

BRAINSHARK

Bigtincan Readiness

Prepare, upskill, and train your customer-facing teams to deliver a first-class buying experience.

Is your team really buyer ready?

The reality for most organizations is that reps take far too long to onboard, taking almost half as long as their average tenure to even achieve full productivity. At the same time, disjointed training and coaching can't be scaled, much less tied to ROI.

Sellers that aren't confident or on message cause poor buying experiences that your customers feel.

Training

Deliver formal courses for onboarding, compliance, and mandatory training, while providing just-in-time access to informal microlearning materials anytime, anywhere.

Easy Authoring

Quickly combine assets you already have into dynamic pieces of training in a tool designed for any subject matter expert to use. Easily update even a single slide in your course to get the latest information to your teams.

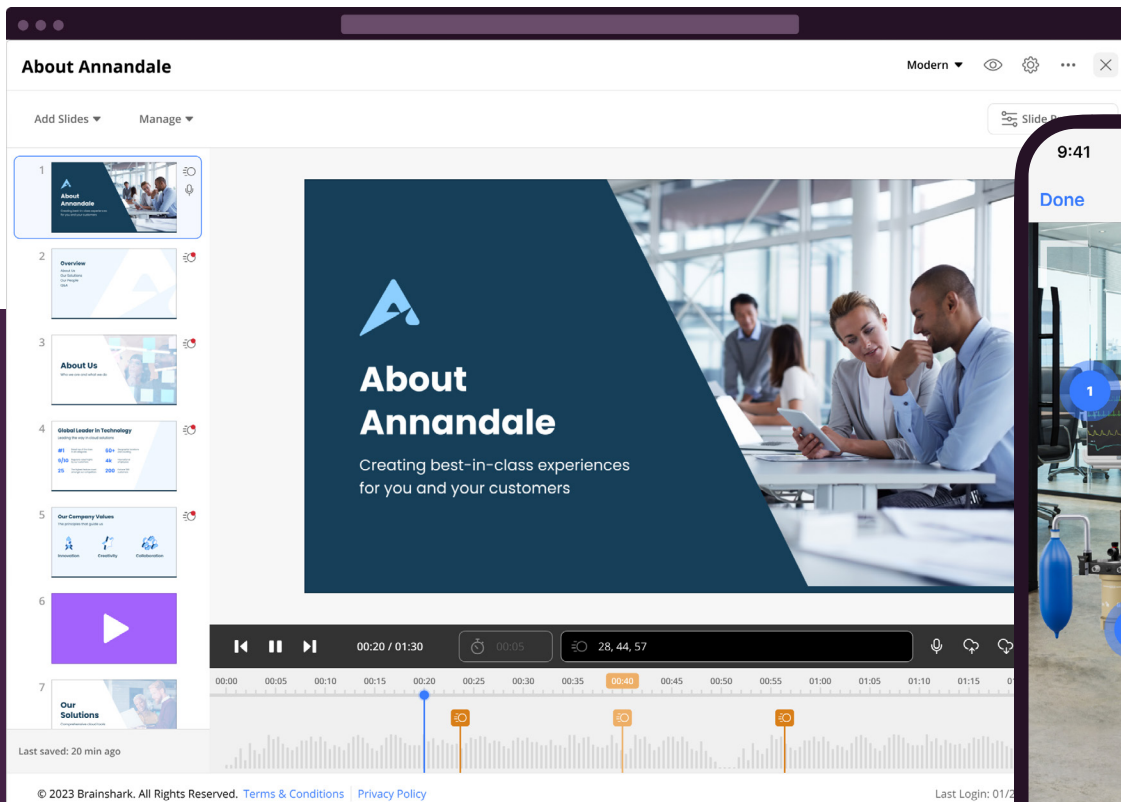

Robust Courses and Curriculums

Create formal curriculums by building courses, importing from LinkedIn Learning or SCORM, and chaining them together with coaching assignments. Quiz reps to make sure they are internalizing information with multiple question formats, polls, and surveys.

Make Training Interactive

Create interactive clickable training playbooks and minimize risk by training on lifelike 3D augmented reality models. VR training has been shown to lead to 4x faster completion rates and 40% more confidence.⁵

⁵ PwC

Coaching

Certify reps' ability to deliver key messages and apply training with video-based coaching and practice. See reps improve with AI and manager feedback.

Set Custom Criteria

Easily create and assign coaching courses, with the ability to highlight examples of what great looks like and create unique rubrics per activity to guide reps to success and help coaches remain consistent in grading.

CoachingAI Feedback

Give reps objective feedback on not just what they say but how they say it through AI analysis including topic coverage, a vocal delivery score composed of eight individual metrics, and unique tone-of-voice analysis that shows how sellers are likely to be perceived.

Scale Manager Time

Practice Mode gives reps a safe place to practice and refine with AI feedback before submitting to their manager for formal review. Managers can also use AI scoring at a glance to identify reps who need more help and prioritize their time accordingly.

