Power Platform Advisory

Discovery and Value mapping Offer

Purpose and Goals

We help to increase your understanding of the possibilities Low-Code and Power Platform offers.

We identify concrete challenges which we use as a basis for further discussions. Therefore, it is important that both the business and IT participate together.

We advice on how to establish your own Center of Excellence for Power Platform.

We share different examples.

We rank the ideas based on business value as well as the complexity of implementing them.

Workshop 1

Activities and timeline – 3.5 h total
(5 min break every hour)

45 min	60 min	60 min	45 min
INTRO AND OVERVIEW	**DESIRED: WHAT DO YOU WANT?**	**PROTOTYPE PRIORITIZED SOLUTIONS**	**SUMMARY**
Low-Code and Power Platform - what is it and what can you do with the platform? Examples that inspire.	Workshop on possible solutions that would make our days better. We work individually and together to identify areas that could potentially be digitized and automated.	New exercise where we rank the ideas based on business value as well as the complexity of actually implementing them.	Summary in group and vote for the most Desired use cases. Next steps!
