

SoftwareOne Copilot Advisory: Envision

Unlock workplace productivity with Copilot for Microsoft 365

In today's fast-paced digital world, employees often find themselves overwhelmed by a constant stream of communication and an array of time-consuming tasks. This digital overload is not just a minor inconvenience; it's a significant barrier to innovation and productivity. Did you know that:

- 68% of employee time is spent on communication.
- 57% struggle with time spent searching for information.
- A 3x increase in virtual meetings and calls was registered since February 2020.

This incessant demand for attention and information is diluting the focus required for innovative thinking and meaningful work, leading to a productivity paradox.

Workplace AI innovation thrives when employees can focus on what truly matters. Workplace AI solutions are pivotal in building a foundation for enhanced productivity. At the forefront of this transformative journey is Copilot for Microsoft 365, a solution designed to empower employees to shift their focus to work smarter.

Bridging your business today with tomorrow's technology

The first steps in embarking on the journey with Copilot for M365 begin with understanding its potential impact on employee productivity. **SoftwareOne Copilot Advisory: Envision** brings the future of work to your present. We don't just envision the transformative potential of Microsoft Copilot; we bring it to life, allowing you to see, feel, and understand its impact. Join us to experience how Copilot for M365 can redefine productivity and creativity in your organisation, making the future of work an immediate reality:

Hands-on demos

See Copilot for M365 in action through live demonstrations tailored to your business context. Experience firsthand how Copilot integrates with Microsoft 365 business applications, bringing a new level of efficiency and innovation.

Scenario-based exploration

Our demos cover a range of scenarios across key business functions like sales, HR, finance, and marketing. This allows you to witness the impact of Copilot for M365 in operational contexts, offering a clear vision of its potential in your specific environment.

Experience the power of Microsoft Copilot firsthand

Engage with us in discussing and exploring how Copilot for M365 can address your unique challenges and objectives.

SoftwareOne Copilot Advisory: Envision ensures that you not only see what Copilot for M365 can do, but also understand how it can be applied to enhance creativity and productivity in your organisation. Our interactive envision workshop focuses on introducing the product and demonstrating its value through the “Copilot Productivity Loop,” concentrating on four key areas:

1. **Catch-up:** Efficiently managing emails and summarising action items.
2. **Enterprise search:** Streamlining the search for information.
3. **Content creation:** Facilitating the creation of engaging and informative content.
4. **Analyse:** Simplifying data analysis for better decision-making.

Here's how our envision workshop unfolds:

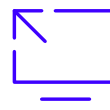

Kickoff and assess

We assist you in getting acquainted with Copilot for M365, helping you see its potential and identifying specific use cases for your organisation.

Art of the possible

We demonstrate how Copilot for M365 adds intelligence to employee experiences; we help unleash creativity, unlock productivity, and level up skills.

Build the plan

We work with you to develop a simple readiness plan based on high-value scenarios ensuring you are fully prepared for the next steps, understand the needs for your licence, technical, and organisational readiness.

At the conclusion of this engagement, you will depart with a clear and actionable plan for your Copilot for M365 journey. This encompasses a thorough review and strategic planning, focusing on evaluating various scenarios and identifying the most relevant use cases for your

organisation. You'll achieve a first understanding of your specific business needs, key to preparing for workplace AI readiness. Additionally, you'll receive a simple readiness plan, laying out clear and concise recommendations for your next steps towards deploying Copilot for M365.

Join us in making your Copilot for M365 journey a success. With our expertise and strong partnership with Microsoft, we ensure your organisation is not just adapting but thriving in the new era of work.
