Quorum Cyber

Copilot for Security Readiness Workshop

OVERVIEW

Quorum Cyber's "Copilot for Security Readiness Workshop" is an essential programme designed to equip organisations with the knowledge and skills needed to effectively use Microsoft's Copilot for Security. Tailored for CISOs, security specialists, business leaders, and compliance architects, this workshop provides insights into Microsoft's advanced security solutions and their integration with Copilot for Security.

OBJECTIVES

Mastering Microsoft Security Solutions. Gain an in-depth understanding of Microsoft Sentinel, Defender, Purview, and Entra and how these solutions feed into Copilot for Security.

Strategic Approach to Security. Learn the importance of best practices and services to adopt from Quorum Cyber.

Enhanced Security with Copilot for Security. Discover the advanced capabilities of Copilot for Security in augmenting threat detection, incident response, and security management.

WORKSHOP

- **Introduction to Copilot for Security:** Overview of its capabilities, business value, and use cases.

- **Deep Dive into Microsoft Security Solutions:** Explore Microsoft Sentinel, Defender, Purview, and Entra.

- **Strategic Integration and Actionable Recommendations:** Focus on best practices for leveraging Quorum Cyber's SOC capabilities, enhancing threat detection, and managing identity and data security.

- **Implementing a Tailored Security Roadmap:** Develop a clear action plan for security implementation with Quorum Cyber services and Copilot for Security.

KEY BENEFITS

Comprehensive Understanding
Acquire a holistic view of Microsoft's security ecosystem and its integration with Copilot for Security.

Actionable Insights
Receive specific recommendations and strategies for enhancing your organisation's security posture.

Expert Guidance
Benefit from Quorum Cyber's deep expertise in cybersecurity and Microsoft Security solutions.

QUORUM CYBERS COMMITMENT

Through this workshop, Quorum Cyber commits to providing a proactive approach to security readiness, leveraging the power of Microsoft Security solutions and Copilot for Security. We aim to empower organisations to anticipate, detect, and respond to cybersecurity threats with unprecedented efficiency.
