

PC Solution's Microsoft Windows 365 Pilot

1-8 Weeks Microsoft 365 Pilot Program with Windows 365 brings the new Cloud PC hybrid personal computing category to life, using the power of the cloud and the capabilities of the device to provide a full, personalized Windows experience. With Windows 365, you can leverage your existing infrastructure. Windows 365 delivers native integration across Azure AD, Microsoft Defender, Microsoft 365 applications, and Microsoft Intune.

Business Continuity: Uninterrupted access in case of hardware issues

Enhanced Productivity: Focus on tasks, not IT infrastructure

Accessibility: Inclusivity with remote access for all employees

Data Protection: Secure data and compliance with policies

Easy Updates: Simplified software updates and patch management

User Experience: Consistent and personalized desktop experiences

Competitive Edge: Stay agile and competitive in a digital landscape

Approach and Deliverables

Week 1-2 PLAN
