

LTIMindtree Dynamics 365 Machinery Inspection Module

Consulting solution to digitalize machinery inspections across multiple industries

LTIMindtree is a global technology consulting and digital solutions company helping more than 420 clients succeed in a converging world. With operations in 32 countries, the company goes the extra mile for its clients and accelerates their digital transformation with LTIMindtree's platform enabling their mobile, social, analytics, IoT and cloud journeys.

WHAT WE OFFER

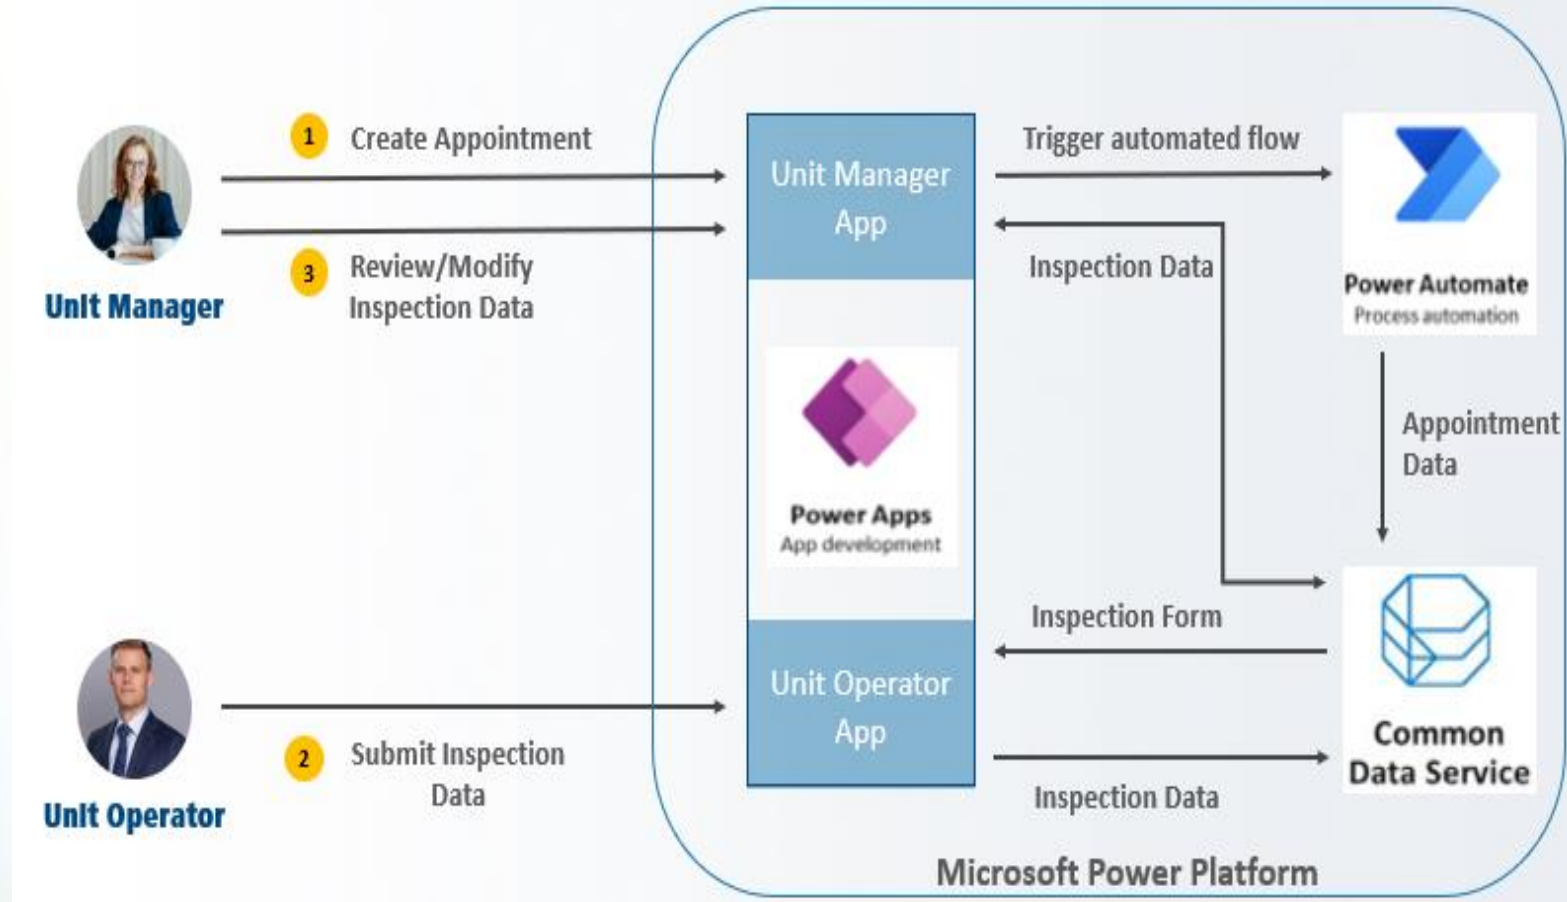

LTIMindtree Dynamics 365 Machinery Inspection Module is aimed at digitalizing machinery inspections across multiple industries (including manufacturing, energy, healthcare etc.). Microsoft Power Platform has been leveraged to build a model-driven app as the solution. Key benefits of the solution include

- Easily configurable inspection forms
- Automated inspection form creation from appointments
- Availability of inspection data for review
- Improved data accuracy
- Prevent asset failures
- Dashboards with holistic view of inspections
- Meet ESG goals by reducing paper usage

Features

- Separate apps for Managers and Operators
- Supports mobile offline capability
- Maintains unit hierarchy
- Appointment entity for scheduling inspections
- Form entity to capture inspection data

Solution Architecture

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
