

Deliver Optimal Designs On Budget & Schedule

AspenTech is a leader in the process industry, with over 40 years of proven success, optimizing design & operations with best-in class cost estimation, equipment design, risk analysis, conceptual 3D layout and more.

One customer used the concurrent 3D layout and CAPEX analysis to accelerate the time to find optimal designs by evaluating more alternatives in less time.

CONCURRENT ENGINEERING

AspenTech's Concurrent Engineering solution facilitates simultaneous crossfunctional design and execution of projects, providing faster delivery and time to value

The solution enables a combined workflow across process simulation, equipment design, conceptual 3D layout, reliability analysis, centralized databases for FEED deliverables and project cost estimation.

Customers can meet aggressive project schedules while maximizing value from capital spent with the most cost-effective and risk-minimized projects.

AspenTech's Concurrent Engineering solution helps shift the engineering lifecycle to the left, offering insights early in the design conceptual phase to ensure profitable & sustainable projects.

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
