ABOUT XTREME

Digital Transformation with Viva Connections.

Gateway to a modern employee experience.

Engagement: 2 Days

Introduction

Hands on employee experience engagement, exploring the art of possible around Microsoft Viva Connections. The main goal and scope of the engagement is to provide true to life user experience that address your use cases and challenges which we can map as per your organization.

Objective

- Pitch perfect around the roles of Microsoft Viva Connections and exploring through its features, components, and dashboard.
- Working with the team to understand the current challenges and to identify customer specific use cases for ACE Cards, Adaptive Cards (like integrating backend databases SAP, Oracle, and SQL) for displaying employees leaves on the ACE Cards.
- Deploying a limited pilot Proof of Concept and then further scaling and optimizing it through follow up engagements.

Outcome

- Help realize the true potentials of Microsoft Viva Connections for your organization.
- Deliver the art of the possible
- Deploying ACE Cards for scenarios which were discussed as part of the engagement, directly to the organization tenant with moderate efforts and out of the box experience as per the organization needs.

Deliverables

The engagement will help you learn and walk through around Microsoft Viva Connections and helping understand the art of the possible, with use cases specific to your organization needs and deploying them in a limited pilot out of the box mode with ACE Cards integration and other scenarios for helping increase your organizations employee experience with Microsoft Viva Connection.

Agenda

Day -1
- Presentation overview for Microsoft Viva Connections and walking through the employee experience.
- Exploring the Microsoft Viva Connection dashboards, its features, and components.
- Understanding the organizations needs and any possible use cases that the customer would like to implement as part of the engagement cycle which is not out of the box and can be implemented with moderate efforts given the timelines of the engagement.
- Demo of Dashboards and ACE Card/Adaptive Cards samples
Day-2:
- The second day will be more hands on around deploying the ACE Cards and Adaptive Cards
- Catering to any specific customer needs as part of the engagement on a limited pilot
