Azure Cloud Consulting Services

Eviden Landing Zone for Azure

What We Offer

Eviden acts as a solid foundation, enabler, and catalyst in the Azure cloud journey, producing the following outcomes:

- **Enhanced Security:** Eviden Landing Zone for Azure provides a secure environment, fostering confident innovation. With security by design, operational resilience, and embedded compliance, it aligns with Azure Cloud Architecture policies and best practices.

- **Effortless Azure Entry:** Seamlessly enter Azure Cloud with a ready-to-use, enterprise-grade platform, validating technical and business requirements.

- **Time Savings:** Benefit from an approximately 80% reduction in deployment time. We consolidate artifacts, blueprints, and repeatable code assets into a unified data plane for efficiency.

- **Cost Efficiency:** We aim to reduce resource enablement and training costs by around 60%. Our use-case-driven approach, led by certified and experienced teams, optimizes expenses.

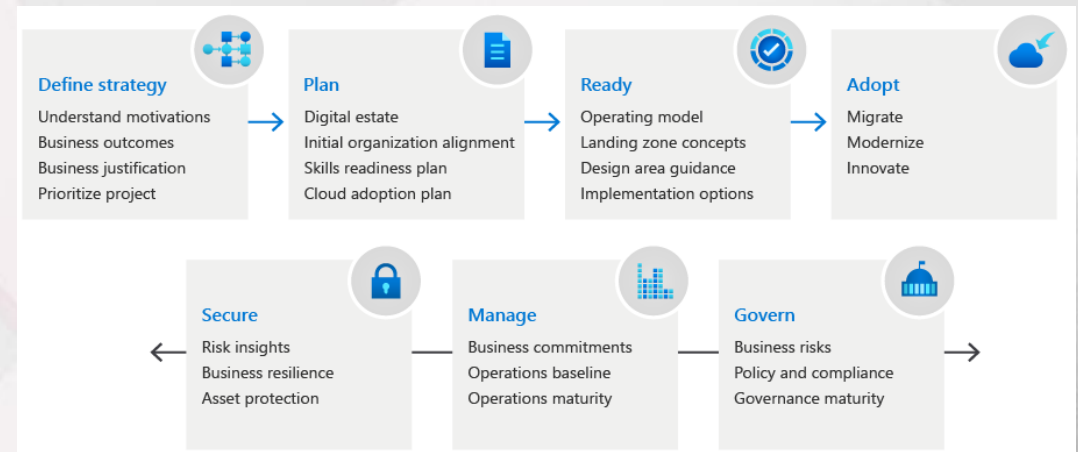

EVIDEN

Azure Cloud Consulting Services

How it Works

- Eviden Landing Zones for Azure development efforts closely align with Microsoft's Cloud Adoption Framework (CAF) and Well-Architected Framework (WAF) architecture, roadmap, and strategy to leverage the proven guidance and best practices provided by Microsoft to create and implement the business and technology strategies necessary for an organization to succeed in their cloud adoption journey.

- With Eviden Landing Zones for Azure, Eviden provides a modern, flexible, and modular cloud-native implementation of Azure Landing Zones, amended with all the necessary configurations to operate it at scale in a production environment. Optionally, add-on capabilities and service wrappers can be activated to support a wide range of Azure services.

Execution Strategies and Solutions

EVIDEN

Azure Cloud Consulting Services

Customer Outcomes

Target of 56% TCO reduction in Infrastructure hosting

Target of 36% savings of BAU support

Customer Success

Company: Capita An International BPO and professional services company

Solution:

- The regulatory risk was eliminated with the latest supported version of their infrastructure and the underlying application software
- Technical debt was removed within the Infrastructure, Application, and Network
- Cloud benefits – scalability, high availability, and improved performance were achieved with a ~56% TCO reduction in Infrastructure hosting, ~36% savings of BAU support

Outcome:

- Eviden conducted a rapid assessment test with recommendations outlining the project's complexity, size, and scale.
- After a 13-month-long migration, a new Eviden Digital Cloud Services (DCS) infrastructure was built using the Microsoft Azure Cloud Adoption Framework.
- Eviden is delivering a 5-year infrastructure and application-managed service.

Company: A Global sustainable Chemical Company's journey to the cloud

Solution:

- Eviden smoothly transitioned and managed existing cloud infrastructure, adhering to standards and best practices.
- Azure DCS was implemented for Indorama, and Eviden efficiently manages resources using Azure Lighthouse.
- Environment deployment and integration are handled through Azure blueprints.

Outcome:

- Shared Responsibility Model
- Azure Native tooling first
- Intelligent policy & event-driven architecture
- Governance & Insights
- Unified management and overview of the infrastructure using Azure Dashboards
- Eviden's solutions enabled faster time-to-market for the company through automated and optimized cloud orchestration

Eviden is your preferred digital, cloud, data, and security partner to help you realize your digital future. Together, Microsoft and Eviden are expanding the possibilities of data and technology, now and for generations to come.
