

# Empower ERGs with enhanced collaboration

Employee Resource Groups can now make every member feel valued, heard, and connected in Microsoft Teams.

Talk to us

## Benefits

### Cultivate a vibrant culture through better collaboration tools

Unlock a truly inclusive workplace through better connection and engagement in Microsoft Teams.

Get started

#### Streamline communication

Enhance communication capabilities to actively include remote teammates, ensuring they have equal access to the same information as their in-person counterparts.

#### Enhance engagement

Build an inclusive environment where everyone can contribute feedback collaboratively, improving team focus and synergy.

#### Efficient event organization

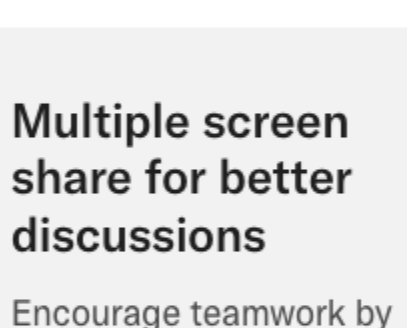

Frameable streamlines the event management process by simplifying the planning logistics, communications and tracking into one location.

## Features

### Solutions designed to foster a diverse workplace

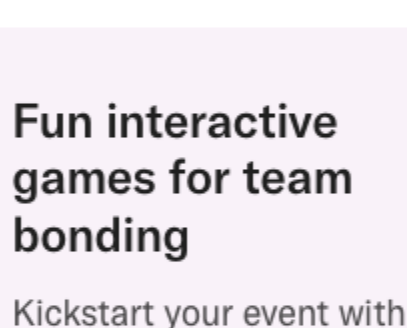

#### A virtual space for planning and execution

ERG leaders can unlock better collaboration with digital whiteboards to plan and track events from anywhere at any time.

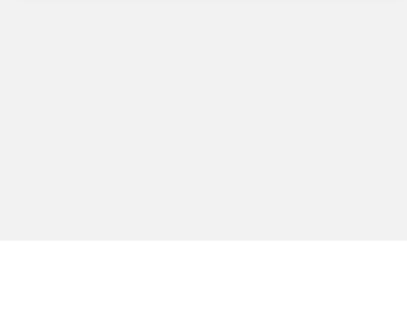

#### Increase discussion visibility and participation

Join ERG discussions and meetings, and participate in inclusive conversations with ease by seeing who's involved in real time.

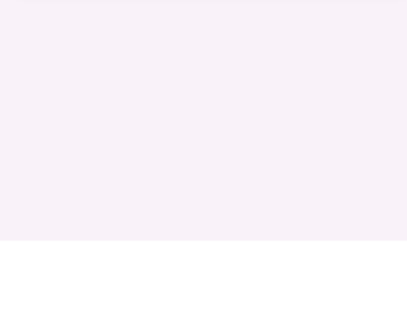

#### Multiple screen share for better discussions

Encourage teamwork by sharing multiple screens simultaneously to involve everyone in the process.

#### Fun interactive games for team bonding

Kickstart your event with engaging word games to build teamwork and active collaboration.

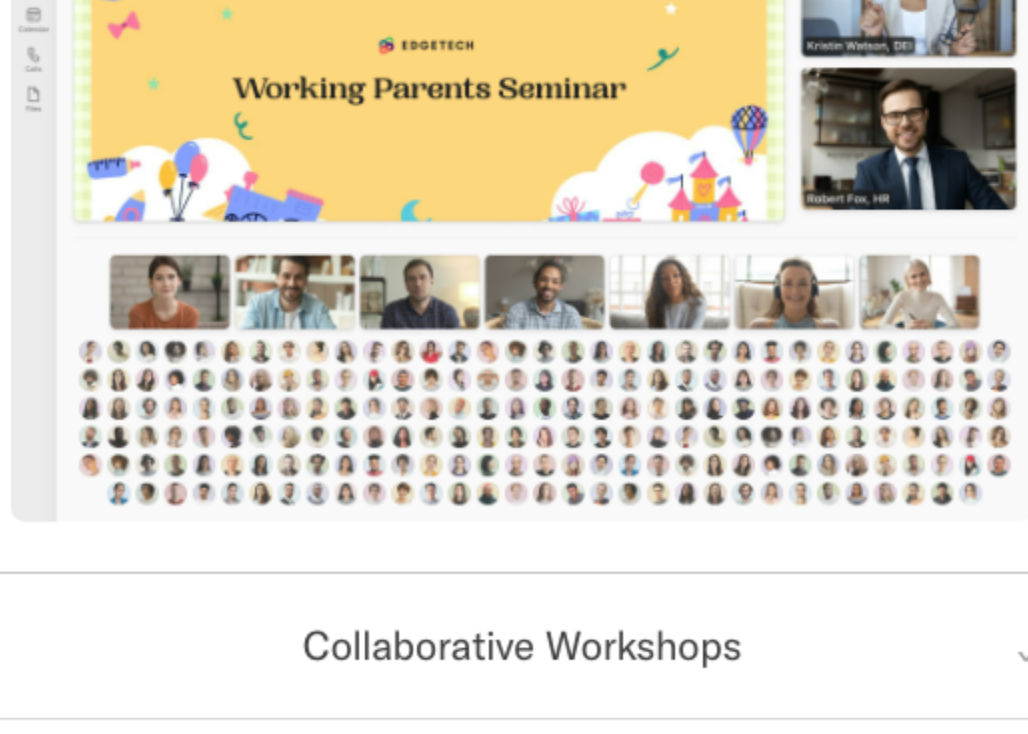

## Use cases

### Perfect for every ERG initiative

#### Interest Groups

Use Frameable's solutions to schedule regular discussions for specific interests, giving teammates a sense of belonging.

“

#### We've broken down virtual walls

Since implementing Frameable within our Microsoft Teams environment, we've seen a remarkable increase in team cohesion and participation. It's like we've broken down the virtual walls between us, making every meeting feel more like we are working towards a common goal.

— Jordan, Diversity and Inclusion Manager

“

#### Supportive feedback sessions

The platform's user-friendly interface and collaboration tools, specifically the Overview feature, have allowed us to create supportive open feedback sessions.

— Linda, HR Director
