

# MODERN WORKPLACE ACTIVE DIRECTORY

Implementation, migration and support

## Active Directory Offer

### On-premise

Active Directory is a centralized on-premise database that stores and manages the identities and access privileges of users, groups, and computers in a networked environment

#### Key Features:

- Single Sign-On (SSO)
- User and Group Management
- Authentication and Authorization
- Integration with other Microsoft services
- Security and Compliance
- Reporting and Auditing
- Scalability and Flexibility

### Hybrid

AD and AAD can be integrated into a hybrid environment combining the advantages of both on-premise and Cloud solutions AAD Connect can be configured to synchronize on-premise accounts to Cloud and allow users to access Cloud resources

#### Key Features:

- User and group management
- Multi-factor authentication
- Single Sign-On (SSO)
- Application and resource access control
- Integration with other Microsoft services

### Cloud

Azure Active Directory is a cloud-based identity and access management solution that helps organizations manage and secure access to resources in various environments, such as on-premise, cloud, and hybrid

#### Key Features:

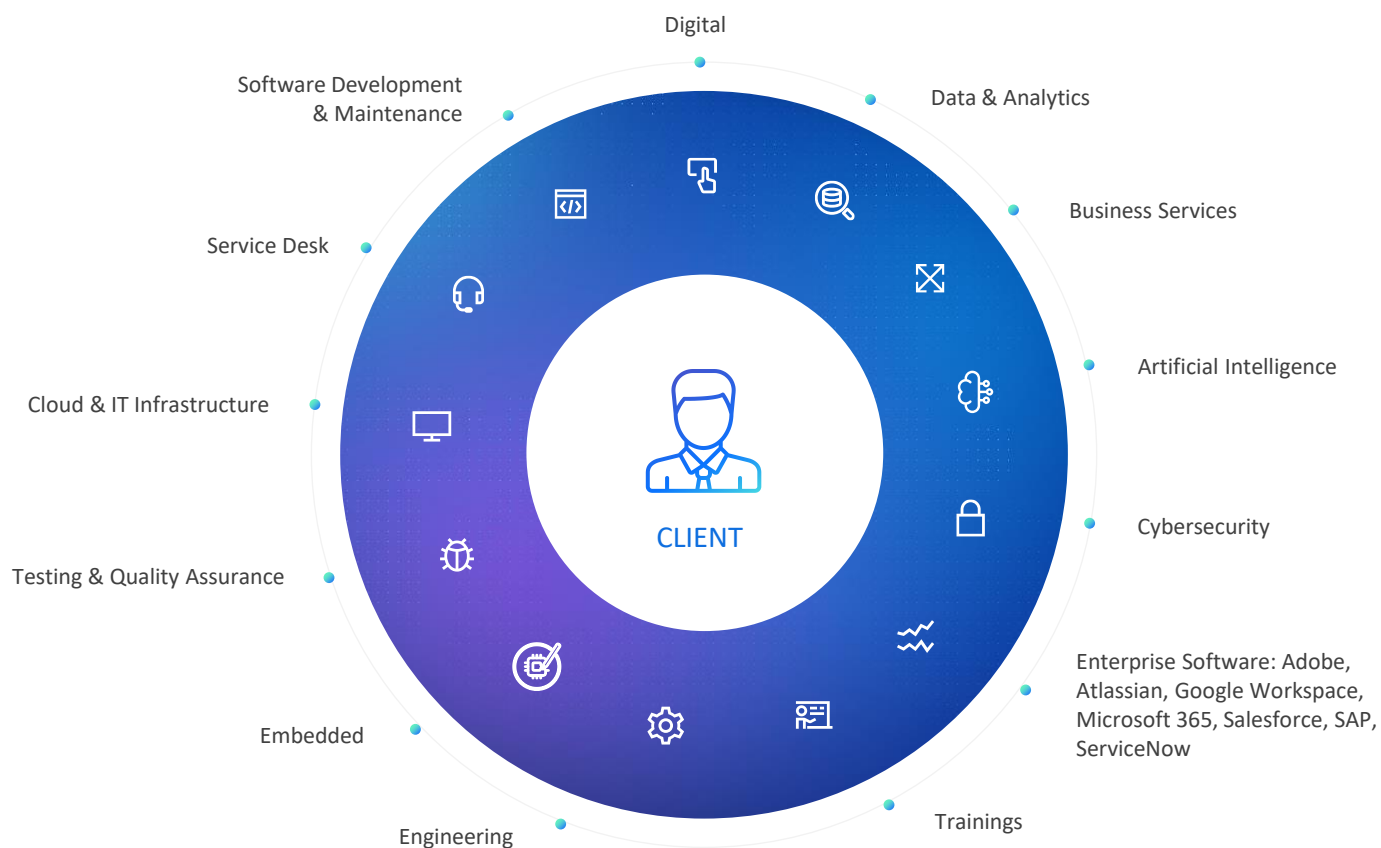

- User and Group Management
- Authentication and Authorization
- Group Policy Objects
- Single Sign-On (SSO)
- Scalability

## Why our clients decide to Active Directory Implementation, business benefits:

- Reduce IT operation effort by enabling single sign-on and self-service password reset
- Reduce IT operation effort by automating recurring tasks
- Improve security and minimize effort with a standardized configuration
- Reduce security risks by configuring Multifactor Authentication and Conditional Access Policies
- Reduce security risks by vulnerability remediation on Domain Controllers
- Improve quality with global support

# Offer – One-stop shop

## Tangible Benefits / Desired Outcomes

- ✓ You take care of your business development - we take care of the cloud
- ✓ Our architects will support you in the latest technologies
- ✓ We are ready to maintain your infrastructure with dedicated support team

## Why Sii

### 600 certified experts

Solution Architects, Network Engineers, Security Engineers, DevOps Architects, Data Engineers, Azure Administrators, Azure Developer, Cybersecurity Architects, D365 Consultants, Power BI Analysts

### Leading cloud services

Microsoft Azure, Microsoft 365, Dynamics 365, Power Platform

### Innovative industry solutions

For manufacturing banking, healthcare, real estate and public sectors

### End-to-end Project Support

Mrom preliminary data analysis, target model creation, implementation on dedicated devices to maintenance
