

EDIZONE

FLEXIBLE INTEGRATION OF BUSINESS PARTNERS
FOR DIGITALIZED OVERARCHING BUSINESS PROCESSES

BLUEZONE

A woman in profile, looking down at a tablet device she is holding. The image is overlaid with a blue and green gradient. The word 'BLUEZONE' is written in white, bold, sans-serif capital letters in the upper right corner of the image.

EDI-ZONE IN THE AUTOMOTIVE INDUSTRY

BLUEZONE

In the automotive industry, Electronic Data Interchange (EDI) is the standard for automated digital document exchange and the prerequisite for participation in supplier networks.

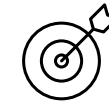

Primary challenges

- Specific requirements and standards for data exchange
- Need for precise synchronization of orders and deliveries
- Accelerated business processes

Ideal solution

- EDI solution optimized for industry-specific requirements in accordance with valid standards
- Seamless integration into industry-relevant ERP processes, e.g. full automation of scheduling agreement releases

Advantages for customers

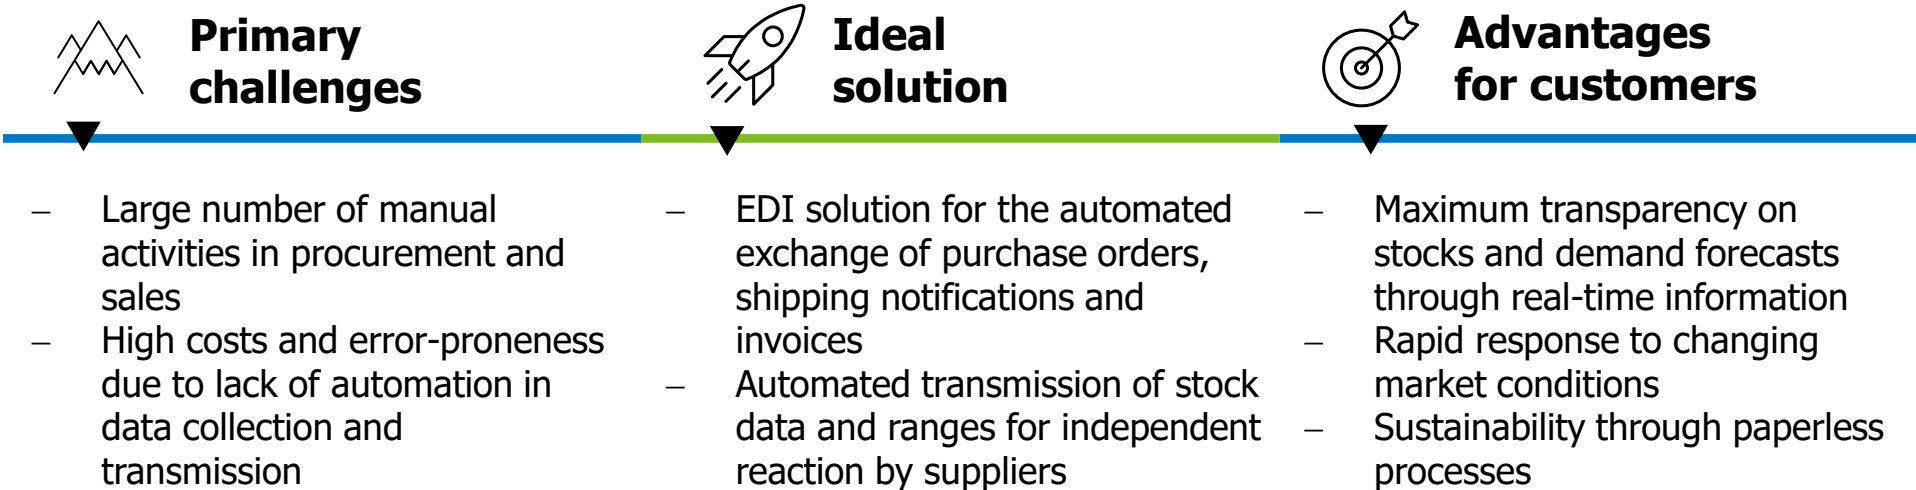

- Efficient supply chain management through smooth information flow in the supply chain
- Optimization of stock levels with fast response capability and efficient management of bottlenecks

EDI-ZONE IN THE CONSUMER GOODS INDUSTRY

A large number of business partners and high data volumes require efficient electronic data exchange as a prerequisite for fast response times and competitiveness in the consumer goods industry.

