

eDiscovery Workshop:

A half-day Workshop that provides an overview and deep understanding of Microsoft 365 eDiscovery Standard and Premium products. This Workshop provides an opportunity for the Customer to bring their IT, Legal, Compliance, Public Disclosure, and other relevant teams together for education and training.

Blending practical knowledge and application of Microsoft productivity and technical tools, participation in meaningful conversations and hands-on exercises (where feasible), assists the Customer in mitigating risk and liability through the development of processes, procedures, and the use of technology.

This knowledge assists the Customer in being responsive to litigation-based information requests/demands, freedom of information-like requests, as well as helping establish expectation management when demanding information from litigants who make use of the Microsoft ecosystem. The more Customer's specialists know about how to generate information in their own environment, the more they can challenge, as necessary, the results of other litigants' responses to customers' information demands.

The Planet Advantage

- ✓ Enterprise-Wide Microsoft 365 Experts Across the Entire Microsoft Stack
