

# UPGRADE FROM DYNAMICS GP TO DYNAMICS 365 BUSINESS CENTRAL

## D365 CLOUDSHIFT

Migrating to the cloud made easy

### FAQ:

- **Is Dynamics GP being discontinued?**

*Not necessarily, but it's no secret that Microsoft has shifted its focus towards the cloud. As businesses strive to become more agile in an ever-changing environment, many consider migrating to a modern cloud-based ERP.*

- **Will Dynamics 365 Business Central fit my business requirements?**

*Dynamics GP and Dynamics 365 Business Central largely share common functionality. Through our analysis of your current and future workflows, we are determined to maintain the satisfaction of your business requirements.*

- **Will I have dual use rights between systems?**

*Yes, by taking advantage of Microsoft's Bridge to the Cloud promotion, users can leverage dual use rights between systems in order to smooth out the transition.*

- **How long will the migration take?**

*In short, it depends on the complexity of your business. To clearly define your migration timeline, contact us and we will be happy to review your specific requirements.*

- **Is now really the time to migrate?**

*We believe that there has never been a better time to migrate to the cloud and we have developed D365 CloudShift in order to streamline the migration process.*