ONE CENTRAL EDI PLATFORM FOR ALL EDI PARTNERS

-  Flexible integration of business partners
-  Automated, electronic data exchange of previously paper-based transactions such as orders, order confirmations, delivery notes and invoices
-  Digitalized cross-company processes through standardized communication protocols and data formats (e.g. OFTP2, AS2, X.400, ...)
-  Seamless integration of EDI processes in SAP solutions and the departments involved

EDI-ZONE

AUTOMATED - EFFICIENT - TRANSPARENT:

EDI is the royal road to digitalization. In our EDI-ZONE cloud solution, technological competence is combined with industry and process expertise and cross-company process optimization is at the forefront.

Seamless integration into your ERP system

- Tight process integration and perfectly coordinated message conversions
- High transparency and usability by linking EDI messages with the ERP document in the document flow

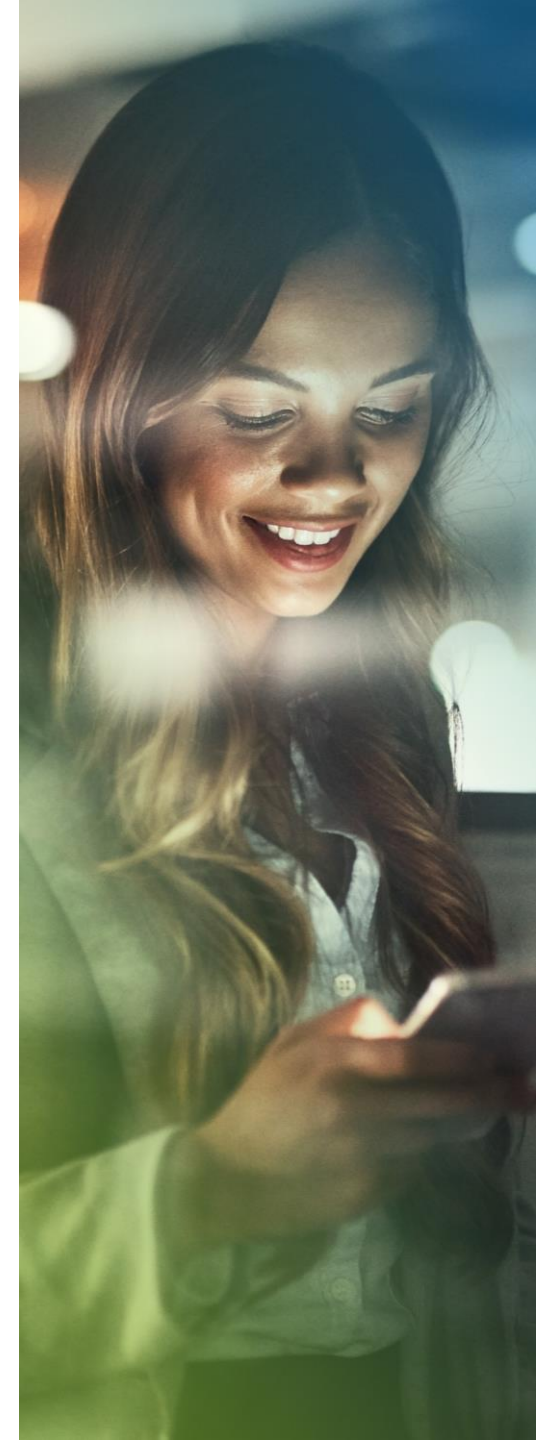

Fast implementation

- Ready-made scenarios and plug & play EDI processes
- Extensive mapping library with consumable out-of-the-box mappings

Investment security

- Solution on the most modern technological standard
- Flexible use with on-premise or cloud ERP solutions as well as other solutions

ALL FOR ONE AS CHANNEL PARTNER

SUCCESSFUL WITH BLUE-ZONE EDI-ZONE

As an SAP reseller for ERP and LoB solutions, All for One has specialized in particular in German-speaking SMEs and the international environment. Its focus is on various manufacturing industries such as automotive and consumer goods. The customers' enthusiasm is based on the packaged, industry-specific solutions, which also build on many years of EDI expertise. The implementation and support of the customers is carried out on the innovative blue-zone EDI cloud solution.

National and international e-invoicing

Country-specific microservices on blue-zone EDI-ZONE combined with local consulting expertise also in the context of finance

