

SIMPLIFY THE NEW ERA OF HYBRID WORK

WITH eGROUP ENABLING TECHNOLOGIES AND A HYBRID MEETINGS & ROOMS WORKSHOP

EXTREME FLEXIBILITY AND HYBRID WORK DEFINE THE POST-PANDEMIC WORKPLACE

HYBRID MEETINGS DRIVES NEW WAYS TO COORDINATE AND COLLABORATE BUILDING A MODERN WORKPLACE THAT IS AS FLEXIBLE AND ADAPTIVE AS POSSIBLE- ONE THAT PRODUCES BOTH HAPPIER PEOPLE AND BETTER PROJECTS.

Work continues to evolve, and business leaders are looking for a new operating model, defined by flexibility. To succeed, organizations need to focus on three things: putting the right policies in place, reconfiguring physical spaces, and using technology to put it all together.

Engage the eGroup Enabling Technologies team with a Hybrid Meetings and Rooms Workshop to create inclusive meeting and collaboration experiences using Teams meetings, Microsoft Teams Rooms, and devices.

ASSESS

Gather information on current environment, spaces, and meeting practices

ART OF THE POSSIBLE
