- M365 Purview Workshop
- What We Provide?
- Why Should You Attend?
- Expected Outcomes

EXPERTS AT WHAT WE DO

Cloud and data center security engineering teams with over **225** years of combined experience

400+ Engineers & technicians
1000+ Certifications

ZONES

2600-plus employees across the globe and a network of **hundreds** of partners

330+ sales executives ready to guide customers to the right IT solution

- **Next-generation digital tools** for IT management
- Unparalleled global supply chain
- Services-led IT solutions

WHY ZONES

Valued Partnerships:
Collaborations with
over 10K partners
and vendors.

Global Reach:
Spanning over 80
countries, ensuring
global solutions.

Expertise: Over 30
years as an industry
leader in IT solutions.
Over 10 years in
cloud solutions

Diversity: Recognized
Minority Business
Enterprise with a
strong Supplier
Diversity Program.

Client-Centric: Real-
time reporting, order
status, and inventory
management
through myZones.

Comprehensive Offerings: From
Global Supply Chain
as a Service to
Managed Services,
addressing all cloud
needs.

CURRENT THREAT LANDSCAPE

Web Attacks

56%

RANSOMWARE

Regulations - 57% countries have implemented data protection laws. 78% of organizations expect increase in regulatory requirements in coming years

\$56 billion global market for managed security service providers by 2024

WFH threats - 85% of surveyed have half of their workforce working remotely. Only **15%** of executives have confidence in their leadership. **36%** of those surveyed believe that cybersecurity threats have risen since WFH Source- Infotech Research Group

1.9 Billions users would be on 5G By 2025 with **41.6 Billion** device connected to the internet by 2025

600,000 unfilled cybersecurity positions globally in 2023 – Cyber Seek

Cloud Adoption 79% of companies have experienced at least one cloud data breach. Hybrid space data breached have cost them **\$3.61 M** on an average

OBJECTIVE OF WORKSHOP

In our comprehensive Microsoft Purview workshop, participants will receive an in-depth exploration of how to harness the full potential of Microsoft Purview for effective data governance and compliance within their organization.

01

Assess the needs of your business

Purview workshop is highly relevant, engaging, and effective in empowering administrators and employees to utilize Microsoft Purview for robust data governance and compliance.

02

Interactive Sessions

Engage in interactive discussions tailored to address unique challenges and experiences, providing valuable insights into employee needs and can be used to adjust the focus of the workshop in real time

03

Develop a solution plan for Implementation and Adoption

We go beyond the workshop, emphasizing the practical application of knowledge to ensure successful implementation and adoption of Microsoft Purview within your organization.

M365 PURVIEW WORKSHOP

Microsoft Purview is a unified data governance service that helps organizations manage and govern their data across on-premises, multi-cloud, and SaaS applications, ensuring compliance and data security:

Data Discovery and Classification

Automate the process of discovering, classifying, and labeling data across an organization's diverse data landscape

Data Protection and Security

Enforce data protection policies, controlling access, and preventing data loss across cloud services, on-premises environments, and devices.

Compliance and Risk Management

Compliance with legal and regulatory standards by implementing comprehensive risk assessment tools, compliance management features, and detailed insights into data handling practices.

WHAT WE PROVIDE?

Our approach is a sequential 4-6 weeks engagement. In our 4-6 weeks Microsoft Purview workshop, we provide expert-led training and hands-on experience, equipping participants with the knowledge and skills to implement and manage Microsoft Purview.

Who can attend?

Customers: Executive sponsor, Line of Business Leaders, Security and Compliance Leaders, IT Management

Zones Participants: Architects, User Experience Leads

What to expect?

In-depth Knowledge Transfer

Expert-led sessions covering the full spectrum of Microsoft Purview capabilities, from data discovery and classification to compliance management, ensuring participants understand how to leverage Purview to its full potential.

Practical Application

Hands-on exercises and real-world scenarios that allow participants to apply what they've learned, facilitating the practical implementation of Microsoft Purview within their own organizations for effective data governance.

Customized Support and Strategy Development

Personalized assistance in developing a tailored strategy for the implementation and adoption of Microsoft Purview, including post-workshop support to address any challenges and ensure long-term success.

WHY SHOULD YOU ATTEND?

