

Columbus "Power Platform Governance As a Service" is an offer which includes ongoing collaboration with our experts provided in recurring format. The offer entails:

You don't need IT knowledge to gain value from this offering. Managers gain knowledge about what has been created on their watch. IT Professionals have a list of users, applications, security and governance concerns to address. Users and Developers get insights into their projects and better understanding of Platform's capabilities. Different personas will be invited for different stages as per the agreement.

· App in a day training • Self learning plan

- CoE toolkit setup and introduction Understanding your needs CoE governance strategy Analysis and pre-work meeting/call
 - Citizen developer best practice and developer guidelines ALM strategy