The screenshot shows a coaching dashboard for a video titled "How I Use the Tool - Katie Shah". The interface includes a navigation sidebar on the left, a top navigation bar with "Dashboard", and a main content area. The main content area is divided into several sections:

- Submission 1**: A dropdown menu for "Submission 1", a "Next participant" dropdown, and an "Edit review" button.
- Feedback Tabs**: "Reviewer feedback", "Automated feedback", and "Advanced feedback" (selected).
- Vocal Delivery Score**: A large display showing a score of **7.7 / 10**.
- Overview**: A tab labeled "Vibes" is selected, showing a radar chart with eight metrics: Assertive, Authentic, Captivating, Clear, Confident, Energetic, Organized, and Personable. The chart shows high scores for Assertive, Captivating, and Confident.
- Positive Vibes**: A text box stating "The 3 vibes you scored the most on are: Assertive, Captivating, and Confident".
- Negative Vibes**: A section for negative feedback, currently showing "Arrogant".
- Transcript**: A section with a search bar and a "Show Edits" toggle. The transcript text reads: "My objective today is to show you how i use the content hub in my day to day activities for this demo i'm gonna work off of my desktop but keep in mind you can also access this information on any mobile device and the experience that you're going to have is similar to the stomach before i talk about how i use it i just want to provide you with a high level overview of how the content how to set up you'll notice that when i log into my hub this is what i see our marketing and sales team has set this up so that when i enter the content hub i can easily access daily news and sales playbooks daily news will show me any relevant content that was recently released such as a message from our ceo h. r. updates or some newly released marketing collateral think of all the new relevant information that is key to my role sales playbook provide me guidance on best practices for certain sales place hi to use cases and trigger point we also have other tabs including".

Analytics

Understand readiness at the individual, team, and company level with visual out-of-the-box and custom dashboards.

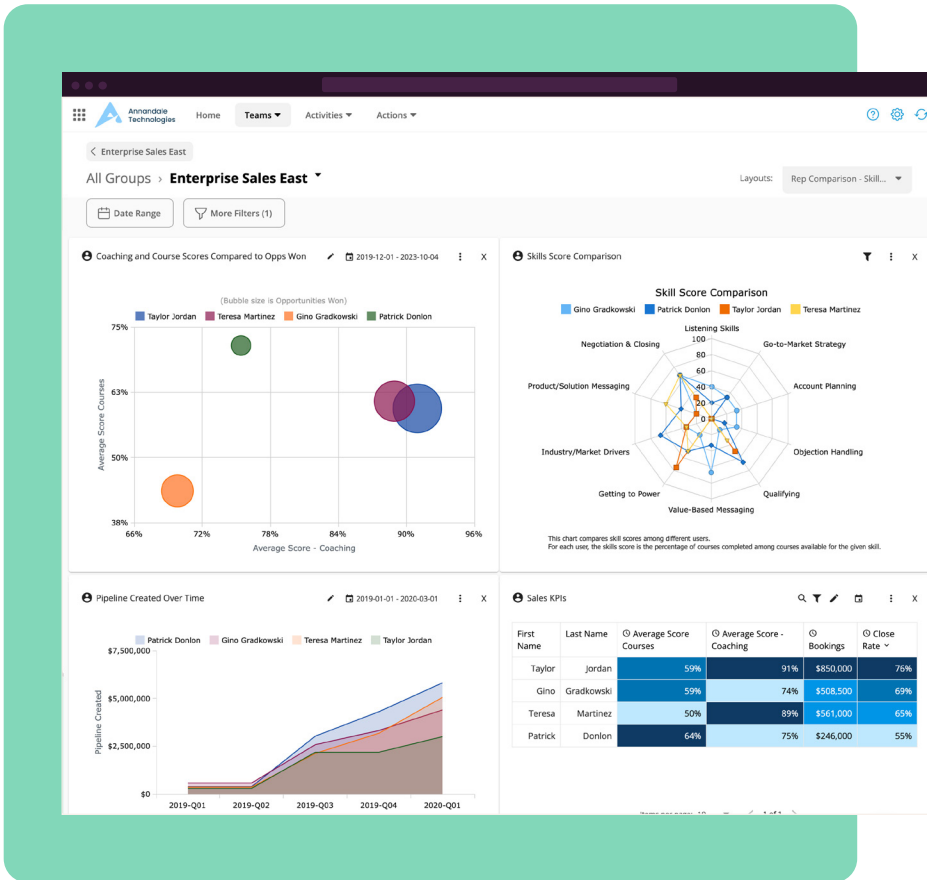

Scorecards Tied to Sales KPIs

Quickly and powerfully visualize readiness progress for individuals and teams, and even tie data to sales KPIs from your CRM. Diagnose problems and skill gaps faster to address them head-on—before they impact performance.

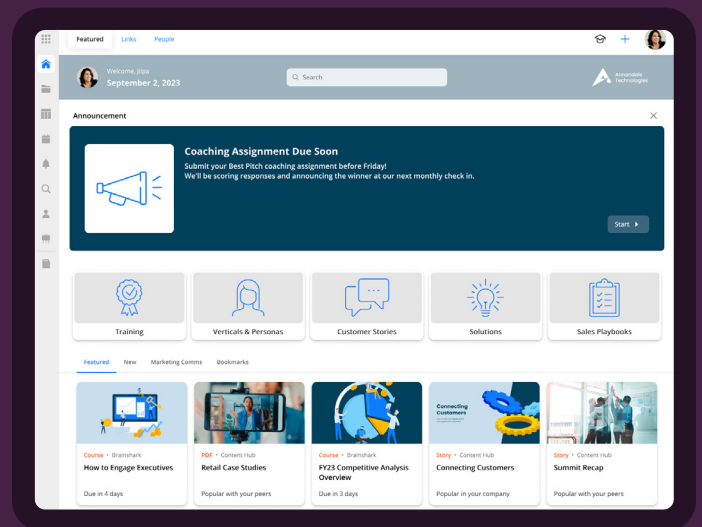

Skill & Competency Tracking

Define specific skills and competencies necessary for reps' success, associate readiness exercises to them, and track seller and team progress against those metrics. Manage their learning journeys or allow them to self enroll in skill courses to improve.

Brand Your User Experience and Feature Training with Our Full-Fledged Enablement Platform

Enable your teams with one platform that does it all to unlock greater efficiency and adoption, as well as provable ROI for your sales training, content, and engagement. Bigtincan's content solution paired with Brainshark allows you to deliver sales content alongside learning and coaching in a tailored, branded experience—and share that content with prospects in engaging buying experiences you can track.
