

Envision a more predictable biopharma supply chain

Our experts are here to help you solve key challenges such as:

- Batch/lot registration and tracking
- Batch/lot splitting and genealogy
- Shelf life, expiration, and re-test
- Finished goods stability
- Integrated labeling, shipping, and tracking
- Mobile apps with tailored experiences and voice commands
- IoT-enabled environmentally sensitive workrooms, labs, and storage areas

Inventory and warehouse controls for biotech, pharma, and medical device organizations.

One of the biggest hurdles for any organization in predicting and achieving consistent growth is disruption in the supply chain.

Organizations slow to digitalize the supply chain and burdened by rigid ERP solutions face challenges in planning for demand and mitigating supply chain issues.

In this new reality, how do you envision the future state of your biotech, pharma or medical device organization? Build your transformation strategy with Microsoft Catalyst, a proven and powerful approach to innovation.

Let's ideate together

As part of Catalyst, meet with our experts and run an envisioning workshop, where we can ideate together using design led thinking concepts and jointly define how to enable the digital transformation of your organization.

This one-day briefing starts with a review of your business objectives, followed by mutual discovery and visualization of solutions, ending with a clear, actionable picture of how we can help you reach your business goals.

How Merit Solutions can help

Merit Solutions provides start-up, pre-clinical, pre-commercial, and commercial biotech, pharma, and medical device companies with the operations and controlled collaboration solutions they need to accelerate growth and maintain FDA compliance in a secure, compliant, modern cloud environment.

What is Microsoft Catalyst?

Build, plan, and execute business transformation strategies with a proven, innovative approach from Microsoft Catalyst—an envisioning and planning program that employs Microsoft Dynamics 365, the Microsoft Power Platform, and the Microsoft Cloud. Your business transformation starts with an I.D.E.A.

Start by finding the transformation strategy that's right for you. Define and prioritize your strategy using development activities, then foster ideation and drive decision making with an envisioning workshop.

We power the pioneers who are changing lives.

Merit for Life Science advances the finance and operations (ERP) capabilities of Microsoft Dynamics 365 to deliver an industry-tailored solution that meets the rigorous requirements of biotech, pharma, and medical device organizations, including quality, procurement, materials management, production, and compliance. With Merit for Life Science, regulated manufacturers can drive increased process efficiencies, ready for and support rapid growth, and drive valuation while maintaining FDA CFR 21 part 11 and part 211, EMA Annex 11, and other country-specific regulatory compliance. With our experienced implementation and consulting team, you gain an ERP partner who understands the complex operational, manufacturing, and compliance challenges facing your organization.
