

# Deliver better quality healthcare for less with DC2Vue<sup>®</sup> and Microsoft Azure

## ABOUT DC2VUE<sup>®</sup> CARE MANAGEMENT PLATFORM:

DC2Vue<sup>®</sup> is a leading Melbourne-based healthcare technology company whose mission it is to empower care teams through digital technology. Our platform enables providers to improve care coordination, optimize workforce efficiency, and ensure compliance.

### See what customers are saying:

*"DCE has been professional, conscientious, and timely, and they have always strived to provide quality work. We look forward to a long-term collaboration."*

*– Wayne Crase, Chief Executive Officer, Everglow Community Care Links Incorporated*

## TEST DRIVE DC2VUE<sup>®</sup> TODAY

The all-in-one DC2Vue<sup>®</sup> platform automates workflows and communications to provide integrated intake and assessment, care planning, roster and scheduling, service delivery, billing, and reporting benefits.

The platform features a "one-patient, one-view" timeline, clinical documentation, smart scanning and simplified workflow. It's also extendable and designed to take the advantage of the power of Microsoft Azure, Data, AI & Analytics to give care providers a fast, flexible platform that's responsive to changing business dynamics.

Today, more than 6,000 users leverage the DC2Vue<sup>®</sup> platform to transform care delivery across healthcare settings, including acute, aged, and disability care, and allied and community care.

Try DC2Vue<sup>®</sup> for free for 14 days with unlimited features

# Why Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
