Microsoft Partner

Move virtual machines from on-premises datacenter to Azure with Azure Migrate

About Belinda CZ s.r.o.

We have been delivering exceptional IT solutions to our clients since 1998. Over the years, we have continuously enhanced our services to ensure that our clients get the best possible results.

What we offer

We offer tailored business solutions to meet our clients' unique needs and enhance their efficiency.

With Azure Migrate offers a simplified solution for migrating, modernizing, and optimizing your workloads in Azure. This comprehensive service includes all pre-migration steps, such as discovery, assessments, and right-sizing of on-premises resources, for infrastructure, data, and applications. Additionally, Azure Migrate's extensible framework allows for seamless integration of third-party tools, expanding the range of supported use-cases and providing greater flexibility for your migration journey.

What our customers are saying

"With Azure Migrate and Belinda CZ s.r.o. helped us migrate hundreds of our on-premises servers to Azure. The time-critical project was successfully completed."

– Robert Joskowski, Program Manager IT Ops and M&A, Brenntag SE

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
