### ***Quick, Effective, Contactless Thermal Detection Driven by AI***

- ◆ Efficiently identify people with a fever while maintaining social distancing protocols
- ◆ Achieve a higher accuracy ( $\pm 0.3^{\circ}\text{C}$  /  $\pm 0.6^{\circ}\text{F}$ ) of temperature screening
- ◆ Automatically recognize targets and send immediate alerts, eliminating human error
- ◆ High measurement speed and broad coverage area

### **Access Pods**

- ◆ Perfect for Single Access checkpoints, office or employee entrances or lobby turnstiles
- ◆ Contactless, fully automated kiosk, accurately detect temperatures in seconds
- ◆ Facial and Mask Detection
- ◆ Available in pedestal mount, countertop or wall mounted configurations.
- ◆ Dust-proof and water-resistant construction for maximum durability
- ◆ Can be used to unlock access control checkpoints

### **Spectrum Mass Scanner**

- ◆ Multi-person Temperature Detection (up to 30 persons at a time)
- ◆ Identifies multiple body heat sources at once
- ◆ Reliable Performance- 99.7% Accurate
- ◆ Screen crowds entering through large entries, including airports, stadiums, convention centers, casinos and public transit
- ◆ Integrate into existing security operations or deploy as a stand alone system

### **C3 Advantage**

- ◆ Integrate with Existing Systems and Software
