Microsoft

4-month implementation

Learn how we partner with your nonprofit to do more good by starting your Microsoft Cloud for Nonprofit journey with Fundraising & Engagement and Dynamics 365 Marketing

mission
our reason for being

threshold.world leverages technology to empower nonprofits to do more good.

We build and deliver solutions based on the Microsoft Cloud for Nonprofit aligned to the Common Data Model for Nonprofits (CDM). Our industry-leading experience with the CDM and history of delivering complex CRM solutions on enterprise platforms set us apart.

We think and work like a product company to build things that last.

We are a Microsoft Tech for Social Impact Partner, Microsoft Industry Solutions Partner, NetHope Corporate Partner, committed to remaining carbon negative for the life of our company and live and work according to the t.wo code.

Thank you for the opportunity to support your mission.

Our Approach

We partner with you to translate a combination of how you want to work,
CRM best practices and best use into a solution that is built to scale and last.

User-Centered Discovery & Design

Iterative Configuration, Testing, & Training

Mobilization

Design Confirmation

Transition & Support
