

Be Confident In Change

Sapta delivers the leading integrated solution for CxOs looking to deliver adaptive funding across their organizations. With our cloud-based platform, companies gain the ability to integrate their innovation and capital allocation effort into a single pane to deliver real time strategy to keep pace with today's fast-moving markets.

Sapta exists to power leading companies with adaptive funding

Increase the business impact of spend by aligning closer to strategy and increasing the velocity of your innovation

SaptaAI - Generative, Prescriptive, Predictive intelligence for strategic insights (coming 2024)

For CxOs

Accelerate your ability to adapt quickly to change, by moving from annual to real-time decision-making

For Finance

A platform where you can model, test, and deploy capital more efficiently than ever before

For Innovation

Increase your business impact by aligning closer to strategy and increasing the velocity of your innovation

For Managers

Know that your goals and KPIs are always aligned against your department and corporate strategy

At the core of our solution are our **Adaptive Scorecards**. These give executives the levers to test Innovation and Capital Allocations against their strategy, unify and optimize capital efficiency, and then have those decisions accurately reflected. These are driven from our core executive dashboard and dataset, **SaptaAdapt**.

Adaptive Scorecards take corporate strategy and break it into a set of "weights" which are then fed into our **Weighting Engine**. This data array looks across your Innovation Management, Capital Allocation and Strategic Portfolio Management efforts to ensure that you are using capital, resources, and headcount as efficiently as possible to hit strategic goals. And when strategy changes, so do the "weights," which immediately presents a new set up options that executives can approve and deploy seamlessly across their organization.

SaptaInnovate

Quantify initiatives to discover winners that propel your enterprise ahead in rapidly evolving markets and eradicate operational silos so initiatives stay unified with corporate strategy.

SaptaAllocation

Gain a comprehensive and real-time view of your balanced scorecard and leverage adaptive funding for better capital efficiency by recalibrating priorities as business goals change.

SaptaCommunity

Empower community members to strengthen bonds and relationships rooted in their connection with your organization, ensuring every stakeholder's voice is heard, valued, and engaged.

SaptaAlign

Gain a comprehensive view of objectives at every organizational level, and the capability to align with corporate strategy by unifying across corporate, team and personal OKRs.
