WHAT WE OFFER

PRODUCT DESCRIPTION :

LBAN_Static_Web_Hosting: This service is intended to help organizations and individuals host and secure their static websites using Azure Storage Accounts and map the site to a domain name of their choice.

MORE INFO :

Leverage LBAN_Static_Web_Hosting to seamlessly host static websites on Azure storage account thereby saving cost on server compute cost and technical know-how involved in configuring webservers for hosting operations. The site will also be secured, and all HTTP requests will be redirected to HTTPS.

KEY INFO: Hosting Secure Static Website on Azure Storage Account:

- Seamless upload of site files and folders
- Initial testing of site to ensure site renders properly.
- Mapping of default site URL to domain name using CNAME record.
- Configuring Azure Front door to secure site and route HTTP request to HTTPS.
- Final testing of applications to confirm all deliverables.

This service tends to use Azure Front door and CDN to secure your static websites and to make sure all requests are routed to HTTPS after mapping to domain of choice.

WHAT OUR CUSTOMERS ARE SAYING

"LBAN team has proven capability in deploying solutions that enhance productivity and further improved the effectiveness of our security application. within our business environment.
