

We digitalise your future

logineer — your IT partner for international logistics

Faced with the challenge of guiding your logistics company into a successful future?

Then logineer is the perfect partner for your digitalisation project! As a subsidiary of the IT service provider q.beyond, we smarten up logistics specialists operating on the international stage. Our biggest plus for you: Our combination of IT know-how and long-term experience in logistics. Our 150 IT and logistics experts build your digital infrastructure, making sure that your data and information flow smoothly across borders and time zones. Our portfolio of services includes the transport management system (TMS) along with various IT solutions covering financial accounting, cyber security, SAP/ERP and the modern workplace from Microsoft. It also ranges from the operation of worldwide cloud infrastructures to our Global 24/7 Help Desk. logineer's objective is to deliver a fully equipped digital logistics workplace, the way you need it.

Compelling reasons for selecting logineer as your logistics IT service provider:

- **IT & logistics:** You take care of your business, and leave the IT to us, achieving greater efficiency and lower costs!
- **Everything from a single source:** Including all IT solutions and digital infrastructure – ranging from the cloud to logistics applications to the Microsoft Office package. With our own Global Help Desk.
- **End-to-end:** We have the right solution for all of your processes across the logistics value chain, whether it be order processing, freight documents handling or customs clearance.
- **CargoWise:** We know transport management systems (TMS) inside and out and offer this core software to logistics companies of all sizes.
- **On every continent:** logineer takes care of your IT on a global scale, at both existing and new locations – we know all the international and national regulations for moving goods.
- **Maximum security:** We offer the highest level of data security and data protection along with comprehensive solutions for your cyber security.

We are the perfect partner for you if...

Your head office is in the EU

You specialise in sea freight, air freight or warehousing – or plan to

You need digital logistics workplaces – at every conceivable location

You operate internationally as a logistics specialist, or want to expand