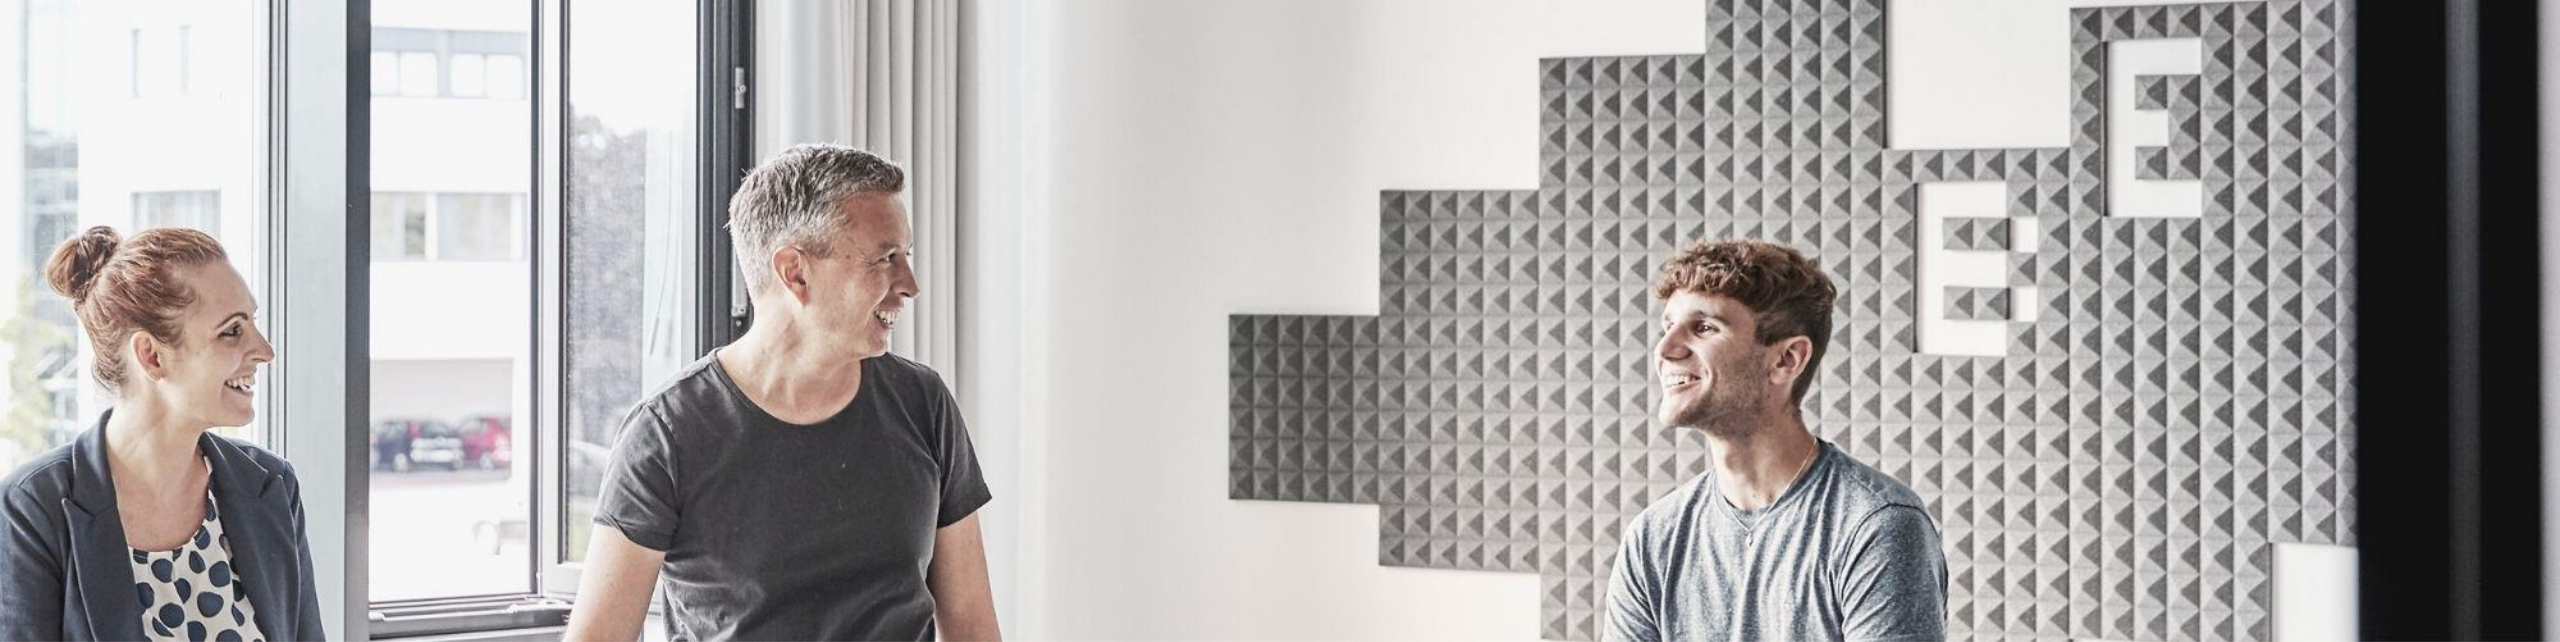

Extensive consulting services

Combination of industry, process and integration expertise for a holistic view and optimisation of business processes

Out-sourcing offers

Offerings ranging from application service to full-service EDI including the assumption of EDI partner communication and coordination
