Mirro PaaS API/SDK INTEGRATION

mirro.ai

```
System Integrator  →  media file
                      Wav,mp3,mp4  →  mirro API  →  mirro result
                                                    .JSON File
```

media file → mirro overlay control ← mirro result .JSON File

mirro overlay control → recording with actionable insights – flags, emojis, tips

mirro result .JSON File → implement dashboard - custom application per KPI
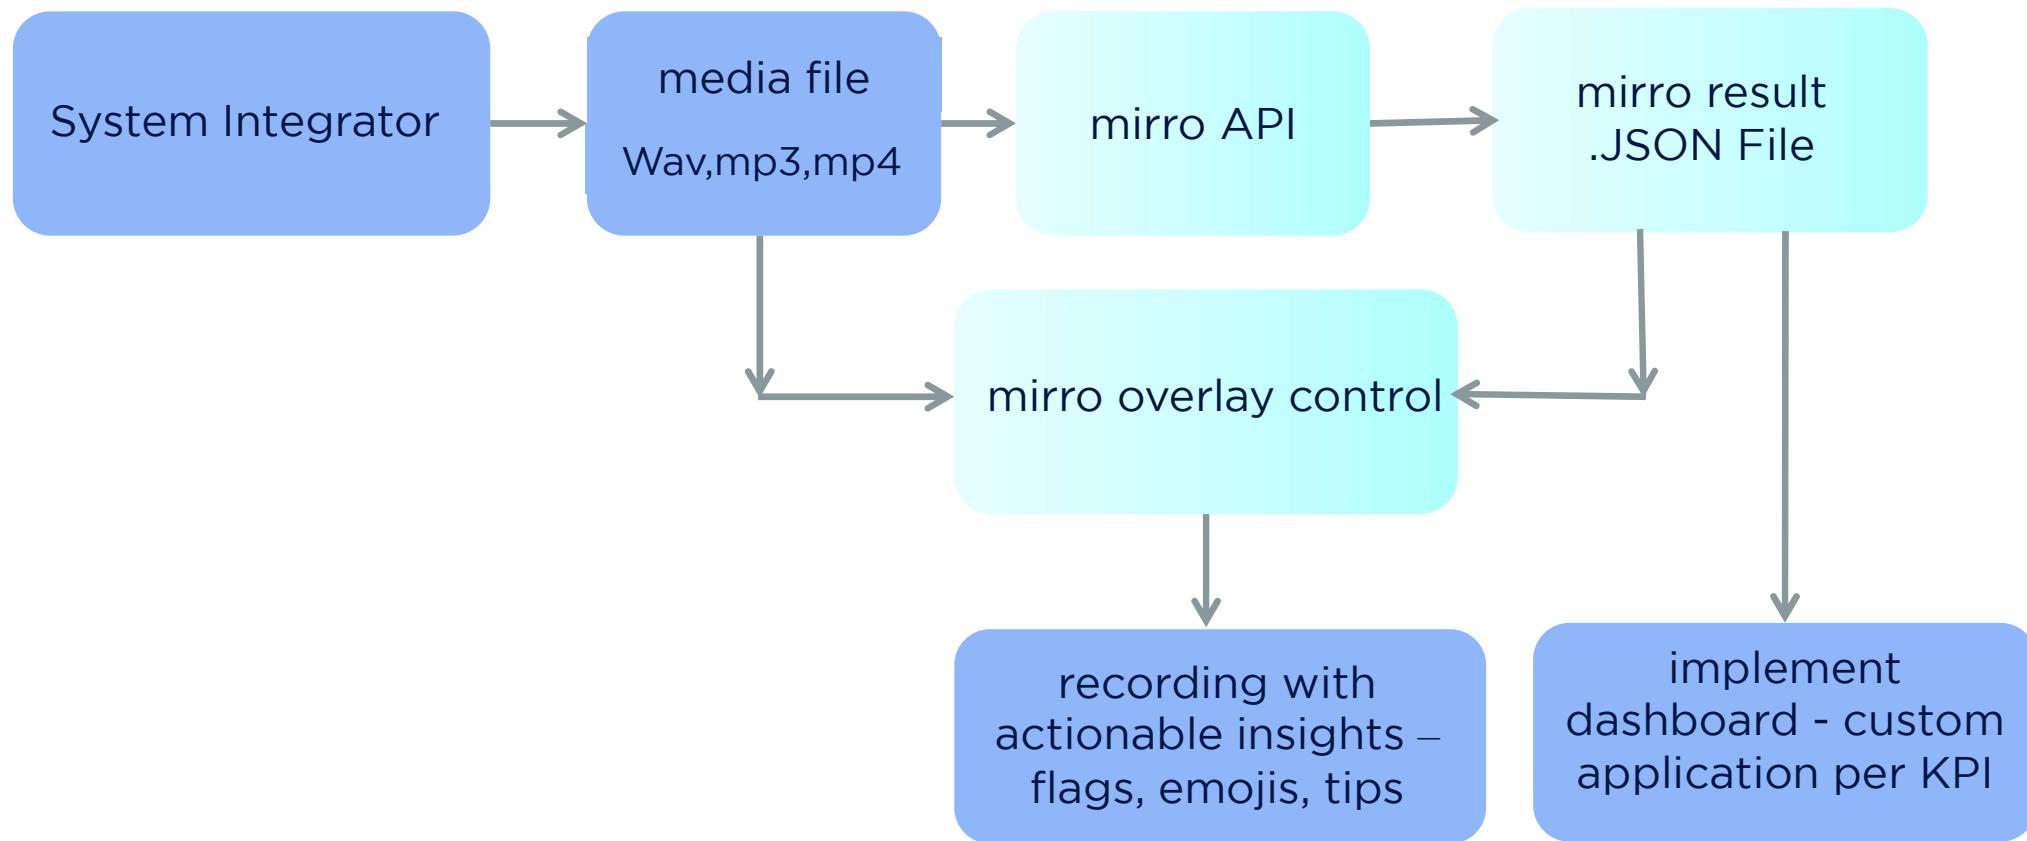

* Supports : mirro cloud – Azure or customer cloud
