

Microsoft Cloud Hackathons with OneVenue and Cloud Sandbox

Unlock your organization's potential

Hackathons

- Test your teams' skills using live Microsoft Cloud subscriptions with guided or completely unguided hacks.
- Pre-prepared cloud environments make it simple to work in multiple duplicate environments without impacting the other teams

Hackathon Experience

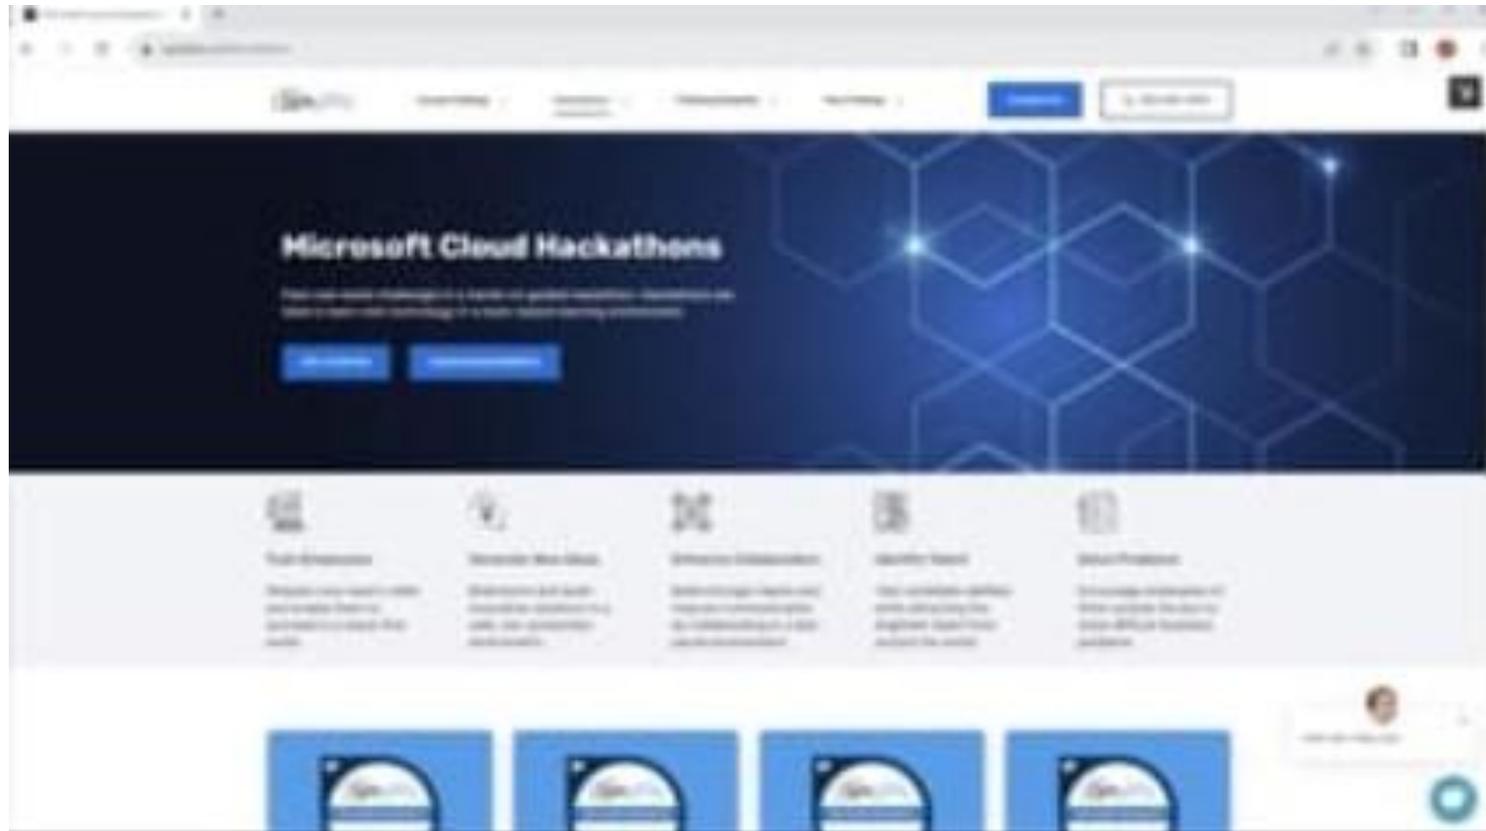

Attendees collaborate leveraging Microsoft Teams meetings and channels

All attendees

Only attendees in the same team

DEMO Hackathon Experience

Hackathon Experience

Choose from our library of guided cloud hackathons or run a completely unguided hackathon on your own

OPSGILITY AZURE HACKATHON GUIDE

Challenge 1
Get Organized!
Plan Your Hackathon

Opsgility Hackathon

Overview

In this challenge, you and your team will focus on the planning aspect of what you will build during your hackathon.

Areas to consider

Note: Due to time constraints your team may not be able to cover all aspects. Focus on the priorities set by your stakeholders.

- Who is the team lead?
 - Note: Depending on circumstances this role may move to another hacker during the hackathon.
- What are the business goals?

Close

Azure / 365 subscription logins are available on the lab environment tab.
