# Threat Protection Value Insights

As a Microsoft GSI partner, Azure Expert MSP, and we hold all six Solution Partner Designations in Microsoft's Cloud Partner Program, supported by multiple Specializations. We help formulate a strategic plan for your organization, providing insights into threats across email, identity, and data and clear guidance to enhance your long-term security posture.

## What We Offer

### In Scope:

- Deployment of trial licenses for Threat Check
- Configuration of Security tools to discover threats concerning identity, email, and data
- Security Tools: Sentinel, Defender XDR, Entra ID Protection, Defender for Office 365, and Defender for Cloud Apps
- Defender for Endpoint: Onboarding 5 – 100 devices (Windows 10/11 only)
- Defender for Cloud Apps: One-time manual upload of logs from the firewall or proxy server
- Detailed self-assessment of customers' security landscape and definition of next steps

### Out of Scope:

- Devices other than Windows 10/11 devices
- In-depth analysis and investigation of detected threats
- Threats in the on-premise infrastructure
- Forensic analysis
- Technical designs or implementations
- PoC or Lab Deployment

**"** See what customers are saying:

The Microsoft Threat Protection Engagement helped us understand our maturity levels on different sectors of cybersecurity.

-Harri Kivimaa, Head of End User Services, VTT

# Threat Protection Value Insights

## How it Works

Conduct threat checks and configure various security tools to detect identity, email, and data threats.
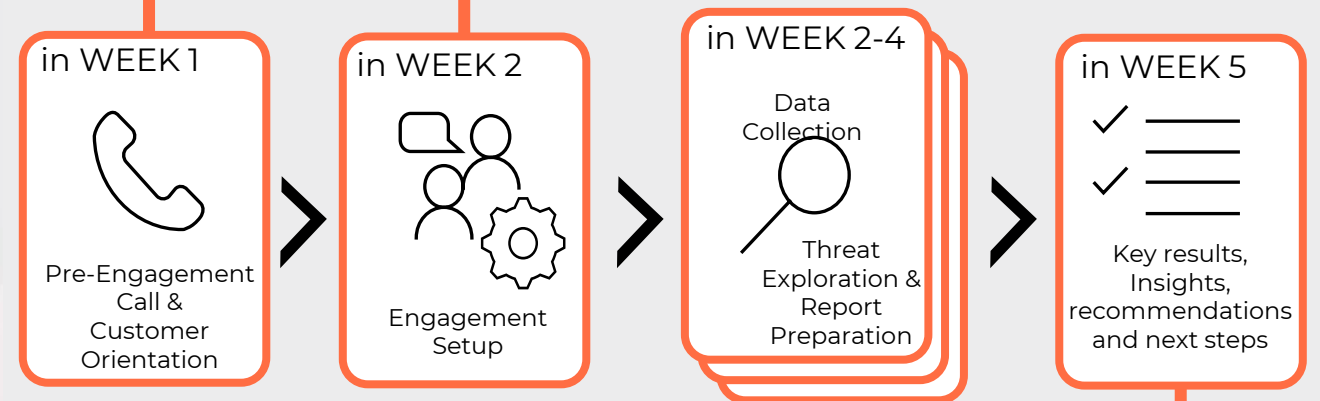

Do you know how many phishing attacks your organization has received? If employees adhere to your password policy? Whether personal data is being exposed? In short, is your organization's cloud environment as secure as you think?

In this format, we'll help you develop a strategic plan customized for your organization. You'll gain visibility into immediate threats across email, identity, and data, plus clarity and support on upgrading your security posture for the long term.

## Execution Strategies and Solutions

Alignment of expectations, general scope and scheduling
Self Assessment of your security landscape and identification of top priorities, main influences and opportunities (questionnaire)

Kick-Off, definition of scope & deployment of Microsoft Threat Detection tools in your production environment

### in WEEK 1
Pre-Engagement Call & Customer Orientation

### in WEEK 2
Engagement Setup

### in WEEK 2-4
Data Collection

Threat Exploration & Report Preparation

### in WEEK 5
Key results, Insights, recommendations and next steps

Key results of the Threat Exploration in your environment, insights to Microsoft's holistic approach to security, and how it relates to your organization, demonstrations of Microsoft's integrated security, including the latest tools and methods, next steps on how to jointly proceed

## Customer Outcomes

We will partner with you to strengthen your organization's approach to cybersecurity and help you better understand how to prioritize and mitigate potential attacks.

Understanding how to mitigate threats by showing how Microsoft 365, Entra ID Protection, and Application security products can help mitigate and protect against threats that are found.

Recommendations and planning next steps for a production deployment.

## Customer Success

**Company:**

- Our customer, an Austrian financial institution, strongly focuses on IT-Security and uses Microsoft technologies to ensure the security of sensitive financial data.

**Solution:**

- Execution of a workshop including designing and testing of Defender for Endpoint, Defender for Cloud Apps, Defender for Office365, Defender for Identity, Entra ID Protection, and Microsoft Sentinel in the customer environment

- Together with Eviden, a roadmap for the next steps regarding M365 E5 was drawn based on the results of the workshop

**Outcome:**

- Based on the results, the customer was able to successfully identify security-critical vulnerabilities and the corresponding added value of the M365 E5 modules

- By testing and implementing the Defender Suite and Sentinel, the customer was able to gain in-depth impressions of the Microsoft security products

Eviden is your preferred digital, cloud, data, and security partner to help you realize your digital future. Together, Microsoft and Eviden are expanding the possibilities of data and technology, now and for generations to come.
