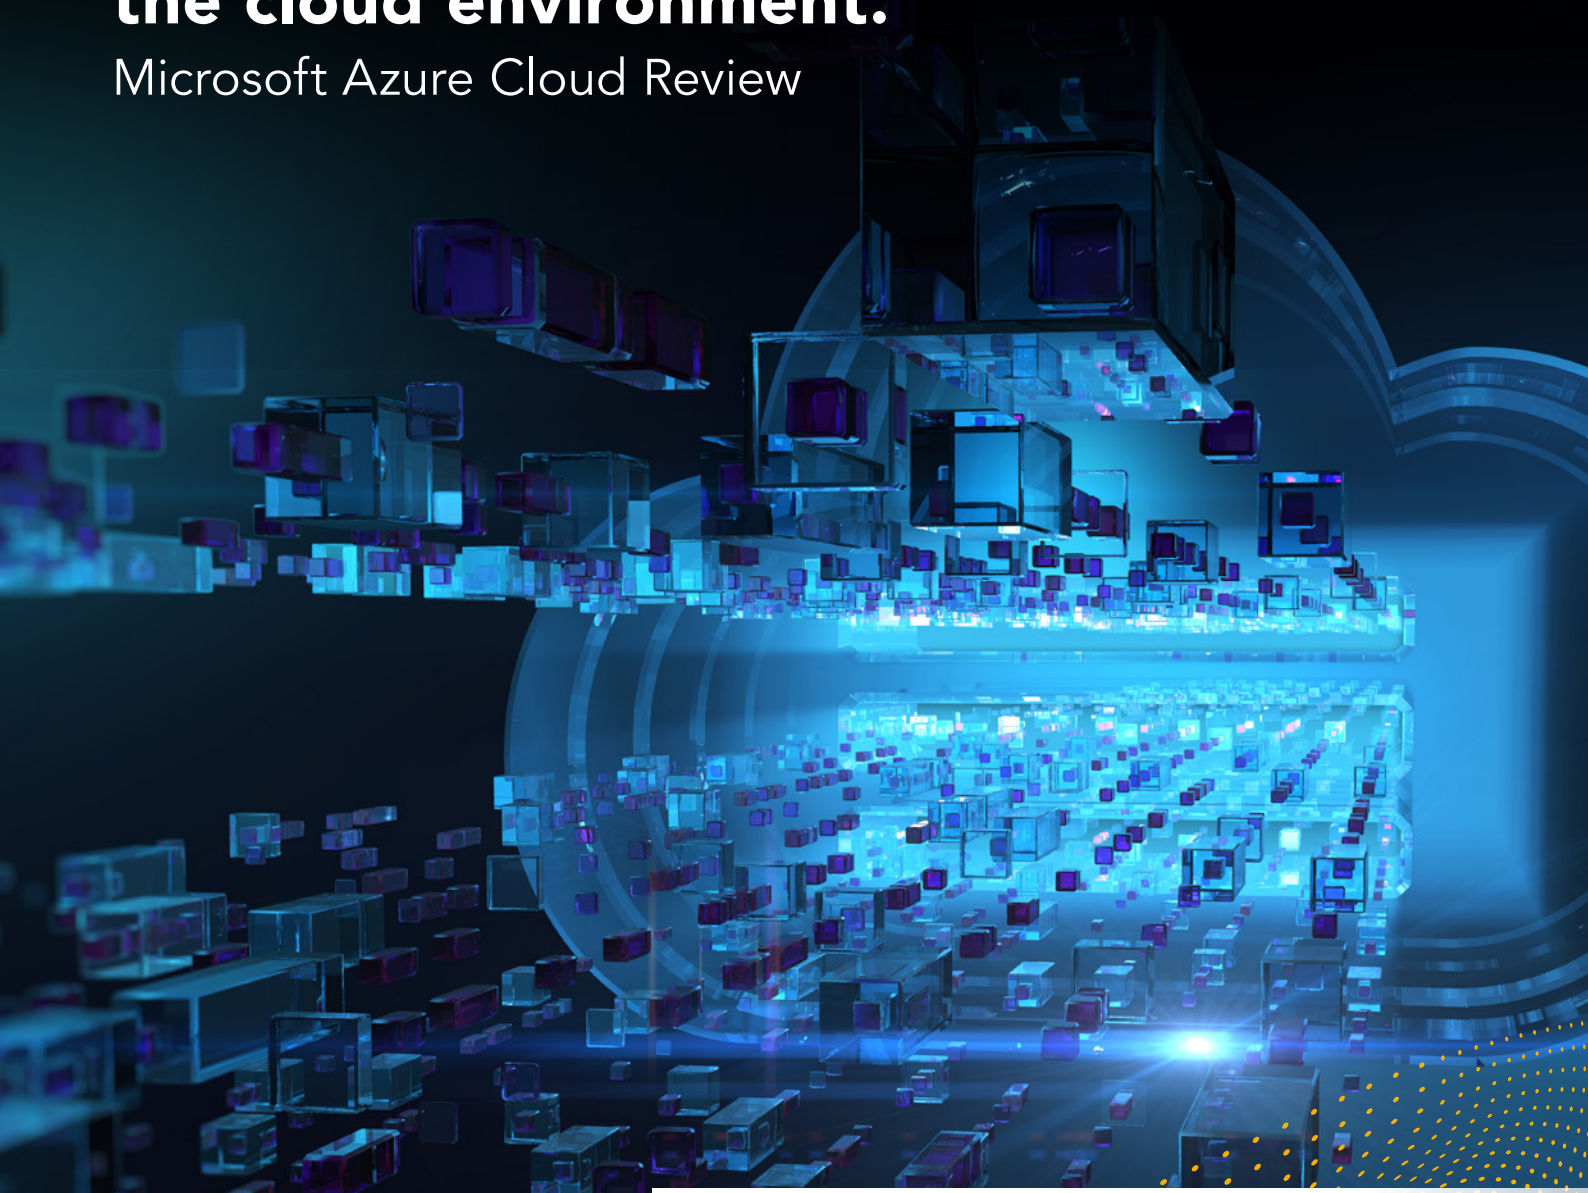
// we transform for the better

Securely and optimally managing the cloud environment.

Microsoft Azure Cloud Review



Microsoft Azure has been one of the most successful hyperscalers for years now. The high agility of hyperscalers makes it necessary to regularly adapt the configuration to ensure secure and optimal management of the cloud environment. Our specialists at K-Businesscom deal every day with these configuration tasks and the recommendations of Microsoft, and they employ a continuously evolving set of best practices that you, too, can benefit from.

k-business.com

A stable partner for a stable cloud environment.

K-Businesscom is Microsoft Partner of the Year 2020 and 2021 in Austria! This was made possible by the fast and agile development and implementation of numerous projects and the extensive knowledge of Microsoft technology gained in the process. Take advantage of our years of experience to ensure that your Microsoft Azure environment lives up to the current challenges.

Have your system reviewed by our experts to check compliance with the best practices of Microsoft and K-Businesscom AG based on the experience we have gained through many successful Azure projects.
