

Dynamics GP to Dynamics 365 Assessment Deliverables

Assessment

- Current customizations
- How current customizations can be converted to extensions
- Integrations to other systems
- 3rd party solutions used
- Reporting methods and options
- Cloud readiness and cloud savings

Deliverables

Logan Consulting will provide an assessment document that provides guidance and costs for a potential upgrade to Dynamics 365 Business Central or Finance and Operations. The primary focus of the deliverable will be paid to customizations, integrations and complex business processes that will be affected by the move to Dynamics 365. The deliverable will include cost estimates for the move to the cloud as well as savings from a move to the cloud.

Details of the Assessment

- Review of integrations
- Review of customizations
- Review of key business processes
- Review of reporting tools and needs
- Review of modules used
- Summary of upgrade costs
- Summary of savings from cloud move
- Review of infrastructure environment
- Review of readiness for cloud move
