Cloud Solutions for Startups and SMEs

We develop tailor-made cutting edge Solutions using Microsoft .NET technologies and Azure Cloud

www.net2.one

WHO WE ARE

Net2, headquartered in Montenegro, is a team of passionate, expert, and dedicated individuals.

We have a deep passion for technology, but what truly matters to us is the value we can deliver to our customers.

Our primary goal is to develop meaningful and useful features that can make a real impact.

We strongly believe that startups and small to medium-sized enterprises (SMEs) should have easier access to the latest enterprise technologies.

WHAT WE DO

For more than 20 years, we have been delivering affordable and scalable backend solutions for European SMEs and Startups: CMS, ERPs, MDM/PIM/DAM, Image processing, AI, car configurators, Event management, custom integrations...

We can design and implement new solutions for greenfield projects, as well as putting existing applications back on track.

Our tools

Microsoft .NET

.NET 6-7+, ASP.NET MVC, Web.API, Blazor

Cloud

Microsoft Azure, Amazon AWS, MongoDB Atlas

Databases

SQL Server, MongoDB, Elastic Search and Redis

DevOPS

Azure DevOPS, PowerShell, Docker

WHY WORKING WITH NET2?

Net2 is the ideal partner for Startups and small businesses.
