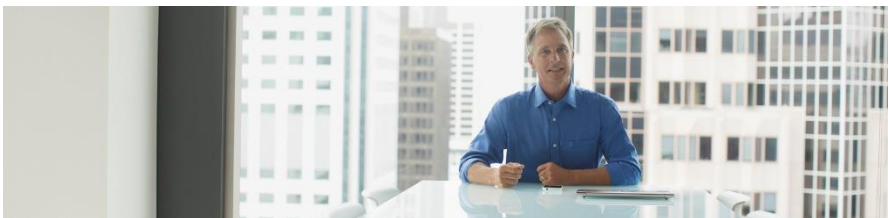

Inventory is important. Gain complete control over its movement and valuation. Stay a step ahead.

**IDOS automates accounting for your inventory and keeps tight control on inventory inflow, issue and sales. So that at all times, on your screen you can track which SKUs are at which place and flow in what patterns.**

## Real-time updating of inventory

IDOS, through an automated workflow process ensures that all inventory is properly accounted for, its movement, be it purchase, issue to workers, inflow after processing, sale to customers and sundry are tightly tracked. Thereby providing you with not only inventory status at different places but also consumption pattern analysis.

## Enhance process efficiency in inventory management

- Inventory purchase tracking
- Manufacturing & job-work issue and receipt tracking
- Inventory shipping and sales tracking
- Inventory status reports
- Consumption pattern analysis
- Automatic GAAP compliant valuation

## Avoid losing track of inventory

When there is tight control over the movement of your inventory and identifiers placed at each point. It becomes possible to track inventory status, plug leakages and plan in advance.

## Track consumption patterns for better fulfillment

Having the right inventory at the right time at the right place is a dream come true. IDOS helps you track consumption patterns of SKUs across all your locations, so that you can achieve perfection in fulfillments.

## Automatic valuation to judge SKU profitability

Having automatic inventory valuations helps you better judge the profitability of each SKU and also be compliant with GAAPs. Thereby helping you cherry pick your focus product lines.

## Control inventory movement and leakages

## Improve your fulfillment rates

## Optimize your profits

**We were consistently losing sales opportunities due to inefficient stocking and low visibility of consumption trends. IDOS has helped us break this pattern and improve our revenues.**
