

Workplace for IT

Workplace, a highly automated portal solution allowing you to spend more time on your core business.

A next generation of modern workplace.

The modern workplace is the new reality, a reality that calls for new tools for management and configuration. Onboard Workplace and let us support you in managing your modern workplace from design, installation, device acquisition and configuration up to direct support for your employees and this at a predictable cost per month.

1

Workplace Support

Outsourced support services for every aspect of the workplace for both end users and VIPs.

2

Workplace Self Service

Zero admin intervention during the entire device lifecycle.

3

Workplace Single Sign-On

End users can seamlessly access the portal without having to input any credentials.

4

Workplace Single Check

On and off boarding of multiple assets with a single click.

5

Workplace Discovery

A dynamic, always up-to-date database containing all assets and asset owners.

6

Workplace Gears

Integrated mail & ticket templates, combined with automated bots to streamline workflows.
