

Business Central: 1-Hour Assessment

By TrimaxSecure

Dynamics 365 Business Central

Free

Give us 1 hour and we will give you a clear vision for how D365 Business Central can launch your company's growth goals into an action plan!

You provide an overview of your businesses:

Business model

Industry footprint and market strengths

Current business processes

Growth goals

Operational challenges and key pain points

Operational efficiencies and opportunities for continued process improvement and organizational streamlining

We provide:

- Business Central overview
- Demo of key D365 Business Central functionality aligned with your business model and processes
- Evaluation of platform alignment to your business process requirements
- Demo of core D365 Business Central processes related to your business model and growth goals
- Recommendation for how to leverage D365 Business Central to drive your company's growth to scale your business
- Strategic implementation plan
