

Cloud Microsoft 365 Tenant Review & Health Check

JOURNEYTEAM

WHY:

It's important that all Microsoft 365 customers get a JourneyTEAM tenant health check to ensure your business is properly organized and secured. Rest easy knowing your tenant setup aligns with your business needs and security requirements.

WHAT:

We ensure your tenant is in line with both Microsoft best practices and the years of experience that our combined engineers bring to the table. We strive for the most successful adoption and implementation of your Microsoft 365 services.

HOW:

JourneyTEAM's experts identify the gaps in your configuration and produce a Microsoft 365 Tenant Baseline Configuration document.

Common Configuration Items:

LICENSING REVIEW:

- *Ensuring you are using the best license bundle for what you need in your business*

ENTRA ID SETTINGS REVIEW & UPDATE:

- *MFA enrollment and SSPR registration*
- *App integration for user or admin consent*
- *Device integration*

Microsoft 365 SERVICE SETTINGS:

- *SharePoint with default sharing and security*
- *OneDrive*
- *Teams with guest access, app integrations, federation posture etc.*
- *Power Automate (Flow) and Power Apps*
- *Exchange online service including retention, archive policies, email filtering, anti-phishing setup and auto forwarding*

Cost: \$12,000