Attend our Microsoft Purview workshop to empower your organization with the knowledge and skills necessary to implement a comprehensive data governance framework, ensuring data security, compliance, and optimized data management across your entire digital estate:

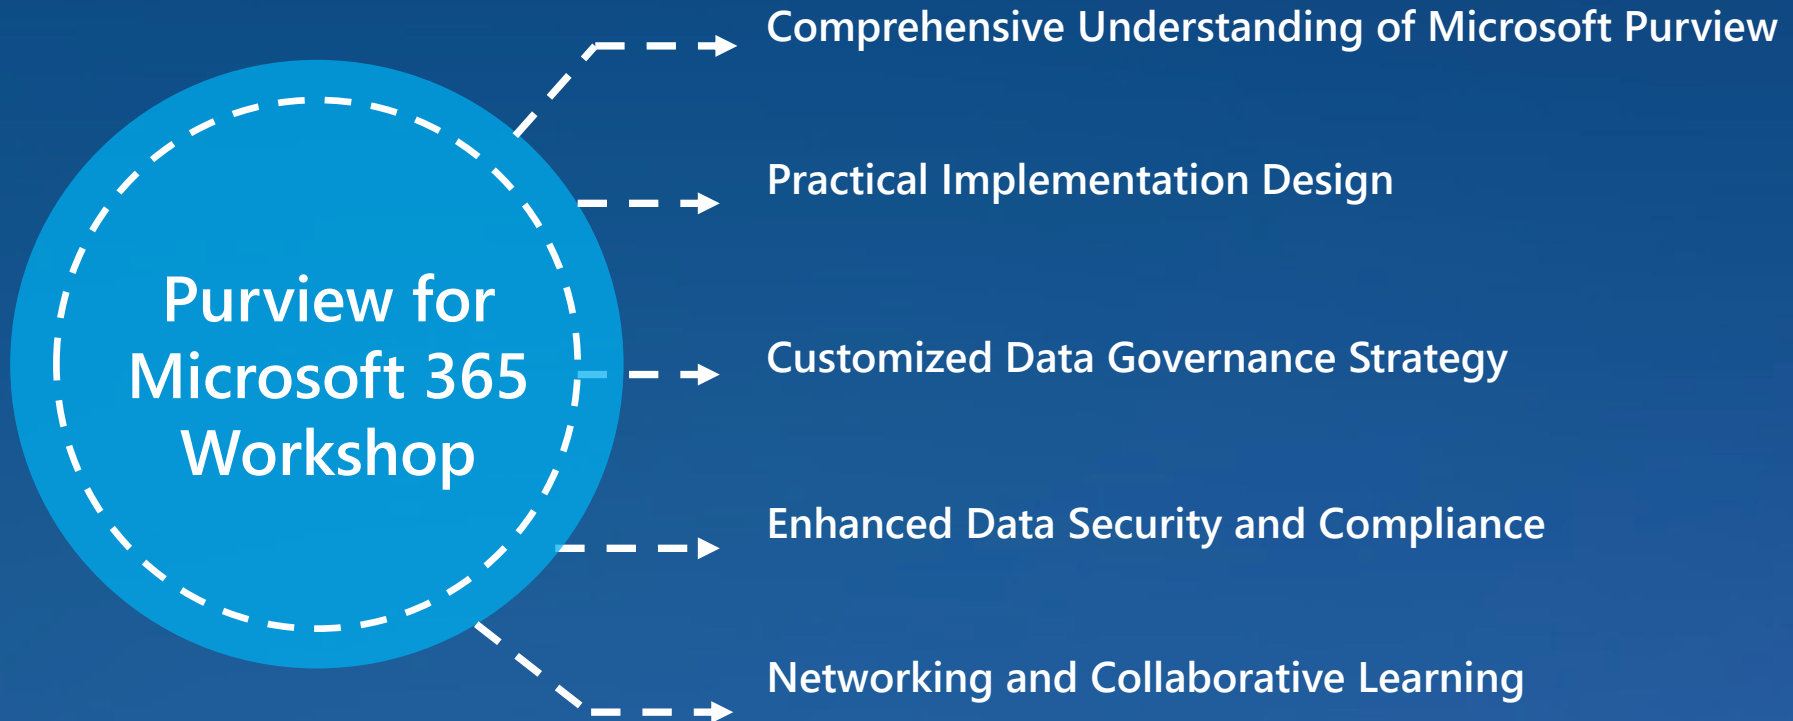

Gain Expert Insights: Learn from seasoned professionals with deep expertise in Microsoft Purview.

Leave with a clear plan for implementing Purview solutions, ensuring a structured and efficient adoption process.

Formulating an implementation plan based on prioritized scenarios and recommendations.

Automate the process and achieve peace of mind that your data is secured.

EXPECTED OUTCOMES

Purview for
Microsoft 365
Workshop

Comprehensive Understanding of Microsoft Purview

Practical Implementation Design

Customized Data Governance Strategy

Enhanced Data Security and Compliance

Networking and Collaborative Learning
