Project Made Easy

What Our Customers are Saying

Project Made Easy has been **delivering value** and **exceeding expectations** for **over 13 years**. But don't take our word for it ....

Manufacturing Customer

"I wanted to let you know that as of this week we are officially on Microsoft Project Online. The **Project** Made Easy team did a great job helping us through the configuration, providing us valuable Power BI reports, and holding our hand through the process. You provided tremendous value for the price, and we never felt that we were on the consultant clock...even to this day with answering questions. If you ever need a reference call, please let us know. "

"Microsoft team, thanks for referring us to **Project** Made Easy . Excellent referral and would recommend them to other clients."

Insurance Customer

"Extremely knowledgeable experts in Microsoft PPM, easy to work with, creative approach to solving client problems, top quality work, consistently meets or exceeds expectations."

"I worked with **Project** Made Easy on several client projects. They are a fabulous partner. They deliver what they promise! I recommend them without hesitation!"

Manufacturing Customer

"**Project** Made Easy (PME) has consistently provided professional application development and consultation that has given our organization the ability to track and manage the many development projects we currently have. PME has always been readily available to listen to our business and technical needs and to translate these needs into a valuable Project Server application system. Their attentiveness to detail has always been evident, and their thorough training has given us the understanding that we need to use the Project Server application to its utmost. PME's comprehensive professionalism is matched by their warm personality: they are extremely pleasant to work with."
