

Service Overview | 6. D365 Guides GxP Framework

Service Description

- Transform Job Instructions, Standard Operating Procedures and training into digital Guides with Microsoft D365 Guides and HoloLens.
- Step-by-step instructions, images, videos, and holograms provide visual aid and supports users to complete tasks with a documented better output than regular 1:1 training and e-learning.
- NNIT's D365 Guides GxP framework is a compliant and scalable solution that allows you to maintain flow and control of the entire content lifecycle while enabling integrations with already-established QMS and LMS processes.

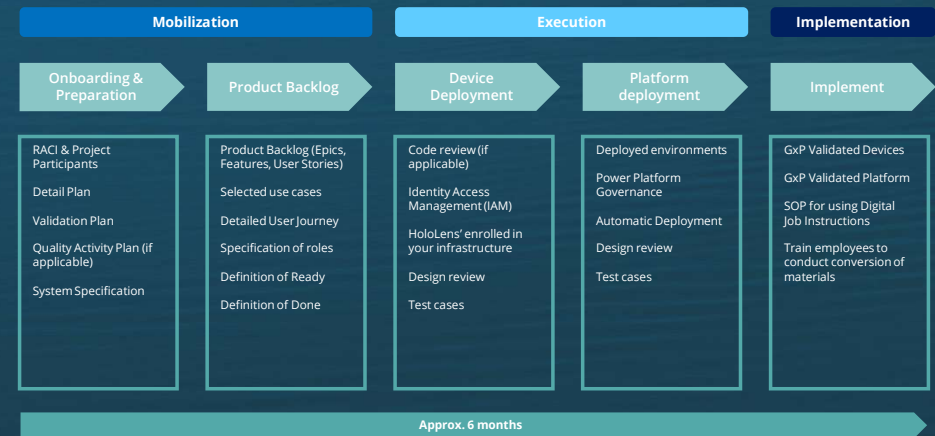

Value Realization

- Reduce errors and improve safety
- Standardize skills and reinforce compliance
- Increase retention and confidence
- Improve training and ongoing processes

Price Estimation

- From 500.000DKK
