

Microsoft 365 Cloud Accelerator: A hands on introduction to the Microsoft Suite of productivity

A 90-minute workshop designed by Seer, lets you see first-hand how Microsoft 365 products make work easier, more convenient, and more secure.

This true-to-life user experience takes you through everyday business situations

Here are four major benefits of the Microsoft Accelerator Experience

Hands-on Virtual
"sandbox" Tour

Explore and Discover the
M365 Platform as it
pertains to your business

Uncover new
opportunities for
advanced features

Receive Expert
Guidance and
Support

It is important to note...

This will be a Tailored
Workshop Experience

A Cloud Accelerator Experience is led by a Microsoft Certified Facilitator who will tailor the workshop to your needs and interests. You can choose to focus on specific products or explore the whole Microsoft 365 platform. The workshop is designed to be engaging, informative, and fun, and it does not require any installation or configuration on your own devices.
