# Compare: Find the right Azure products for your requirements

The image shows two overlapping screenshots of the cloud Insider web application. The background screenshot displays the 'Explore Certifications' page, which lists various regulatory frameworks such as FERPA, FISMA, IRAP, and CJIS. A filter for 'GOVERNMENT\_AN...' is visible on the left. The foreground screenshot shows the 'Microsoft Azure' product page, which provides a summary of 167 products, 92,062 product instances, and 54 data centers. Below this, a 'Products' section lists items like 'Azure AI and Machine Learning', 'Azure Data Science Virtual Machines', 'Azure Personalizer', 'Azure Computer Vision', and 'Azure QnA Maker'.

## Features

# Projects: Azure Cloud Solution Design and Comparison

Quick draft cloud solutions and compare different Azure technology stacks.
