# Consultancy Package

- Ideation of the Hackathon (define type of Hackathon, main subjects, target audience, prizes, judges, added tools/ add-ons)
- Implement the general structure and content of the Hackathon on the TAIKAI platform
- Custom Hackathon materials and guides
- Design and development of the Hackathon agenda
- Design and development of activities for participants and mentors
- Prospection of sponsors (if applicable), hackers, mentors and judges
- Co-marketing campaigns (TAIKAI will develop and deploy marketing frameworks, strategies and content for each Hackathon and the diffusion of such will be executed by both parties)
- Post-Hackathon feedback session
- Dedicated and continuous support before and during the event (including live support)
- Hackers application creation, review & curation (if applicable)
- Management of hackers, mentors and judges

## Pricing
