

FastTrack

The FastTrack benefit offered by eGroup Enabling Technologies as a Microsoft FastTrack Ready Partner offers guidance that is provided to you using a combination of tools and published documentation. FastTrack personnel provides you with a combination of verbal and written assistance and best practices to help you successfully enable your eligible services and allow your users to take full advantage of your Microsoft 365 purchase.

Our team's FastTrack Specialists work with you to understand your plans and uses for the eligible Microsoft products you've purchased and provide you with a recommended approach that helps you achieve your goals.

ENVISION

Define your vision for success by identifying and prioritizing scenarios and building a success plan.

ONBOARD

Complete remediation tasks, core onboarding, service onboarding, and migration with guidance and online resources from FastTrack

DRIVE VALUE

Use tools, guides, and best practices to implement your success plan and drive user adoption
